A guide to today's urban cycling renaissance, with information on cycling's health benefits, safety, bikes and bike equipment, bike lanes, bike sharing, and other topics. Bicycling in cities is booming, for many reasons: health and environmental benefits, time and cost savings, more and better bike lanes and paths, innovative bike sharing programs, and the sheer fun of riding. City Cycling offers a guide to this urban cycling renaissance, with the goal of promoting cycling as sustainable urban transportation available to everyone. It reports on cycling trends and policies in cities in North America, Europe, and Australia, and offers information on such topics as cycling safety, cycling infrastructure provisions including bikeways and bike parking, the wide range of bike designs and bike equipment, integration of cycling with public transportation, and promoting cycling for women and children. City Cycling emphasizes that bicycling should not be limited to those who are highly trained, extremely fit, and daring enough to battle traffic on busy roads. The chapters describe ways to make city cycling feasible, convenient, and safe for commuters to work and school, shopping trips, visits, and other daily transportation needs. The book also offers detailed examinations and illustrations of cycling conditions in different urban environments: small cities (including Davis, California, and Delft, the Netherlands), large cities (including Sydney, Chicago, Toronto and Berlin), and "megacities" (London, New York, Paris, and Tokyo). These chapters offer a closer look at how cities both with and without historical cycling cultures have developed cycling programs over time. The book makes clear that successful promotion of city cycling depends on coordinating infrastructure, programs, and government policies.

Peter Walker—reporter at the Guardian and curator of its popular bike blog—shows how the future of humanity depends on the bicycle. Car culture has ensnared much of the world—and it's no wonder. Convenience and comfort (as well as some clever lobbying) have made the car the transportation method of choice for generations. But as the world evolves, the high cost of the automobile is made clearer—with its dramatic effects on pollution, the way it cuts people off from their communities, and the alarming rate at which people are injured and killed in crashes. Walker argues that the simplest way to tackle many of these problems at once is with one of humankind's most perfect inventions—the bicycle. In *How Cycling Can Save the World*, Walker takes readers on a tour of cities

like Copenhagen and Utrecht, where everyday cycling has taken root, demonstrating cycling's proven effect on reducing smog and obesity, and improving quality of life and mental health. Interviews with public figures—such as Janette Sadik-Khan, who led the charge to create more pedestrian- and cyclist- friendly infrastructure in New York City—provide case studies on how it can be done, and prove that you can make a big change with just a few cycling lanes and a paradigm shift. Meticulously researched and incredibly inspiring, *How Cycling Can Save the World* delivers on its lofty promise and leads readers to the realization that cycling could not only save the world, but have a lasting and positive impact on their own lives.

Damien and Jay don't exist. Officially. Unofficially, they're genetically engineered operatives with an impossible mission. One of their agency's best operatives has gone rogue, and they're sent to stop her. But when Damien and Jay start to experience alternate memories and missing gaps in time, they realize there's more to this mission than they were supposed to know. And their hunt for the truth will take them to some dangerous places... If you love conspiracies and covert ops, this book is for you. What readers are saying: ★★★★★ "I COULDN'T PUT IT DOWN. Nathan Farrugia is in a class by himself. You can't help but enjoy this adventure." ★★★★★ "What an amazing series. Plenty of action, thrills, gut-wrenching pace, cool weapons/gadgets and well written story." ★★★★★ "Can I give this book 10 stars? It kept me on the edge of my seat from the first page to the last!" ★★★★★ "The Fifth Column series is a tour de force. This amazing series deserves a 5 star review." ★★★★★ "Really humorous, lots of action and the characters are so much fun. Loved it. Fast-paced, entertaining read." ★★★★★ "I picked up a copy of *The Chimera Vector* thinking it would be a standard adventure novel. I was wrong. From the sands of the Middle East to the streets of New York, Nathan Farrugia has taken the techno-action/spy novel pioneered by David Morrell and given it steroids." ★★★★★ "Farrugia weaves an amazing tale of power, deceit and double crosses. Espionage at its finest, intrigue that will tighten your gut and light every nerve on fire, *The Chimera Vector* goes far beyond science fiction and becomes a fast-paced mystery-thriller that defies early detection of where we are headed." ★★★★★ "This is going down as one of the best series I've read. And that's saying something. Filled with intense action with enough sci-fi and thriller to make me grin like I found the girl of my dreams." ★★★★★ "Loved it. High paced action thriller it definitely is. You think you know where it is going then the plot twists again. It really kept me turning the pages to see what was going to happen next." ★★★★★ "An excellent fast paced series that merges science, science fiction and adventure in one well written read that will make it impossible to put down." ★★★★★ "Oh. Wow. What a book. I found *The Chimera Vector* to be well written, thoroughly entertaining, and at times unbearably suspenseful. I was literally holding my breath." ★★★★★ "All the action that I really enjoyed in the first one and hoped would continue... the sequel blew that out of the ballpark. Amazing book, even better than the first, if that's possible! Love all the characters." ★★★★★ "Be warned! This series is totally addictive. Don't start this unless you're ready for a wild action-packed ride." About the author Nathan M. Farrugia is an Australian technothriller writer, and author of the USA Today bestselling *Helix* and *Fifth Column* series. Nathan is known for placing himself in dangerous situations, including climbing rooftops in Russia and being hunted by special forces trackers in the United States. He studies Systema, a little-known martial art and former secret of Russian special forces. Beyond his army training, Nathan has trained under USMC, SEAL team, Spetsnaz and Defence Intelligence instructors, and the wilderness and tracking skills of the Chiricahua Apache scouts and Australian Aboriginals. Nathan is currently in Malta, co-writing the sequel to the critically acclaimed video game *Metro Exodus* by 4A Games. Also by Nathan M. The Shadows of Rhodes series opens with Helen and Morgan, old friends and traveling companions, struggle to get to their destination. Everything seems to go wrong. By the time they reach Rhodes, two days of their two-week vacation was plagued by the traveler's nightmare. They are rescued by a taxi driver in the middle of the night while they walked toward civilization. Helen finds an attraction to their taxi driver that seems to awaken feelings in her that she hadn't felt in a very long time. In a

