Economics: Theory and Policy provides engaging, balanced coverage of the key concepts and practical applications of the two main topic areas of the discipline. For both international trade and international finance, an intuitive introduction to theory is followed by detailed coverage of policy applications. International Economics: Theory and Policy, 11th Edition His research focuses on two areas: international trade policy and behavioral economics. With respect to behavior, he examines why people choose to do things that many observers view as irrational. Examples include addiction to cigarettes, cyclical dieting, and anorexia.
