What do you do when you are a twenty-five-year-old Yale graduate making half-a-million dollars a year as a hotshot investment banker on Wall Street? You bust your ass and become a millionaire by thirty, of course. Not if you are Samrat Ratan, born in the USA to immigrant Indian parents; you quit and enrol in business school in India instead. Samrat's rollercoaster journey begins at the Indian Institute of Management (IIM) in Bangalore, where he spends his time getting high on marijuana while his grades - and self-confidence - plummet. Soon, Samrat's quest for identity turns increasingly bizarre as it takes him places he hadn't planned on visiting - prison, for example - and makes him do things he hadn't banked on doing: 'meditating' stoned with a sexy Danish hippie in the Himalayas, hanging out with a cannibal on the banks of the Ganga, and peddling soap to the formidable Raja Bhaiya in Benares.

Does Samrat - Yale valedictorian, investment banker, convict, pothead - survive his fall from grace?

*Orientalism and Religion* SAGE Publications

This Dictionary includes the vocabulary of Post-Vedic literature with emphasis on philosophical, grammatical and rhetorical terms. Further this is the only handy dictionary of its kind which breaks a word into its component parts and refers to the roots deducible from Sanskrit derivatives alone by way of comparative philological analysis. The work is therefore highly useful for the etymological analysis and linguistic training.

## KEEP OFF THE GRASS

Cambridge University Press

This collection analyzes the affinities and interactions between Indic and Judaic civilizations from ancient to contemporary times. The contributors propose a new, global understanding of commerce and

culture, to reconfigure how we understand the way great cultures interact, and present a new constellation of diplomacy, literature, and geopolitics.

Motilal Banarsidass Publ.

Contemporary dilemmas, whether in business or politics, bear an uncanny resemblance to the predicaments witnessed in the ever-timely epic, the Mahabharata. Who else but Bhishma Pitamah then to the rescue of the modern-day manager, politician or bureaucrat! In the epic, Bhishma is the upholder of truth and dharma, his life shaped by the difficult choices he makes. He isn't always infallible, but even where his decisions are questionable, he serves as a role model. Prof. N. Balasubramanian uses this powerful figure and his selfless values as a guide to make the right choices in *The Bhishma Way*. He discusses the importance of values, dharma, truth, justice and governance in businesses and governments. Analyses of real-life cases—among them, Union Carbide and the Bhopal gas tragedy, James Hardie and asbestos in Australia, and Ok Tedi in Papua New Guinea—complement the mythological stories and insightful

anecdotes in this illuminating and thought-provoking book. This serves as an instructive read for anyone striving for a higher moral code in day-to-day decision-making and leadership.

Modern environmental regulation and its complex intersection with international law has led many jurisdictions to develop environmental courts or tribunals. Strikingly, the list of jurisdictions that have chosen to do this include numerous developing countries, including Bangladesh, Kenya and Malawi. Indeed, it seems that developing nations have taken the task of capacity-building in environmental law more seriously than many developed nations. Environmental Justice in India explores the genesis, operation and effectiveness of the Indian National Green Tribunal (NGT). The book has four key objectives. First, to examine the importance of access to justice in environmental matters promoting sustainability and good governance. Second, to provide an analytical and critical account of the judicial structures that offer access to environmental justice in India. Third, to analyse the establishment, working practice and effectiveness of the NGT in advancing a distinctively Indian green jurisprudence. Finally, to present and review the success and external challenges faced and overcome by the NGT resulting in growing usage and public respect for the NGT's commitment to environmental protection and the welfare of the most affected people. Providing an informative analysis of a growing judicial development in India, this book will be of great interest to students and scholars of environmental justice, environmental law, development studies and sustainable development.

### A VIEW FROM THE MARGIN

Orient Book Distributors  
TERRAINS OF CONSCIOUSNESS emerges from an Indian-German-Swiss research collaboration. The book makes a case for a phenomenology of globalization that pays attention to locally situated socioeconomic terrains, everyday practices, and cultures of knowledge. This is exemplified in relation to three topics: - the tension between 'terrain' and 'territory' in Defoe's

'Robinson Crusoe' as a pioneering work of the globalist mentality (chapter 1) - the relationship between established conceptions of feminism and the concrete struggles of women in India since the 19th century (chapter 2) - the exploration of urban space and urban life in writings on India's capital - from Ahmed Ali to Arundhati Roy (chapter 3).

