IB Chinese A (SL): First language A: literature course, which introduces students to the analysis of literary texts. It is the course through which

the IB's policy of mother-tongue entitlement is delivered. The course is organized into three areas of exploration and seven central concepts, and focuses on the study of literary works. Together, the three areas of exploration of the course add up to a comprehensive exploration of literature from a variety of cultures, literary forms and periods. Students learn to appreciate the artistry of literature, and develop the

ability to reflect critically on their reading, presenting literary analysis powerfully through both oral and written communication. The testing  
and  
assessment of  
language  
competence  
continues to  
be a much  
debated issue  
in foreign  
language  
teaching and  
research. This  
book is the

first one to  
address the  
testing of four  
important  
dimensions of  
foreign  
language  
education  
which have  
been left  
largely  
unconsidered:  
learner  
autonomy,  
intercultural  
competence,  
literature and  
literary  
competence,  
and the  
integration of  
content and  
language  
learning. Each  
area is  
considered  
through a  
theoretical  
framework,  
followed by  
two empirical  
studies,

raising  
questions of  
importance to  
all language  
teachers: How  
can one test  
literary  
competence?  
Can  
intercultural  
competence  
be measured?  
What about  
the integrated  
assessment of  
content-and-  
language in  
CLIL and  
teaching? Is  
progress in  
autonomous  
learning skill  
gaugeable?  
The book  
constitutes  
essential  
reading for  
anyone  
interested in  
the testing  
and  
assessment of

seemingly largely untestable aspects of foreign language competence. "The title of this book is well chosen. Despite the apparent oxymoron, this collection of papers succeeds in addressing important issues of educational policy and theory with the precision born of empirical work combined with discussion of principles. This book will open new options for testers, for

teachers and for those who make policy decisions." Michael Byram, School of Education, University of Durham, UK
