Samuel J. Wagstaff Jr. (1921–1987)

amassed an extraordinary collection of 26,000 photographs between 1973 and

1984, recognizing that photography was an undervalued art form on which he might have a profound impact as a collector. He was mainly attracted to photographs that stimulated his imagination, and his taste ran toward the idiosyncratic—images that surprised him chiefly because he had never seen them before. In choosing the 147 works reproduced in this volume, Paul Martineau selected masterpieces as well as images from obscure sources: daguerreotypes, cartes-de-visite, and stereographs, plus mug shots, medical photographs, and works by unknown makers. The latter category contains some of the most outstanding objects in the collection, demonstrating Wagstaff's willingness to position unfamiliar images alongside

works by established masters as well as underrepresented contemporary artists of the time, including Jo Ann Callis, William Garnett, and Edmund Teske. This book is published to accompany an eponymous exhibition on view at the J. Paul Getty Museum from March 15 to July 31, 2016; at the Wadsworth Atheneum in Hartford, CT, from September 10 to December 11, 2016; and at the Portland Museum of Art in Portland, ME, from February 1 to April 30, 2017.

THE COMPLETE FLOWERS

American photographer Richard Avedon captured stars with their 'masks dropped'. This publication presents over 100 of his most beautiful classical images.

Wagstaff: Before and After Mapplethorpe: A Biography Skira

The definitive collection of Robert Mapplethorpe's flower photographs Robert Mapplethorpe (1946–1989) is one of the twentieth century's most important artists, known for his groundbreaking and provocative work. He studied painting, drawing, and sculpture in Brooklyn in the 1960s and started taking photographs when he acquired a Polaroid camera, in 1970. Beginning in 1973 and until his death in 1989, Mapplethorpe explored the flower with extraordinary dedication, using a range of photographic processes — from Polaroids to dye-transfer color works. In carefully constructed compositions, he captured roses, orchids, snapdragons, daisies, tulips and other species — both common and rare — and forever

transformed the way we perceive a classic and familiar subject. The result — a stunning body of work — is collected in this elegant book, Mapplethorpe Flora: The Complete Flowers.

Some Women A&C Black

"... collection of photographs assembled around a particular theme: in each image, the gaze of the subject is averted, the face obscured or the eyes firmly closed. The pictures present a catalog of anti-portraiture, characterized at first glance by what its subjects conceal, not by what the camera reveals. Amassed over the course of thirty years by New York collector W. M. Hunt, the collection includes works by masters such as Richard Avedon, Diane Arbus, Imogen Cunningham, William Klein, Robert Mapplethorpe, and Robert Frank as well as lesser-known artists and vernacular images." --book jacket.

Mapplethorpe Flora Phaidon Press

An American original, Patti Smith is a multi-disciplined artist and performer. Her work is rooted in poetry, which infused her 1975 landmark album, *Horses*. A declaration of existence, *Horses* was described as 'three chords merged with the power of the word'; it was graced with

the now iconic portrait by Robert Mapplethorpe, the subject of her award-winning memoir *Just Kids*. Initially published in 1998, Patti Smith's *Complete Lyrics* was a testimony to her uncompromising poetic power. Now, on the fortieth anniversary of the release of Smith's groundbreaking album, *Collected Lyrics* has been revised and expanded with more than thirty-five additional songs, including her first, 'Work Song', written for Janis Joplin in 1970, and her most current, 'Writer's Song', to be recorded in 2015. The collection is liberally illustrated with original manuscripts of lyrics from Smith's extensive archive. Patti Smith's work continues to retain its relevance, whether controversial, political, romantic or spiritual. *Collected Lyrics* offers forty-five years of song, an enduring commemoration of Smith's unique contribution to the canon of rock and roll. *Mapplethorpe* W. W. Norton & Company In 1911 the French publisher Lucien Vogel challenged Edward Steichen to create the first artistic, rather than merely documentary, fashion photographs, a moment that is now considered to be a turning point in the history of fashion

photography. As fashion changed over the next century, so did the photography of fashion. Steichen's modernist approach was forthright and visually arresting. In the 1930s the photographer Martin Munkácsi pioneered a gritty, photojournalistic style. In the 1960s Richard Avedon encouraged his models to express their personalities by smiling and laughing, which had often been discouraged previously. Helmut Newton brought an explosion of sexuality into fashion images and turned the tables on traditional gender stereotypes in the 1970s, and in the 1980s Bruce Weber and Herb Ritts made male sexuality an important part of fashion photography. Today, following the integration of digital technology, teams like Inez & Vinoodh and Mert & Marcus are reshaping our notion of what is acceptable—not just aesthetically but also technically and conceptually—in a fashion photograph. This lavishly illustrated survey of one hundred years of fashion photography updates and reevaluates this history in five chronological chapters by experts in photography and fashion history. It includes more than three hundred photographs by the genre's most famous

practitioners as well as important but lesser-known figures, alongside a selection of costumes, fashion illustrations, magazine covers, and advertisements.