Books in Print Supplement Random House India

Widely respected yoga teacher and author Richard Rosen draws on ancient yoga encyclopedias to explain how yoga was practiced before it became popular in the West. He compares the three main existing sources known to yoga scholars to describe how complex and rich the practice of yoga once was. It included systematic teachings on personal hygiene, good health, and good relationships, and other practices of yoga that went far beyond just the physical postures. Each section of the book offers a guided practice session of ancient poses and breathing techniques to enable readers to connect to the roots of their yoga and to offer a framework from which to understand the sequences they use in their regular sessions.

### INDO-JUDAIC STUDIES IN THE TWENTY-FIRST CENTURY

Harper Collins

The Apocalypse of Enoch and Bhuśunda  
The Apocalypse of Enoch and Bhuśunda challenges the underlying assumptions of the classical roots of civilization by restoring the original context of creation mythology. In this second volume of *A Chronology of the Primeval Gods and the Western Sunrise*, ancient myths from multiple geographies are correlated to spikes in cosmic rays over the past 120,000 years - as documented in ice core data. The chronology and content of these myths tell us that the primary forces behind these cataclysms were the most ancient gods - hyper-nova at the Galactic Center associated with Sgr A\* (The Dragon), Sgr West (The Beast) and Sgr East (Hiranyāksha and Hiranyakas'ipu), with secondary supernova seen as the birth of new, destructive gods. Ancient myth has documented the cataclysmic destruction of the world on at least twenty occasions with four major geo-polar migrations, which has resulted in a shift of the earth's equator on at least one occasion. Multiple myths are shown to represent a view of the sky that can only be seen from the Antarctic region. Multiple versions of the myths of Orion are analyzed, showing clear linkages between the Vedic myth of Trisanku, the Book of

Genesis, Senmut's Tomb, and the myths of Prajāpati Dakṣa representing the oldest version of the Orion myth - older than Trishanku and Genesis by 20,000 years! The stunning conclusion explains how the "Watchers" of Enoch were the Vedic descendants of Ila and Iksvaku. These descendants of the seventh Manu had been observing and recording the stars as a source of cataclysm for at least 15,000 years prior to Enoch, thus allowing Enoch to prophesize a 'new heaven.' That prophecy became the foundation for St John's Book of Revelations, which is shown to be a description of a series of cataclysms attributed to Sgr West. The book offers a new theory for explaining geo-polar migration. That theory suggests small shifts in the location of the earth's center of gravity underlie each migration, but that there are multiple causes for the shifts.

**Terrains of Consciousness** Springer Nature

Since its inception, Islam and its civilization have been in continuous relationships with other religions. The essays collected here examine the many texts that have come down to us about these cultures and their religions, from Muslim theologians and jurists.

*Dictionary of Vedanta* Oxford University Press

This handbook explores mindfulness philosophy and practice as it functions in today's socioeconomic, cultural, and political landscape. Chapters discuss the many ways in which classic concepts and practices of mindfulness clash, converge, and influence modern theories and methods, and vice versa. Experts across many disciplines address the secularization and commercialization of Buddhist concepts, the medicalizing of mindfulness in therapies, and progressive uses of mindfulness in education. The book addresses the rise of the, "mindfulness movement", and the core concerns behind the critiques of the growing popularity of mindfulness. It covers a range of dichotomies, such as traditional versus modern, religious versus secular, and commodification versus critical thought and probes beyond the East/West binary to larger questions of economics, philosophy, ethics, and, ultimately, meaning. Featured topics include: A compilation of Buddhist meditative practices. Selling mindfulness and the marketing of mindful products. A meta-critique of mindfulness critiques - from McMindfulness to critical mindfulness. Mindfulness-based interventions in clinical psychology and neuroscience. Corporate mindfulness and usage in the workplace.

