How to process emotion in turbulent times. Hal Leonard Corporation

Nothing is more essential than knowing how to worship the God who created us. This book focuses readers on the essentials of

God-honoring worship, combining biblical foundations with practical application in a way that works in the real world. The author, a pastor and noted songwriter, skillfully instructs pastors, musicians, and church leaders so that they can root their congregational worship in unchanging scriptural principles, not divisive cultural trends. Bob Kauflin covers a variety of topics such as the devastating effects of worshiping the wrong things, how to base our worship on God's self-revelation rather than our

assumptions, the fuel of worship, the community of worship, and the ways that eternity's worship should affect our earthly worship. Appropriate for Christians from varied backgrounds and for various denominations, this book will bring a vital perspective to what readers think they understand about praising God. The Praise & Worship Fake Book Crossway Shows pastors how to balance new worship ideas with the traditional while focusing on the purpose of praise and fellowship.

Fernando Ortega is a born storyteller and gifted photographer. In "Fernando's Birds," he takes the reader from the bosques, canyons and mountains of his native New Mexico to the Florida swamps to assemble something akin to a family album of birds. From the common House Finch to the beautiful Lazuli Bunting, each photograph reveals distinguished characters with a back story in a way you may not have imagined birds before. These images, coupled with his witty, sometimes poignant observations and tales, will keep you smiling as you turn each page. Best known for his work as a songwriter, singer, composer, and arranger of Christian music, Fernando Ortega here shows his reverence for and delight in the wondrous creatures who share our world.

Mommy and her little ones are settling in for story time, and this time it's the biblical story of Easter that she's telling. As the youngsters hear God's tale unfold with its sometimes somber notes about sin and death, they are softly and continually reminded, "But Easter is coming!" By the end of the book, the anticipation has built and the children can celebrate the ending and the glory of Easter Sunday. In a time when children's Easter excitement often focuses on only egg hunts and candy, this book offers a different—and true—reason for joy and expectancy. It's designed to be read and reread on the days leading up to Easter, telling the greatest story and building a sense of anticipation and

celebration in little hearts. Go to bhkids.com to find this book's Parent Connection, an easy tool to help moms and dads (or anyone else who loves kids) discuss the book's message with their child. We're all about connecting parents and kids to each other and to God's Word.

Five decades of iconic and incisive art from Barbara Kruger Since the mid-1970s, Barbara Kruger (born 1945) has been interrogating consumer culture in works that often combine visual and written language. In her singular graphic style, Kruger probes aspects of identity, desire and consumerism that are embedded in our everyday lives. This volume traces her continuously evolving practice to reveal how she adapts her work in accordance with the moment, site and context. The book features a range of striking images—from her analogue paste-ups of the 1980s to digital productions of the last two decades, including new works produced on the occasion of the exhibition. Also featured are singular works in vinyl, her large-scale room wraps, multichannel videos, site-specific installations and commissioned works. The book also showcases how Kruger's site-specific works have been reconceived for each venue, and includes a section of reprinted texts selected by the artist. Renowned for her use of direct address and her engagement with contemporary culture, Kruger is one of the most incisive and courageous artists working today. This volume explores how her pictures and words remain urgently resonant in a rapidly changing world.

Monkey Beach meets Green Grass, Running Water meets The Beachcombers in this wise and funny novel by a debut Cree author Birdie is a darkly comic and moving first novel about the universal experience of recovering from wounds of the past, informed by the lore and knowledge of Cree traditions. Bernice Meetoos, a Cree woman, leaves her home in Northern Alberta following tragedy and travels to Gibsons, BC. She is on something of a vision quest, seeking to understand the messages from The Frugal Gourmet (one of the only television shows available on CBC North) that come to her in her dreams. She is also driven by the leftover teenaged desire to meet Pat Johns, who played Jesse on The Beachcombers, because he is, as she says, a working,

healthy Indian man. Bernice heads for Molly's Reach to find answers but they are not the ones she expected. With the arrival in Gibsons of her Auntie Val and her cousin Skinny Freda, Bernice finds the strength to face the past and draw the lessons from her dreams that she was never fully taught in life. Part road trip, dream quest and travelogue, the novel touches on the universality of women's experience, regardless of culture or race.

Emotional and uplifting, Outside is the story of a teacher's escape to Japan from classroom, country, and self in the wake of a small-town Ontario tragedy. David Woods, a first-year teacher, shares his grade-4 students' passion for nature and their reluctance to be hemmed in by classroom walls. He pushes the boundaries of risk and the constraints of school board policy, leading his class on outdoor adventures with hooting owls, curious stream creatures, and maple syrup making. Then, during a seemingly innocuous field trip, a fateful decision leads to disastrous consequences, not just for himself but many around him. Consumed by guilt, and

desperate to make sense of the seemingly random incident, David flees to Japan, going to ground with a group of Western ESL teachers in a Kyoto boarding house. As the tragedy is recalled, a parallel narrative finds David drawn into the chaotic lives of his boarding-house companions. The group, including a food-connoisseur deejay, a crude karate student, and an Israeli draft dodger, drag David into experiences that offer hope, love, and the possibility of redemption. In a city cloaked in the ancient the ancient trappings of Buddhism and Shintoism, David Woods struggles to draw meaning from his surroundings and experiences before being called home to answer for his actions.

In life, there are many things we cannot control, leaving us feeling powerless and defeated. However, what you can control is how you deal with your emotions. In *The Power of Connection*, psychologist Dr. Bea Mackay explores mental health by teaching you how to process your emotions in your day-to-day life. To process any unpleasant/intense emotion—whether it be fear or stress—the key is to breathe through the sensations of the emotion. In the end, you will live a better, healthier, and fuller life when you reconnect with your emotions and yourself.

The Big One and what we can do to get ready for it. Mention the word earthquake and most people think of California. But while the Golden State shakes on a regular basis, Washington State, Oregon, and British Columbia are located in a zone that can produce the world's biggest earthquakes and tsunamis. In the eastern part of the continent, small cities and large, from Ottawa to Montréal to New York City, sit in active earthquake zones. In fact, more than 100-million North Americans live in active seismic zones, many of whom do not realize the risk to their community. For more than a decade, Gregor Craigie interviewed scientists,

engineers, and emergency planners about earthquakes, disaster response, and resilience. He has also collected vivid first-hand

accounts from people who have survived deadly earthquakes. His fascinating and deeply researched book dives headfirst into explaining the science behind The Big One -- and asks what we

can do now to prepare ourselves for events geologists say aren't a matter of if, but when.
