THE NEW YORK TIMES BESTSELLER Transform your life using the Bullet Journal Method, the revolutionary organisational system and worldwide phenomenon. The Bullet Journal Method will undoubtedly transform your life, in more ways than you can imagine! Hal Elrod, author of *The Miracle Morning* In his long-awaited first book, Ryder Carroll, the creator of the enormously popular Bullet Journal organisational system, explains how to use his method to: * TRACK YOUR PAST: using nothing more than a pen and paper, create a clear, comprehensive, and organised record of your thoughts and goals. * ORDER YOUR PRESENT: find daily calm by prioritising and minimising your workload and tackling your to-do list in a more mindful and productive way. * PLAN YOUR FUTURE: establish and appraise your short-term and long-term goals, plan more complex projects simply and effectively, and live your life with meaning and purpose. Like many of us, Ryder Carroll tried everything to get organised - countless apps, systems, planners, you name it. Nothing really worked. Then he invented his own simple system that required only pen and paper, which he found both effective and calming. He shared his method with a few friends, and before long he had a worldwide viral movement. The system combines elements of a wishlist, a to-do list, and a diary. It helps you identify what matters and set goals accordingly. By breaking long-term goals into small actionable steps, users map out an approachable path towards continual improvement, allowing them to stay focused despite the crush of incoming demands. But this is much more than a time management book. It's also a manifesto for what Ryder calls "intentional living": making sure that your beliefs and actions align. Even if you already use a Bullet Journal, this book gives you new exercises to become more calm and focused, new insights on how to prioritise well, and a new awareness of the power of analogue tools in a digital world. *** This book has been printed with three different colour designs, black, Nordic blue and emerald. We are unable to accept requests for a specific cover. The different covers will be assigned to orders at random. ***

Everyone's heard about bullet journaling, but getting started is not always easy. Our bullet journal comes with monthly and weekly spreads along with plenty of room to add your own content! Annual

Planner - the whole year at a glance! Log your new year's resolutions or what you'd like to accomplish this year - moving to a new place, finding a new job, travelling more, or reading new book! The possibilities are endless. Goal checklist - plan your month ahead. What are your plans? Quickly jot down your monthly plan. Habit Tracker - at the beginning of each month you get a habit tracker along with your goal checklist. Here you can easily track anything you'd like. Think supplements you want to take, walking 5000 steps a day, period tracking, catching up with friends etc. Use color coding to easily track your habits. At the end of the month you'll see how you improved and where it could've gone better. And it's so easy! Weekly Planner - the weekly spread helps keep you organized and have a bird-eye view of the week ahead. Each day has its own goals list where you can fill it out with To-do's, thoughts or plans. After the weekly planner you get an empty dotted page to fill in with your own spreads. When in doubt, you can just doodle something! At the end of the month use the Brain Dump Spread to assess the month that just passed. Let go of things that no longer serves you. Along with the brain dump we included a 20 Point Checklist. This is provided to help you write down all the things you're proud you did in the past month. Think of it as a gratitude page. Well done! :) The bullet journal for beginners is here to help you get started with journaling. While providing different spreads, it also lets you make it your own with the blank dotted pages available. Get your own and discover planning is easy and fun! And dare we say, quite addictive :).

The simple aim of this book is to help and support you through life. It is a tool to help you be a stronger version of the man you already are. Back in the day, keeping a journal was the manly thing to do. All the great thinkers, writers and explorers of the past kept a journal on a regular basis - from Ernest Hemmingway to Bruce Lee. It was a simple habitual practice; a clever therapeutic outlet, particularly for men, that has been lost. This book aims to bring it back. While the gym strengthens your body, think about this book as a workout for your mind. This is brain training to build a positive mental attitude and, ultimately, a better and more resilient you. Contains three interactive sections: Warm Up, Hurdles and Strength, each with prompts, challenges and motivators to help get you started. Plus the MindManual, which offers further support, checks and advice to keep your brain training on track.

#1 NEW YORK TIMES BESTSELLER • Brené Brown has taught us what it means to dare greatly, rise strong, and brave the wilderness. Now, based on new research conducted with leaders, change makers, and culture shifters, she's showing us how to put those ideas into practice so we can step up and lead. Don't miss the five-part HBO Max docuseries Brené Brown: Atlas of the Heart! NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BLOOMBERG Leadership is not about titles, status, and wielding power. A leader is anyone who takes responsibility for recognizing the potential in people and ideas, and has the courage to develop that potential. When we dare to lead, we don't pretend to have the right answers; we stay curious and ask the right questions. We don't see power as finite and hoard it; we know that power becomes infinite when we share it with others. We don't avoid difficult conversations and situations; we lean into vulnerability when it's necessary to do good work. But daring leadership in a culture defined by scarcity, fear, and uncertainty requires skill-building around traits that are deeply and uniquely human. The irony is that we're choosing not to invest in developing the hearts and minds of leaders at the exact same time as we're scrambling to figure out what we have to offer that machines and AI can't do better and faster. What can we do better? Empathy, connection, and courage, to start. Four-time #1 New York Times bestselling author Brené Brown has spent the past two decades studying the emotions and experiences that give meaning to our lives, and the past seven years working with transformative leaders and teams spanning the globe. She found that leaders in organizations ranging from small entrepreneurial startups and family-owned businesses to nonprofits, civic organizations, and Fortune 50 companies all ask the same question: How do you cultivate braver, more daring leaders, and how do you embed the value of courage in your culture? In this new book, Brown uses research, stories, and examples to answer these questions in the no-BS style that millions of readers have come to expect and love. Brown writes, "One of the most important findings of my career is that daring leadership is a collection of four skill sets that are 100 percent teachable, observable, and measurable. It's learning and unlearning that requires brave work, tough conversations, and showing up with your whole heart. Easy? No. Because choosing courage over comfort is not always our default. Worth it? Always. We want to be brave with our lives and our work. It's why we're here." Whether you've read Daring Greatly and Rising Strong or you're new to Brené Brown's work, this book is for anyone who wants to step up and into brave leadership.