Community-engaged mindfulness and its role in social justice. The Handbook of Mindfulness is a must-have resource for clinical psychologists, complementary and alternative medicine professionals/practitioners, neuroscientists, and educational and business/management leaders and policymakers as well as related mental health, medical, and educational professionals/practitioners.

#### **Muslim Perceptions of Other Religions** Springer

"Here there be dragons"—this notation was often made on ancient maps to indicate the edges of the known world and what lay beyond. Heroes who ventured there were only as great as the beasts they encountered. This encyclopedia contains more than 2,200 monsters of myth and folklore, who both made life difficult for humans and fought by their side. Entries describe the appearance, behavior, and cultural origin of mythic creatures well-known and obscure, collected from traditions around the world. [The National Green Tribunal](#) McFarland This Book Is Scholarly And Systematic Attempt At The Synthesis Of The Ethics And Metaphysics Of The Gita Which Is One Of The Triple Foundations Of Vedanta And Represents The Quintessence Of The Hindu Weltanschauung. Without Dustjacket In Good Condition.

#### **Forthcoming Books** Dictionary of Vedanta

Loving Stones is a study of devotees' conceptions of and worshipful interactions with Mount Govardhan, a sacred mountain located in the Braj region of north-central India that has for centuries been considered an embodied form of Krishna. It is often said that worship of Mount Govardhan "makes the impossible possible." In this book, David L. Haberman examines the perplexing paradox of an infinite god embodied in finite form, wherein each particular form is non-different from the unlimited. He takes on the task of interpreting the worship of a

mountain and its stones for a culture in which this practice is quite alien. This challenge involves exploring the interpretive strategies that may explain what seems un-understandable, and calls for theoretical considerations of incongruity, inconceivability, and other realms of the impossible. This aspect of the book includes critical consideration of the place and history of the pejorative concept of idolatry (and its twin, anthropomorphism) in the comparative study of religions. Loving Stones uses the worship of Mount Govardhan as a site to explore ways in which scholars engaged in the difficult work of representing other cultures struggle to make "the impossible possible."

*Indian Books in Print* Taylor & Francis

Also It Takes A Close Look At Marriage, Sex Relations, Status Of Women, Spirituality, Religion, Philosophy, Language, Literature, Art And Living Conditions Of The People.

#### **MAKING THE IMPOSSIBLE POSSIBLE IN THE WORSHIP OF MOUNT GOVARDHAN**

Oxford University Press on Demand Law, Judges and Visual Culture analyses how pictures have been used to make, manage and circulate ideas about the judiciary through a variety of media from the sixteenth century to the present. This book offers a new approach to thinking

about and making sense of the important social institution that is the judiciary. In an age in which visual images and celebrity play key roles in the way we produce, communicate and consume ideas about society and its key institutions, this book provides the first in-depth study of visual images of judges in these contexts. It not only examines what appears within the frame of these images; it also explores the impact technologies and the media industries that produce them have upon the way we engage with them, and the experiences and meanings they generate. Drawing upon a wide range of scholarship – including art history, film and television studies, and social and cultural studies, as well as law – and interviews with a variety of practitioners, painters, photographers, television script writers and producers, as well as court communication staff and judges, the book generates new and unique insights into making, managing and viewing pictures of judges. Original and insightful, Law, Judges and Visual Culture will appeal to scholars, postgraduates and undergraduates from a variety of disciplines that hold an interest in the role of visual culture in the production of social justice and its institutions.

**The Religion of the Rigveda** Routledge The two volume set CCIS 1030 and 1031 constitutes the refereed proceedings of the Second International Conference on Computational Intelligence, Communications, and Business Analytics, CICBA 2018, held in Kalyani, India, in July 2018. The 76 revised full papers presented in the two volumes were carefully reviewed and selected from 240 submissions. The papers are organized in topical sections on computational intelligence; signal processing and communications; microelectronics, sensors, and intelligent networks; data science & advanced data analytics; intelligent data mining & data warehousing; and computational forensics (privacy and security).
