Cambridge University Press

A language ministry can be one of the most important services your church offers to your community. It combines outreach, diaconal care, and educational ministries. It includes both literacy and ESL (English as a Second Language) and helps people improve their reading, writing, and speaking skills. It's easy to get started! All you need is a place to meet, volunteer tutors, and resources like Open Door Books. Members of the church and/or community serve as literacy tutors, usually working one-on-one or in small groups with people who are unable to read well. Open Door Books are designed especially for adults who are just learning to read and for those who are learning English as a second language. Written at a third- to fifth-grade reading level, they're essential for language ministries or literacy programs. This book is similar to *Teaching Adults: A Literacy Resource Book* (also featured on this page) but is especially useful for and informative to those who are new at teaching ESL. *Teaching Adults* Council of Europe
Effective science teaching requires creativity, imagination, and innovation. In light of concerns about American science literacy, scientists and educators have struggled to teach this discipline

more effectively. *Science Teaching Reconsidered* provides undergraduate science educators with a path to understanding students, accommodating their individual differences, and helping them grasp the methods--and the wonder--of science. What impact does teaching style have? How do I plan a course curriculum? How do I make lectures, classes, and laboratories more effective? How can I tell what students are thinking? Why don't they understand? This handbook provides productive approaches to these and other questions. Written by scientists who are also educators, the handbook offers suggestions for having a greater impact in the classroom and provides resources for further research.

Teaching English as a Foreign Or Second Language, Second Edition Routledge

Ernesto Macaro brings together a wealth of research on the rapidly expanding phenomenon of English Medium Instruction. Against a backdrop of theory, policy documents, and examples of practice, he weaves together research in both secondary and tertiary education, with a particular focus on the key stakeholders involved in EMI: the teachers and the students. Whilst acknowledging that the momentum of EMI is unlikely to be diminished, and identifying its potential benefits, the author raises questions about the ways it has been introduced and developed, and explores how we can arrive at a true cost-benefit analysis of its future impact. "This state-of-the-art monograph presents a wide-ranging, multi-perspectival yet coherent overview of research, policy, and practice of English Medium Instruction around the globe. It gives a thorough, in-depth, and thought-provoking treatment of an educational phenomenon that is spreading on an unprecedented scale." Guangwei Hu, National Institute of Education, Singapore Additional online resources are available at www.oup.com/elt/teacher/emi Ernesto Macaro is Professor of Applied Linguistics at the University of Oxford and is the founding Director of the Centre for Research and Development on English Medium Instruction at the university. Oxford Applied Linguistics Series Advisers: Anne Burns and Diane Larsen-Freeman

Road to Teaching Teach Yourself English-medium instruction (EMI) has become a pervasive teaching model in recent higher education. The implementation of EMI programs requires changes in university teaching methods since most lecturers need to adapt their contents and the way they

teach them to successfully work in foreign language environments. The rapid proliferation of such programs has resulted in concern among teaching staff, who have felt pushed towards teaching their subject content through a non-native language with little or no previous training. As a result, many recent studies have highlighted the importance and urgency to train teaching staff in terms of language proficiency and the appropriate teaching methods, techniques, and strategies to be applied in EMI lessons. *Teacher Training for English-Medium Instruction in Higher Education* is an academic research publication that provides comprehensive research on effective approaches and experiences in teacher training for EMI at universities both in terms of language skills and teaching methodologies and that analyzes the design and development of comprehensive teacher training programs that successfully engage these EMI programs. It has profound implications for the development of the international profile of higher education institutions as it provides information on how to train highly-qualified lecturers to successfully teach students from different nationalities. Featuring a wide range of topics such as assessment, curriculum design, and learning styles, this book is ideal for pre- and in-service teachers, language specialists, content specialists, administrators, deans, higher education faculty, researchers, practitioners, curriculum designers, policymakers, academicians, and students.

TEACHING ENGLISH IN VIETNAM

IGI Global

This resource was produced as part of a DETYA project aimed at helping

language teachers and workplace trainers working with adult migrant learners of English as a second language to increase their confidence on teaching pronunciation effectively. 'Teaching Pronunciation' seeks to provide detailed frameworks for teachers to use in working on pronunciation with a range of different ESL learners in a range of different types of situation. Attention is focused on two main issues: 1. The need to integrate work on pronunciation into other kinds of classes and training, as well as or instead of teaching pronunciation separately in dedicated classes 2. The need to offer assistance to those who need to teach pronunciation in workplace as well as in classroom contexts, since, increasingly, language tuition is part of workplace training, where the situation and challenges are quite different from those of the traditional classroom context In both these contexts, teachers need to be equipped to deal with a range of different types of learners, who in turn have a wide range of different needs and constraints. The frameworks outlined here are intended to offer flexible but effective principles and practices that teachers can adapt to their own particular circumstances. Contents: - Introduction -Background to the frameworks -Framework 1: Teaching beginners -Framework 2: Teaching more advanced learners -Framework 3: Teaching pronunciation in the workplace.

 A Book for Every Teacher: Teaching English Language Learners is a unique and compressive text written for mainstream classroom teachers. The passion for writing this book comes from our working experiences with the K-12 teachers in four school districts through

our ELL Center professional development program. Through this program, we provide professional training through our federally funded research and service projects. The purpose of our professional training is to prepare general education teachers to work effectively with English language learners (ELLs). While working with the teachers on a daily basis, we know the immediate needs of the teachers. This motivated us to embark this book project. In recent years, the ELL school population has the highest increase among school populations. As the NEA data indicates, providing ELL students with high quality services and programs is an important investment in America's future (NEA, 2013). This book is our investment in helping teachers to meet their challenges and provide useful information and strategies for teaching ELLs. The book is designed with K-12

teachers in mind. It is best used by teachers who have or will have ELLs in their classrooms and who seek information and strategies to better work with and serve their ELLs to achieve academic success. With this design, teachers can use the book as a text or reference tool. This book can also be adopted as text materials for professional training. Teachers are the most important factor for ELLs' academic success.
