Economics 212 Principles of Macroeconomics Study Guide In a nation's macroeconomy, income must equal expenditure. This is true because, in every transaction, the income of the seller must be equal to the expenditure of the buyer. Gross domestic product (GDP) is a measure of the total income or total output in the economy. Principles of Macroeconomics Study Guide Make a ratio of the cost of the basket for each year to the cost in the base year. Multiply each ratio times 100. Each resulting number is the value of the index for that year. Compute inflation. Inflation is the percentage change in the price index from the preceding year.
