**Structures Theory And Analysis M** Structures Theory And Analysis MThe Modigliani and Miller approach to capital theory, devised in the 1950s, advocates the capital structure irrelevancy theory. This suggests that the valuation of a firm is irrelevant to the capital structure of a company. Whether a firm is highly leveraged or has a lower debt component has no bearing on its market value.Capital Structure Theory - Modigliani and Miller (MM) ApproachThe Modigliani-Miller theorem (M&M) states that the market value of a company is calculated using its earning power and the risk of its underlying assets and is independent of the way it finances ...Modigliani-Miller Theorem (M&M)Structures : theory and analysis.