less than ideal marriage arrangement, Helen struggles to resist the Greek taxi driver. She is drawn to him and yet she knows that she will be going home soon. The purchase of an old photograph in a souvenir shop, coupled with an undying curiosity into things better left buried, has Helen unaware of the value of her find. As *The Beginning*, the first book of the series unfolds, elements that surround the photograph begin to intrude on an otherwise perfect vacation. With the help of the friendly taxi driver and his family, Helen is able to learn part of the story of the child in the photo. News that the framed photo has been found by tourists becomes known to unscrupulous thugs, while a burning attraction to the taxi driver has her fighting his magnetic pull on her.

Slow Cities: Conquering Our Speed Addiction for Health and Sustainability demonstrates, counterintuitively, that reducing the speed of travel within cities saves time for residents and creates more sustainable, liveable, prosperous and healthy environments. This book examines the ways individuals and societies became dependent on transport modes that required investment in speed. Using research from multiple disciplinary perspectives, the book demonstrates ways in which human, economic and environmental health are improved with a slowing of city transport. It identifies effective methods, strategies and policies for decreasing the speed of motorised traffic and encouraging a modal shift to walking, cycling and public transport. This book also offers a holistic assessment of the impact of speed on daily behaviours and life choices, and shows how a move to slow down will - perhaps surprisingly - increase accessibility to the city services and activities that support healthy, sustainable lives and cities. Includes cases from cities in North and South America, Europe, Asia, Africa and Australasia Uses evidence-based research to support arguments about the benefits of slowing city transport Adopts a broad view of health, including the health of individuals, neighbourhoods and communities as well as economic health and environmental health Includes text boxes, diagrams and photos illustrating the slowing of transport in cities throughout the world, and a list of references including both academic sources and valuable websites

This completely revised and updated text, now in its Third Edition, continues to explain the underlying concepts of product management. In the process, the book equips the budding as well as the practising managers with sufficient knowledge about how to deal with different problems faced in managing any typical fast moving consumer good or durable product. Divided into three parts, the book provides, in Part I, a macro perspective of the Indian market. Part II offers an analytical discussion interspersed with vivid illustrations on conceptual issues like branding, segmentation, positioning and differentiation. Part III features several new products; it also provides latest information on the products presented in the earlier edition. In addition, it analyzes the current market situation prevailing for a particular product in India. Finally, here, each chapter shows how leading companies are successfully marketing the particular product in the Indian market. WHAT IS NEW IN THIS EDITION : The new edition incorporates the challenges offered by many new trends like growth of modern trade, explosion of the media, and the increasing influence of rural market in India. Chapters on The Indian Market: Emerging Panorama, and New Marketing Challenges expose the students to contemporary concepts and examples. Part III offers new chapters on market analysis on products such as Tea, Soft Drinks, Chocolates, Malted Beverages, Packaged Drinking Water, Tooth-Paste, Detergents, Fairness Cream, Footwear, Mobile Phones, and Digital Camera. Besides, it gives up-to-date background information for other products covered in the earlier edition. The Student CD contains a set of PowerPoint Presentations (PPTs) of 20 products. This well-established study has been widely adopted as a textbook in MBA programmes across the country. The Third Edition is more profusely illustrated with exhibits, diagrams and PPTs, and should be of immense utility and worth to the students of management as well as practising brand managers and executives in the advertising arena.

