DANIEL PRATT

SL and HL Core London : G. G. Harrap

Thorough and engaging, this new book has been specifically developed for the 2011 English A: Literature syllabus at both SL and HL. With activities, student model answers and examiner commentaries, it offers a wealth of material to support students in every aspect of the new course.

IB Sports, Exercise & Health Science Course Book Oxford University Press - Children

Textbook for IB Diploma Geography covering Standard and Higher Level Option 1 for Paper 1 examinations.

English A: Language and Literature for the IB Diploma Coursebook Lulu.com

The most comprehensive match to the new 2014 Chemistry syllabus, this completely revised edition gives you unrivalled support for the new concept-based approach, the Nature of science. The only DP Chemistry resource that includes support directly from the IB, focused exam practice, TOK links and real-life applications drive achievement.

Fall-out Cambridge University Press
This book presents an up-to-date analysis of ocean-atmosphere interaction. Well known experts examine diverse subjects such as ocean surface waves, air-sea exchange processes, ocean surface mixed layer, water-mass formation, as well as general circulation of the oceans, El Nino and Southern Oscillation (ENSO), and the deep-ocean circulation. Other areas described are basic dynamics, data analysis techniques, numerical modelling, and remote sensing. This book is primarily aimed at graduate and senior undergraduate courses in the area of ocean-atmosphere research.

Cognition in A Digital World Damaris Publishing

Stretch your students to achieve their

best grade with these year round course companions; provides comprehensive content on all topics, and practice questions to support and strengthen learning. - Develop understanding and knowledge with clear and concise coverage of the syllabus - Target learning with individual books for Standard and Higher level - Consolidate revision and check understanding with a range of exam practice questions - Practise exam technique with tips from examiners throughout on how to tackle questions - Focus revision with key terms and definitions listed for each topic/sub topic Answers are free online at www.hoddereducation.com/ibextras

Mathematics - Analysis and Approaches Geography for the IB Diploma Study and Revision Guide SL and HL Core

The International Year of Planet Earth (IYPE) was established as a means of raising worldwide public and political awareness of the vast, though frequently under-used, potential the Earth Sciences possess for improving the quality of life of the peoples of the world and safeguarding Earth's rich and diverse environments. The International Year project was jointly initiated in 2000 by the International Union of Geological Sciences (IUGS) and the Earth Science Division of the United Nations Educational, Scientific and Cultural Organisation (UNESCO). IUGS, which is a Non-Governmental Organisation, and UNESCO, an Inter-Governmental Organisation, already shared a long record of productive cooperation in the natural sciences and their application to societal problems, including the International Geoscience Programme (IGCP) now in its fourth decade. With its main goals of raising public awareness of, and enhancing research in the Earth sciences

on a global scale in both the developed and less-developed countries of the world, two operational programmes were demanded. In 2002 and 2003, the Series Editors together with Dr. Ted Nield and Dr. Henk Schalke (all four being core members of the Management Team at that time) drew up outlines of a Science and an Outreach Programme. In 2005, following the UN proclamation of 2008 as the United Nations International Year of Planet Earth, the “Year” grew into a triennium (2007–2009).

Economics for the IB Diploma with CD-ROM Cambridge University Press

Featuring a wealth of digital content, this concept-based Print and Enhanced Online Course Book Pack has been developed in cooperation with the IB to provide the most comprehensive support for the new DP Mathematics: analysis and approaches HL syllabus, for first teaching in September 2019.

2nd Edition Cambridge University Press

This attractive, full-colour coursebook covers the seven topics of the Higher Level extension (HL) syllabus in Geography for the International Baccalaureate (IB) Diploma. It explores the HL theme, Global Interactions, emphasising the various scales at which issues can be studied, and identifying and carefully explaining key global issues. The coursebook guides students through the HL syllabus, building geographical skills and making connections to other areas of the Geography course and to concepts in the Theory of Knowledge. It also encourages detailed study of primary and secondary sources, developing students' analytical skills. The content is tailored to the requirements and assessment objectives of the IB syllabus, making it relevant to the way in which the subject is taught, assessed and examined.

A FINDING-LIST OF HISTORY, POLITICS, BIOGRAPHY, GEOGRAPHY, TRAVEL AND ANTHROPOLOGY IN THE YOUNG MEN'S LIBRARY AT BUFFALO

Oxford University Press, USA

Mobility is fundamental to economic and social activities such as commuting, manufacturing, or supplying energy. Each movement has an origin, a potential set of intermediate locations, a destination, and a nature which is linked with geographical attributes. Transport systems composed of infrastructures, modes and terminals are so embedded in the socio-economic life of individuals, institutions and corporations that they are often invisible to the consumer. This is paradoxical as the perceived invisibility of transportation is derived from its efficiency. Understanding how mobility is linked with geography is main the purpose of this book. The third edition of *The Geography of Transport Systems* has been revised and updated to provide an overview of the spatial aspects of transportation. This text provides greater discussion of security, energy, green logistics, as well as new and updated case studies, a revised content structure, and new figures. Each chapter covers a specific conceptual dimension including networks, modes, terminals, freight transportation, urban transportation and environmental impacts. A final chapter contains core methodologies linked with transport geography such as accessibility, spatial interactions, graph theory and Geographic Information Systems for transportation (GIS-T). This book provides a comprehensive and accessible introduction to the field, with a broad overview of its concepts,

methods, and areas of application. The accompanying website for this text contains a useful additional material, including digital maps, PowerPoint slides, databases, and links to further reading and websites. The website can be accessed at:

<http://people.hofstra.edu/geotrans> This text is an essential resource for undergraduates studying transport geography, as well as those interest in economic and urban geography, transport planning and engineering.

GEOGRAPHY FOR THE CORE OF THE INTERNATIONAL BACCALAUREATE DIPLOMA GEOGRAPHY COURSE

Routledge

Developed with the IB for the latest syllabus at SL and HL, this comprehensive course book is packed with topical case studies to drive critical thought. IB HISTORY SL & HL PAPER 2

AUTHORITARIAN STATES Hodder Education

Arranged in four sections, provides review exercises and past examination questions for topics in microeconomics, macroeconomics, interantional economics, and development economics.

GEOGRAPHY FOR THE HIGHER LEVEL EXTENSION OF THE INTERNATIONAL BACCALAUREATE DIPLOMA GEOGRAPHY COURSE

Cambridge University Press
Fully revised for first examination in 2021 with an emphasis on 21st century skills. This activity-based coursebook for classroom use is clearly organised into three parts: text types, global issues and assessment. The first section defines and analyses a range of literary and non-literary text types. The global issues section integrates all three areas of exploration from the revised syllabus, into meaningful units. The coursebook includes curated video links and samples of Paper 1, Paper 2, the individual oral and the higher level essay. Higher level extension activities are included in each unit, with key concepts and guiding questions integrated throughout. Answers are in the teacher's resource.

OXFORD IB DIPLOMA PROGRAMME: GEOGRAPHY COURSE COMPANION

Hachette UK

Suitable for standard and higher level students, this resource is written by an experienced IB English teacher following the English B syllabus. Features include activities and authentic texts to develop reading and comprehension, integrated study ideas for IB central core, featuring LP (Learner profile), CAS (Creativity, Action, Service), TOK (Theory of Knowledge) EE (Extended Essay), and a Glossary with definitions of key vocabulary. This title offers comprehensive learning and support for teachers and students, ideas for extensive reading material, activities to build language skills and cultural understanding for extension essays, research, exam preparation and a free teacher resources website: ibdiploma.cambridge.org.
