George Orwell was a much-respected English novelist, who wrote some of the finest pieces in literary criticism, It got published in August 1945. His work is animal farm The fiction based on Farm animals, the author has named them too. Such as Major (a majestic-looking pig), 3-dogs (Bluebell, Jessie, and Pincher), many hens, pigeons, ducklings,

sheeps and cows. Two horses, Boxer and Clover. Amongst them, Major is their leader. He wanted to speak on the nature of life on this earth and How any animal is now living. Animals complain that despite their hard labour, why then do they continue in the miserable condition They also com-plain about human beings that they use to steal nearly the whole of their produce. Their main enemy is - Man. The book narrates about the agony of ill-treated farm animals. 1984 George Orwell is the pen name of the author, Eric Arthur Blair. He was an English essayist, novelist, journalist and critic. His writings are based on social criticism, anti-Fascism, anarchism. The story behind its title is also very interesting, when Orwell finished this novel in 1948, this title was

chosen simply as the inversion of this year. So, at last, in the story, there is a celebration of massive victory of Okeanias over Eurasian armies in Africa. Also, Winston accepted that he loves Big Brother. How this happened What were the circumstances Winston refused to love Julia How this political storm took place For all, the story reveals step by step in an interesting manner. A mind-blowing novel of that time and forever.

George Orwell set out 'to make political writing into an art', and to a wide extent this aim shaped the future of English literature – his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While 1984 and Animal Farm are amongst the most popular classic novels in the English language, this new series of Orwell's essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In Politics and the English Language, the second in the Orwell's Essays series, Orwell takes aim at the language used in politics, which, he says, 'is designed to make lies

sound truthful and murder respectable, and to give an appearance of solidity to pure wind'. In an age where the language used in politics is constantly under the microscope, Orwell's Politics and the English Language is just as relevant today, and gives the reader a vital understanding of the tactics at play. George Orwell's *Nineteen Eighty-Four* is unquestionably the most famous dystopian novel of all times. Written in the year of 1948, the author swapped the last two digits while describing a future totalitarian society where the minds, attitudes and actions of the subjects are thoroughly scrutinized by the "Thought Police", suspected dissidents tracked down and where the worship of the mythical party leader Big Brother is forced upon the masses. The low-ranking party member Winston Smith begins secretly to question the whole system and initiates a forbidden love affair with another party member. *A Fairy Story* Research & Education Assoc.

Keep the Aspidistra Flying - George Orwell - Keep the Aspidistra Flying, first

published in 1936, is a socially critical novel by George Orwell. It is set in 1930s London. The main theme is Gordon Comstock's romantic ambition to defy worship of the money-god and status, and the dismal life that results. He etches the ugly insanity of what Gordon calls "the money-world" in unflinching detail, but the satire has a second edge, too, and Gordon himself is scarcely heroic. In the course of his misadventures, we become grindingly aware that his radical solution to the problem of the money-world is no solution at all--that in his desperate reaction against a monstrous system, he has become something of a monster himself.

1984, by George Orwell Fusion Books
 Air Emissions from Animal Feeding Operations: Current Knowledge, Future Needs discusses the need for the U.S. Environmental Protection Agency to implement a new method for estimating the amount of ammonia, nitrous oxide, methane, and other pollutants emitted from livestock and poultry farms, and for determining how these emissions are dispersed in the atmosphere. The committee calls for the EPA and the U.S.

Department of Agriculture to establish a joint council to coordinate and oversee short - and long-term research to estimate emissions from animal feeding operations accurately and to develop mitigation strategies. Their recommendation was for the joint council to focus its efforts first on those pollutants that pose the greatest risk to the environment and public health.
