BEDTIME STORIES FOR BOYS

Food & Agriculture Org
This book charts the growth of the Indonesian nationalistic musical genre of lagu seriosa in relation to the archipelago's history in the 1950s and 1960s, examining how folk songs were implemented as a valuable tool for promoting government propaganda. The author reveals how the genre was shaped to fit state ideologies and agendas in the Sukarno and Soeharto eras. It also reveals the very significant role played by Radio Republik Indonesia in the genre's development and dissemination. Little research has been done to investigate how Indonesian music contributed to nation-building during Indonesia's immediate post-colonial period. Emulating the European art song, the genre was adapted to compose songs with the purpose of promoting a strengthened collective Indonesian identity, fostered by a group of musicians who functioned as gatekeepers, monitoring and devising various mechanisms for songs to conform to the propagandistic needs of the Indonesian

government at the time. The result was the development of classical style of singing and the cultivation of a patriotic collection of music during the Guided Democracy period (1959-1965), which peaked at the height of the Konfrontasi (1963-1966). Lagu seriosa lost popularity as popular music infiltrated Indonesia in the 1970s, but it remains an iconic yet understudied aspect of the nationalistic agenda in Indonesia. The case studies of selected songs reflected continuity and change in musical style and over time. This book is of interest to scholars studying the intersection between history, politics, identity, arts and cultural studies in Indonesia. It is also of interest to researchers investigating the role of music in identity formation and nation-building more widely.

But she's learned how to forget. The broken glass washes away the sorrow until there is nothing but calm. You don't have to think about your father and the river. Your best friend, who is gone forever. Or your mother, who has nothing left to give you. Every new scar hardens Charlie's heart just a little more, yet it still hurts so much. It hurts enough to not care anymore, which is sometimes what has to happen before you can find your way back from the edge. A deeply moving portrait of a girl in a world that owes her nothing, and has taken so much, and the journey she undergoes to put herself back together. Kathleen Glasgow's debut is heartbreakingly real and unflinchingly honest. It's a story you won't be able to look away from. THE LAWS OF SIMPLICITY

Routledge

28 traditional and (mostly) contemporary stories. 5 yrs+

Elementary Statistics The Creative Company

Ten laws of simplicity for business, technology, and design that teach us how to need less but get more. Finally, we are learning that simplicity equals sanity. We're rebelling against technology that's too complicated, DVD players with too many menus, and software accompanied by 75-megabyte "read me" manuals. The iPod's clean gadgetry has made simplicity hip. But sometimes we find ourselves caught up in the simplicity paradox: we want something that's simple and easy to use, but also does all the complex things we might ever want it to do. In *The Laws of Simplicity*, John Maeda offers ten laws for balancing simplicity and complexity in business, technology, and design—guidelines for needing less and actually getting more. Maeda—a professor in MIT's Media Lab and a world-renowned graphic designer—explores the question of how we can redefine the notion of "improved" so that it doesn't always mean something more, something added on. Maeda's first law of simplicity is "Reduce." It's not necessarily beneficial to add technology features just because we can. And the features that we do have must be organized (Law 2) in a sensible hierarchy so users aren't distracted by features and functions they don't need. But simplicity is not less just for the sake of less. Skip ahead to Law 9: "Failure: Accept the fact that some things can never be made simple." Maeda's concise guide to simplicity in the digital age shows us how this idea can be a cornerstone of organizations and their products—how it can drive both business and technology. We can learn to simplify without sacrificing comfort and meaning, and we can achieve the balance described in Law 10. This law, which Maeda calls "The One," tells us: "Simplicity is about subtracting the obvious, and adding the meaningful."

The canoe was now approaching the land. The bay opened out, and a gap in the white surf of the reef marked where the little river ran out to the sea; the thicker and deeper green of the virgin forest showed its course down the distant hill slope. The forest here came close to the beach. Far beyond, dim and almost cloudlike in texture, rose the mountains, like suddenly frozen waves. The sea was still save for an almost imperceptible swell. The sky blazed.

When the Indonesian New Order regime fell in 1998, regional politics with strong ethnic content emerged across the country. In West Kalimantan the predominant feature was particularly that of the Dayaks. This surge, however, was not unprecedented. After centuries of occupying a subordinate place in the political and social hierarchy under the nominal rule of the Malay sultanates, Dayaks became involved in an enthusiastic political emancipation movement from 1945. The Dayaks secured the governorship as well as the majority of the regional executive head positions before they were shunned by the New Order regime. This book examines the development of Dayak politics in West Kalimantan from the colonial times until the first decade of the 21st century.

The Treasure in the Forest Scholastic Inc.

Driven by a passion for travel and history

and a love of ships and the sea, former

Monty Python stalwart and beloved

television globe-trotter Michael Palin

explores the world of HMS Erebus, last

seen on an ill-fated voyage to chart the

Northwest Passage. Michael Palin brings

the fascinating story of the Erebus and its

occupants to life, from its construction as

a bomb vessel in 1826 through the

flagship years of James Clark Ross's

Antarctic expedition and finally to Sir John

Franklin's quest for the holy grail of

navigation—a route through the Northwest

Passage, where the ship disappeared into

the depths of the sea for more than 150

years. It was rediscovered under the arctic

waters in 2014. Palin travels across the

world—from Tasmania to the Falkland

Islands and the Canadian Arctic—to offer a

firsthand account of the terrain and

conditions that would have confronted the

Erebus and her doomed final crew. Delving

into the research, he describes the

intertwined careers of the two men who

shared the ship's journeys: Ross, the

organizational genius who mapped much

of the Antarctic coastline and oversaw

some of the earliest scientific experiments

to be conducted there; and Franklin, who,

at the age of sixty and after a checkered

career, commanded the ship on its last

disastrous venture. Expertly researched

and illustrated with maps, photographs,

paintings, and engravings, Erebus is an

evocative account of two journeys: one

successful and forgotten, the other tragic

yet unforgettable.

THE HUMAN RACE

Springer Nature

The white man, leaning with both arms

over the roof of the little house in the

stern of the boat, said to the steersman-

"We will pass the night in Arsat's clearing.

It is late."The Malay only grunted, and

went on looking fixedly at the river. The

white man rested his chin on his crossed

arms and gazed at the wake of the boat.

At the end of the straight avenue of

forests cut by the intense glitter of the

river, the sun appeared unclouded and

dazzling, poised low over the water that

shone smoothly like a band of metal. The

forests, sombre and dull, stood motionless

and silent on each side of the broad

stream. At the foot of big, towering trees,

trunkless nipa palms rose from the mud of

the bank, in bunches of leaves enormous

and heavy, that hung unstirring over the

brown swirl of eddies. In the stillness of

the air every tree, every leaf, every bough,

every tendril of creeper and every petal of

minute blossoms seemed to have been

bewitched into an immobility perfect and

final. Nothing moved on the river but the

eight paddles that rose flashing regularly,

dipped together with a single splash; while

the steersman swept right and left with a

periodic and sudden flourish of his blade

describing a glinting semicircle above his

head. The churned-up water frothed

alongside with a confused murmur. And

the white man's canoe, advancing

upstream in the short-lived disturbance of

its own making, seemed to enter the

portals of a land from which the very

memory of motion had forever departed.
