MANAGERIAL ACCOUNTING FOR MANAGERS

McGraw-Hill Education
Steen/Noe Fifth
Canadian Edition has
been written to make
HR more accessible to
students, more
reflective of their
situation, and more
about them. Today,
every manager is "in
HR", and every
employee is actively
engaged in the process

of HRM, regardless of
whether they aspire to
be a manager or an HR
professional. Students
will experience HRM
every day of their
working lives, from
how they are perceived
by recruiters to
completing a
performance appraisal,
to being promoted or
fired. When students
ask "What's In It For
Me?", the Fifth
Canadian Edition will
show them just how
relevant HRM is to
them as people,
employees and
eventually managers.
This easy to read and
relevant 11 chapter
human resource
management text is
ideal for a one-
semester course.
Steen/Noe balances
theory with practical
application and rich

examples that support the need for foundational HRM, thought leadership and applied insight necessary to perform and thrive in organizations today.

Accounting: Text and Cases is a product of lifelong dedication to the discipline of accounting. Covering both financial and managerial accounting as well as broader managerial issues, the book incorporates a breadth of experience

that is sure to enrich your course and your students. The 109 cases that make up most of the end of chapter material are a combination of classic Harvard style cases and extended problems, with 12 complete new cases added to the thirteenth edition. --Book Jacket.

COST MANAGEMENT

McGraw-Hill Ryerson ACCOUNTING: Text and Cases, 10/E is a 28 chapter book. Chapters 1-14 cover financial accounting, while Chapters 15-21 cover management accounting, and Chapters 22-28 focus on broader issues of control and corporate strategy. The approximately 120 cases that largely make up the end-of-chapter material are a

combination of classic Harvard style cases, as well as extended problems. New to this edition is the inclusion of 2-3 problems per chapter. These problems, while not as involved as the case material, allow the students to exercise the concepts demonstrated in each chapter. The goal of the problem material is to provide a transition to the case material, which is a response to customer requests.

Financial Accounting Fundamentals

McGraw-Hill Education Garrison - Your guide through the challenging waters of managerial accounting. For centuries, the lighthouse has stood as a beacon of guidance for mariners at sea. More than an aid to navigation, the

lighthouse symbolizes safety, permanence, reliability, and the comforts of the familiar. For this reason, we have chosen to illustrate the Canadian eighth edition of *Managerial Accounting* by Garrison, Chesley, Carroll and Webb with an image that encapsulates the greatest strengths of this market leading text. Garrison is your guide through the challenging waters of managerial accounting. It identifies the three functions managers must perform within their organizations—plan

operations, control activities, and make decisions—and explains what accounting information is necessary for these functions, how to collect it, and how to interpret it. *Managerial Accounting 8e* focuses, now as in the past, on three qualities: Relevance, Balance and Clarity. The authors' steady focus on these core elements has led to tremendous results! As seafarers look to the lighthouse for direction along unfamiliar shore, so too can Garrison act as a compass for students seeking to master this course.