This volume chronicles the maturation of the South Korean auto industry and its native automakers, from the 1997 Asian Crisis to 2019. After examining the context for domestic vehicle production in South Korea, the author presents multiple case studies for all five Korean automakers: General Motors Korea/Daewoo Motors, Kia, Hyundai, Ssangyong and Renault Samsung. This includes coverage of Hyundai-Kia's foreign plants in North America, Europe, India, China, and Emerging Asia. The book closes by assessing the five-to-ten-year future outlooks for Korean automakers at home and abroad. This important work will prove informative to scholars of business, management, automotive history, international development, Asian studies, and public administration.

There's no business like the car business! Within months of its launch in late 1998, with every well-known global automobile brand jockeying for a foothold in a small-car market almost monopolized by Maruti Udyog Limited, Hyundai Motor India's debut production, the Santro, emerged as a force to reckon with. The first car to be conceptualized and designed for ? and then developed and manufactured in ? India, the `Sunshine Car' has, over a period of sixteen years, set the record for the quickest small car brand to go from zero to one million units sold. It achieved profitability for Hyundai at an unprecedented speed and made an impressive global impact as a made-in-India automobile in markets as diverse as Algeria and Zimbabwe. Western Europe and North America. In Santro: The Car That Built a Company, BVR Subbu, who spearheaded much of the Santro's success,

reveals the hitherto untold story of how this small car made such a big impact. Vivid anecdotes detail the challenges of introducing a new product in a new market, the canny business strategies that were employed to get the better of rival brands, the unforgettable marketing campaigns that made all the difference ? and the thrills of the high-stakes power battles and everyday drama that characterize corporate India. By turns revelatory, insightful and delightfully engaging, this is a business story with a difference about a car like no other.

Ingrid Lundström, the daughter of a wealthy Swedish banker, has been a global roamer since she left school. An iconic blond, she resembles Agnetha Fältskog of Abba fame. These attributes dominate her existence, especially when she moves to Papua New Guinea, to work. Because of her connection to wealth, she becomes the target of criminals. Because of her appearance, she attracts special interest at every turn. When aspiring teacher Michael Mannion hears about Ingrid's fate at the hands of kidnapers, he travels to Papua New Guinea to track her down and attempt a rescue. However, he encounters many surprises. What he doesn't know is that he's as much the problem as the solution. They say love conquers all, but in a country where it's hard to separate fact from fiction, the serious from the lighthearted, and good guys from bad guys, love may not be enough. For Ingrid and Michael, love is their path to salvation but this path takes them on a different and sometimes unpredictable adventure.

The protagonist has Egyptian roots going back many generations: on her father's side, to the expulsion of the Jews of Spain in 1492, when seven brothers of the Kastil family (from Castilla) landed on the Gaza coast after many trials and tribulations. Her mother's side goes back even further, to the only family that Jewish history has ignored: the ones who said "No" to Moses and stayed in Egypt. After migrating to Israel in the 1950s and settling on a kibbutz—from which they were soon expelled for Stalinism—this storied clan moved to Tel Aviv. In this unconventional family saga, Orly Castel-Bloom blends fact with fiction, history with legend, reimagining the lives of her forebears in unforgettable prose.

Strategic Reputation Management examines the ways in which organizations achieve "goodness" through reputation, reputation management and reputation strategies. It presents a contemporary model of strategic reputation management, helping organizations and stakeholders to analyze the business environment as a communicative field of symbols and meanings in which the organization is built or destroyed. Authors Pekka Aula and Saku Mantere introduce the eight generic reputation strategies, through which organizations can organize their stakeholder relationships in various ways. They illustrate their arguments using real-world examples and studies, from the Finnish Ski Association to Philip Morris International. This book serves as required reading in advanced courses covering public relations practice, advanced topics in PR, corporate communication, management, and marketing. Professionals working in PR, business, management and marketing will also find much of interest in this volume.
