PROJECT MANAGEMENT

S. Chand Publishing
A "what" and "how"
guide for managers
who do not have a
formal background in
finance, this book
equips them to
perform their tasks
more effectively and
efficiently. It describes
the application of
concepts of finance in
the decision-making of
operating managers.

The book follows a
simple, non-technical
language in explaining
the concepts of
finance. The text is
divided into three parts
: Part I on Financial
Analysis deals with
profit and loss
statement, financial
ratios and funds flow
statement. Part II on
Cost Analysis is
devoted to a discussion
on the concepts of
cost, utility of costs in
decision making, and
profit planning and
control. Part III on
Funds Management
explains the
techniques of fund

allocation, working capital management, and financial planning and policy. This book is made reader-friendly by its lucid presentation of topics and by adopting a practical situational approach in solving problems. Besides practising operational managers, all those preparing for professional examinations would find this book to be of enormous help to them. The book is also suitable for students of business management. *FINANCE PHI Learning Pvt. Ltd.*

The Second Edition of the book encompasses two new chapters—Strategic Cost Management and Business Ethics—A Strategic Financial Management Instrument. The book,

being an augmented version of the previous edition, equips the young managers with the fundamentals and basics of strategic management and financial management in a cogent manner. The text now provides a better orientation to the students on the topics like corporate restructuring, divestitures, acquisitions, and mergers in the global context with the help of examples and caselets. The book has been revised keeping in view the requirements of postgraduate students of management and the students pursuing professional courses such as CA, MFC and CS. In addition, professionals working in the corporate sector may also find the book

beneficial to integrate the financial management functions into business strategy and financial operations. Distinctive features • Model question papers have been appended at the end of the book. • Better justification of topics by merging the contents wherever required. • Theory supported with caselets inspired from global as well as Indian context.

FINANCIAL SERVICES

Lulu Press, Inc

This volume argues for reforms in India's public spending and accounting systems. According to the author, it will help set performance standards and provide reliable information to monitor government expenditure. Critically analysing the cash

accounting system, he shows that it is inadequate to respond to the requirements of public accounting. Comparative in nature, the book explores the lessons learnt from cutting-edge accounting practices in the UK, New Zealand, Australia, and Sweden, and draws out and prescribes methods for India.

ONLINE BUSINESS SURVIVAL GUIDE SET

McGraw Hill Education
(India) Pvt Ltd
During the last few
years, India, with its
strong financial
system, has emerged
as one of the fastest
growing economies in
the world. In view of

the inevitable importance of financial system globally and in India, the present book is an attempt to provide an up-to-date overview of the Indian financial system and an elaborative discussion on its three wings: financial markets, institutions and services. **KEY FEATURES** □ Supported case studies and projects. □ Emerging issues like barter exchange, governance rating, and more. □ Current concepts, corporate practices, recent trends, and current data on the subject. □ Illustrations, tables, figures for a vivid visual impact and related concepts to real-life situations. □ Graded pedagogy—MCQs, True/ false, Fill in the blanks, Short answer

questions, Critical thinking questions and discussion problems at the end of each chapter. □ Solutions to all MCQs in the respective chapters. □ Instructor’s manual and Learning Material for students are available at www.phindia.com/Books/LearningCentre **TARGET AUDIENCE** • MBA • BBA • B.Com / M.Com • B.A. / M.A. Economics **Modern Financial Management** McGraw-Hill Education This text presents an accessible introduction to techniques and applications of economic analysis and financial accounting as a method for approaching real-life business problems for managerial decision making in a logical manner. It focusses on

the essential skills needed to formulate business policies that help gain a competitive edge in today's work environment. The book discusses the basic concepts, terminology, and methods that eventually allow students to interpret, analyse, and evaluate actual corporate financial statements. It covers the major areas of managerial economics and financial accounting such as the theory of the firm, the demand theory and forecasting, the production and cost theory and estimation, the market structure and pricing, investment analysis, accountancy, and different forms of business organisations. The book includes numerous examples, problems, self-

assessment tests, as well as review questions at the end of each chapter to aid in working out solutions to business problems. The book will be particularly suitable for courses in Managerial Economics and Financial Accounting as part of an engineering degree education at undergraduate level where the students have no previous background in economic and financial analysis. It will also be immensely useful for M.B.A., M.Com. and C.A. students, business executives, and administrators who need to learn the application of economic theory to realistic business situations.