PHOTOGRAPHS AND MANNERIST PRINTS

Random House

Robert Mapplethorpe's black-and-white Polaroid photographs of the 1970s—a medium in which he established the style that would bring him international acclaim—are brought together in this new paperback edition. Critically praised for his finely modeled and classically composed photographs, Robert Mapplethorpe remains intensely controversial and enormously popular. This book brings together almost 300 images from the Robert Mapplethorpe Foundation's archive and private collections to provide a critical view of Mapplethorpe's formative years as an artist, revealing the themes that would inspire Mapplethorpe throughout his career. Included is a selection of color Polaroids and objects incorporating his early "instant" photography. Some images convey a disarming tenderness and vulnerability, others a toughness and

immediacy that would give way in later years to more classical form. The author traces the development of Mapplethorpe's use of instant photography over a period of five years, from 1970 to 1975, when the artist worked mainly in this medium. The images include self-portraits; figure studies; still lifes; portraits of lovers and friends such as Patti Smith, Sam Wagstaff, and Marianne Faithful; and observations of everyday objects. Marked by a spontaneity and creative curiosity, these fragile images offer an illuminating contrast to the glossy perfection of the work for which Mapplethorpe is best known, allowing us a more personal glimpse of his artistry.

PHOTOGRAPHS FROM THE UNCONSCIOUS

This work presents a collaboration between photographer Robert Mapplethorpe and body builder/performance artist Lisa Lyon. It explores the themes of gender, stereotype and role-playing and has become a cult classic since its initial publication in 1983. **Photographs** Te Neues Publishing Group
Celebrated photographer Robert

Mapplethorpe challenged the limits of censorship and conformity, combining technical and formal mastery with unexpected, often provocative content that secured his place in history. Mapplethorpe's artistic vision helped shape the social and cultural fabric of the 1970s and '80s and, following his death in 1989 from AIDS, informed the political landscape of the 1990s. His photographic works continue to resonate with audiences all over the world. Throughout his career, Mapplethorpe preserved studio files and art from every period and vein of his production, including student work, jewelry, sculptures, and commercial assignments. The resulting archive is fascinating and astonishing. With over 400 illustrations, this volume surveys a virtually unknown resource that sheds new light on the artist's motivations, connections, business acumen, and talent as a curator and collector.

Traces the efforts of Bob Langmuir to authenticate photographs he discovered in the Hubert's Museum archives that he believed to be prints by a legendary

photographer.

Mapplethorpe Macmillan

A revised and updated edition of the most comprehensive survey published of Mapplethorpe's photography Robert Mapplethorpe was one of the twentieth century's most important and influential artists, known for his groundbreaking and provocative work. He studied painting, drawing, and sculpture in Brooklyn in the 1960s and started taking photographs when he acquired a Polaroid camera in 1970. This comprehensive monograph is an overview of the artist's black-and-white photography of floral still lifes, nudes, selfportraits, and portraits, among other subjects—and also includes a selection of his color images.

A CRITICAL SELECTION OF PAINTERS AND SCULPTORS WORKING IN NEW YORK

Getty Publications

Controversial, misunderstood, and sometimes overlooked, Minor White (1908–1976) is one of the great photographers of the twentieth century, whose ideas exerted a powerful influence on a generation of photographers and still

resonate today. His photographic career began in 1938 in Portland, Oregon, with assignments for the WPA (Works Progress Administration). After serving in World War II and studying art history at Columbia University, White's focus shifted toward the metaphorical. He began creating images charged with symbolism and a critical aspect called equivalency, referring to the invisible spiritual energy present in a photograph made visible to the viewer. This book brings together White's key biographical information—his evolution as a photographer, teacher of photography, and editor of *Aperture*, as well as particularly insightful quotations from his journals, which he kept for more than forty years. The result is an engaging narrative that weaves through the main threads of White's life, his growth as an artist, as well as his spiritual search and ongoing struggle with his own sexuality and self-doubt. He sought comfort in a variety of religious practices that influenced his continually metamorphosing artistic philosophy. Complemented with a rich selection of more than 160 images including some never published before, the book accompanies the first major

exhibition of White's work since 1989, on view at the J. Paul Getty Museum from July 8 to October 19, 2014.

Robert Mapplethorpe and the Classical Tradition Inst of Contemporary Art

This "admiring and absorbing biography" (Deborah Solomon, The New York Times

Book Review) charts Sam Wagstaff's incalculable influence on contemporary

art, photography, and gay identity. A

legendary curator, collector, and patron of

the arts, Sam Wagstaff was a "figure who stood at the intersection of gay life and

the art world and brought glamour and daring to both" (Andrew Solomon). Now, in Philip Gfelter's groundbreaking biography, he emerges as a cultural visionary. Gfelter documents the influence of the man who—although known today primarily as the mentor and lover of Robert Mapplethorpe—"almost invented the idea of photography as art" (Edmund White). Wagstaff: Before and After Mapplethorpe braids together Wagstaff's personal transformation from closeted society bachelor to a rebellious curator with a broader portrait of the tumultuous social, cultural, and sexual upheavals of the 1960s, '70s, and '80s, creating a definitive portrait of a man and his era.
