In Big Brother: The Orwellian Nightmare Come True, Mark Dice details actual NSA high-tech spy systems, mind-reading machines, secret government projects, and emerging artificial intelligence programs that seem as if they came right out of George Orwell's novel Nineteen Eighty-Four. Orwell's famous book was first published in 1949, and tells the story of a nightmarish future where citizens have lost all privacy and are continuously monitored by the omniscient Big Brother surveillance system which keeps them obedient to a totalitarian government. The novel is eerily prophetic as many of the fictional systems of surveillance described have now become a reality. Mark Dice shows you the scary documentation that Big Brother is watching you, and is more powerful than you could imagine. - The National Security Agency - Facial Recognition Scanners -

What is the New World Order? Proponents say that it's an anticipated new era of global cooperation between diverse nations and cultures aimed at ushering in a utopia providing all the earth's citizens with everything they need. Detractors claim it's the systematic take-over by secret societies, quasi-government entities and corporations who are covertly organizing a global socialist all-powerful government which aims to regulate every aspect of citizens lives, rendering them a perpetual working-class while the elite leadership lives in luxury. Conspiracy theory expert Mark Dice looks at the evidence, claims, and conspiracy theories as he takes you down the rabbit

Every spring since 1954, a group of approximately one hundred of the world's most powerful businessmen, politicians, media moguls, and international royalty meet in secret for several days to discuss the course of the world. Called the Bilderberg Group after the Bilderberg Hotel in Oosterbeek, Holland where their first meeting was held, this off the record annual gathering is said to be where the globalist puppet masters plot and scheme. Does this group of power elite develop new political, economic, and cultural policies that are then covertly implemented by their underlings? Do they choose who our world leaders will be, including the next president of the United States? Is the Bilderberg Group a shadow government? Are they the Illuminati? Why has the mainstream media had a complete blackout regarding their meetings for decades? Who attends? And who pays for it? Is this "just another conference?" Or, are the "conspiracy theorists" right? What is the evidence? How were they first discovered? What are they doing? And should the public be concerned? Secret society expert Mark Dice will show you the

hidden history, financial records, and some of the insider leaks showing how this small group's consensus has staggering effects on the political landscape of the world, global economies, wars, and more, as he uncovers "The Bilderberg Group: Facts & Fiction."

Few fields of academic research are surrounded by so many misunderstandings and misconceptions as the study of Western esotericism. For twenty years now, the Centre for History of Hermetic Philosophy and Related Currents (University of Amsterdam) has been at the forefront of international scholarship in this domain. This anniversary volume seeks to make the modern study of Western esotericism more widely known beyond specialist circles, while addressing a range of misconceptions, biases, and prejudices that still tend to surround it. Thirty major scholars in the field respond to questions about a wide range of unfamiliar ideas, traditions, practices, problems, and personalities that are central to the field. By challenging many taken-for-granted assumptions about religion, science, philosophy, and the arts, this volume demonstrates why the modern study of esotericism leads us to reconsider much that we thought we knew about the story of Western culture.

WikiLeaks and Anonymous are driven by the same ideals and aims as the Illuminati were 250 years ago, and the next counter culture revolution has already begun online. Throughout history governments, dictators and religious leaders have fought to cling to power by either force or manipulation. To counter these there

have always been secret societies and groups working in the shadows for the emancipation of humanity. The Illuminati formed in 1776 among European Freemasons and academics with the intention of liberating humanity from physical, mental and spiritual bondage. This brought them into conflict with the ruling elite and religion, but during their brief incarnation they encapsulated the entire ethos of counter-culture into a single system of organized dissent that is still relevant today. The term Illuminati has since become usurped by the idea of a New World Order, but their principles live on through counter-culture and the connected communities of the internet age. Hacktivits and cultural movements like Anonymous and WikiLeaks currently wage war against corrupt corporations and government agencies that try to oppress and exploit society. This book is a wake up call for all who value their liberty and privacy to join the battle to protect counter-culture before it is too late.

Explore the World's Greatest Conspiracy Theories From an Objective Point of View! There are two sides to every story, and the truth lies somewhere in the middle... Since the end of the Cold War and the fall of the Soviet Union in 1991, the American public has become increasingly suspicious of its government's real intentions. life events, conspiracy theories are often filled with contradictions. The rise of the Internet has proved to be a fertile ground for developing conspiracy theories. The infamous Illuminati secret society represents the pinnacle of power in politics, banking, and the news media; but what about the entertainment industry? Do Hollywood's elite studios, producers, and celebrities have a secret agenda? Are they part of

a covert conspiracy? Media analyst Mark Dice will show you exactly how Hollywood uses celebrities and entertainment as a powerful propaganda tool to shape our culture, attitudes, behaviors, and to promote corrupt government policies and programs. You will see how the CIA and the Pentagon work hand in hand with Hollywood to produce blockbuster movies and popular television shows crafted to paint positive portraits of war, Orwellian government surveillance, unconstitutional agendas, and more. You'll also learn the strange and secret spiritual beliefs of the stars that fuel their egos and appetites for fame and wealth, making them perfect puppets for the corporate controllers behind the scenes. And you will also discover the rare instances of anti-Illuminati celebrities who have dared to bite the hand that feeds them. Character Howard Beale once warned in the 1976 classic film *Network*, "This tube is the most awesome God-damned force in the whole godless world, and woe is us if it ever falls in to the hands of the wrong people," and unfortunately that is exactly what has happened.

How are the origins of the French Revolution, the murder of the Romanovs, the design of the dollar bill and the Roswell UFO incident connected? The answer is one of the world’s most mysterious and feared secret societies – the Illuminati. References to the Illuminati span centuries, yet reliable historical evidence is scant. What is known is that on 1 May 1776, at the height of the European Enlightenment, Adam Weishaupt, a professor of canon law at the University of Ingolstadt in Bavaria, founded a secret society of freethinkers, or ‘enlightened ones’ – the Illuminati. The group was formed to discuss and disseminate the radical philosophies of the day, and secrecy was crucial to its

survival: neither church nor crown would have countenanced the group’s anticlerical and antimonarchist ideas. At its height the Illuminati numbered 2,500, with members across Europe, including some of the period’s leading thinkers. Yet just 12 years after the group’s founding, it was disbanded by a governmental edict and the Illuminati ceased to exist. Or did it? For nearly 250 years references to the Illuminati and its alleged influence on major world events have continued to resurface. There are those who claim the Illuminati is much older than its first recorded incarnation suggests, dating its origins to the time of the Pyramids, and others who believe the group is literally not of this planet but part of an alien culture bent on taking over the earth. This book looks at the reality and the myths, questions the allegations and explores how fears about the group have taken many different forms, whether fear of intellectuals during the Enlightenment, or fear of communists during the McCarthy era. An internet search reveals that belief in the group’s shadowy influence is positively thriving – what does that say about us today? And are we right to be afraid?

Secret societies have both fascinated and frightened people for hundreds of years. Often the infamous Illuminati is mentioned as the core of conspiracies which span the globe. The Illuminati is actually a historical secret society which had goals of revolutions and world domination dating back to the 1770s. Since then, rumors and conspiracy theories involving the Illuminati continue to spread, sometimes finding their way into popular novels like Dan Brown's *Angels & Demons* and Hollywood movies like *Lara Croft: Tomb Raider*. Some men have even come forward claiming to be former members, offering details of what they allege are the inner workings of the organization. When you sift through all of the information available on the subject, you may be surprised that the truth is stranger than fiction.