FINANCIAL

MANAGEMENT EXERCISES & SOLUTIONS

McGraw-Hill Education

Financial Management
European Alliance for Innovation
Financial Management:

Theory and Practice celebrates the 23rd Anniversary of its publication. Over these two decades, Indian business and finance have considerably changed owing to deregulation, liberalisation, privatisation, globalisation, and the ascendance of the services sector. The book has kept pace with these changes and captures the central themes and concerns of corporate financial management-making it both contemporary and comprehensive. The book seeks to: *Build understanding of the central ideas and theories of modern finance *Develop familiarity with the analytical techniques helpful in financial decision making

*Furnish institutional material relevant for understanding the environment in which financial decisions are taken *Discuss the practice of financial management.

Financial Management from an Emerging Market Perspective PHI Learning Pvt. Ltd.

The dynamic economic climate invites participants who are grounded in strategic financial management and infrastructure development. Thus, a lack of sufficient infrastructure, in both quality and quantity, often disqualifies developing countries from being key players in the global economy and influences other socioeconomic problems like unemployment, quality of work life, and quality of life. Handbook of

Research on Strategic Business Infrastructure Development and Contemporary Issues in Finance discusses the efficiency of good infrastructure and its impact on socioeconomic growth and socioeconomic development in general and addresses contemporary aspects of the strategic financial management essential for accomplishing the objective of wealth maximization in today's challenging and competitive economy. This book is an essential research work for policy makers, government workers and NGO employees, as well as academicians and researchers in the fields of business, finance, marketing, management,

accounting, MIS, public administration, economics, and law.

A MANAGEMENT GUIDE

Tata McGraw-Hill
Education

This book is the proceeding of the International Conference on Sustainable Management and Innovation (ICoSMI 2020) that was successfully held on 14-16 September 2020 using an online platform. The conference was mainly organized by the Department of Management IPB University in collaboration with Leibniz University of Hannover, Universiti Putera Malaysia, Kasetsart University, Tun Hussein Onn University of Malaysia, Tamil Nadu Teachers Education University,

Deakin University, University of Adelaide, Forum Manajemen Indonesia, FE Pakuan University, FE Gajah Mada University FEB University of North Sumatra and FEB Andalas University, SBM Bandung Institute of Technology, FEB Lampung University, Perbanas Institute Jakarta, FE Bina Nusantara University, and SBE Prasetya Mulya University. This conference has brought academic researchers, business practitioners as well as graduate students together to exchange their experiences and research results about most aspects of innovation and sustainability, and discuss the practical challenges encountered and the solutions adopted.

About 402 delegates across the world including Indonesia, Malaysia, Thailand, Spain, China, and India have attended and presented their research works in the conference. The proceeding consists of 80 high-quality papers that were selected from more than 250 submitted papers. The papers are classified into 12 themes, namely Finance for Sustainability, Industry 4.0 and Future Business Sustainability, Policy and Strategy for Sustainable Innovation and Supply Chain, Smart Agriculture Management for Environmental Sustainability, and Sustainable Human Resources. Finally, we would like to express the greatest thanks to all colleagues in the

steering and organizing committee for their cooperation in administering and arranging the conference as well as reviewers for their academic works and commitment to reviewing papers.

A Casebook In
Financial Management
| Fourth Edition

Management; International Corporate Finance; Leasing; Mergers and Acquisitions; Corporate Governance MARKET: Appropriate for Undergraduate Corporate Finance courses.

Working Capital Management

BoD – Books on Demand Corporate Finance, by Ross, Westerfield, and Jaffe is a popular textbook that emphasizes the modern fundamentals of the theory of finance, while providing contemporary examples to make the theory come to life. The authors aim to present corporate finance as the working of a small number of integrated and powerful intuitions, rather than a collection of unrelated topics.

They develop the central concepts of modern finance: arbitrage, net present value, efficient markets, agency theory, options, and the trade-off between risk and return, and use them to explain corporate finance with a balance of theory and application. The well-respected author team is known for their clear, accessible

presentation of material that makes this text an excellent teaching tool. Brad Jordan, known for his successful work on the RWJ Fundamentals and Essentials books, contributed to this edition. His influence will be seen particularly in the writing style with smoother coverage of topics, and the increased quality in the problem material.
