THINGS FALL APART tells two overlapping, intertwining stories, both of which center around Okonkwo, a "strong man" of an Ibo village in Nigeria. The first of these stories traces Okonkwo's fall from grace with the tribal world in which he lives, and in its classical purity of line and economical beauty it provides us with a powerful fable about the immemorial conflict between the individual and society. The second story, which is as modern as the first is ancient, and which elevates the book to a tragic plane, concerns the clash of cultures and the destruction of Okonkwo's world through the arrival of aggressive, proselytizing European missionaries. These twin dramas are perfectly harmonized, and they are modulated by an awareness capable of encompassing at once the life of nature, human history, and the mysterious compulsions of the soul. THINGS FALL APART is the most illuminating and permanent monument we have to the modern African experience as seen from within.

Section 1: Client and Planner Attitudes, Values and Biases Section 1 includes Chapters 1, 2 and 3, and provides an overview of client and planner attitudes, values, and biases. This section discusses the importance of understanding how a client's psychology, background, learning style and values can all impact the financial planning process. It also discusses the importance of the financial planner framing advice in a way that accounts for all those psychological characteristics, leading to a more effective client-planner relationship and a higher probability of success. Research has shown that when clients can see that financial planning recommendations are demonstrably connected to their personal values and goals, they are much more likely to act on those recommendations and achieve success. Chapter 1: Framing Advice in Light of Client's Risk Tolerance (Swarn Chatterjee and Dave Yeske) Chapter 2: Developing a Productive Client-planner Relationship That Addresses the Psychological Elements of Financial Planning (Megan McCoy and Neal Van Zutphen) Chapter 3: Identifying and Responding to Client Values and Goals (Megan McCoy and Meghaan Lurtz) Section 2: Behavioral Finance Section 2 includes Chapters 4 and 5, and introduces key concepts from the area of behavioral finance. This section

provides an understanding of the impact of cognitive biases and heuristics on people's financial decision-making and well-being, and discusses strategies for overcoming some of the common client psychology barriers in the financial planning process. Chapter 4: Impact of Cognitive Biases and Heuristics on Financial Decision-making and Well-being (Ron Sages and Swarn Chatterjee) Chapter 5: Client Psychology Barriers in the Financial Planning Process and Strategies for Overcoming Them (Ron Sages and Swarn Chatterjee) Section 3: Sources of Money Conflict Section 3 includes Chapters 6 through 10, and provides an overview of the major sources of money conflict. This section focuses on the harnessing of client's motivation for achieving their financial goals, examining couple and family financial transparency, and discusses strategies for mediating potential financial conflicts and facilitating goal congruence. This section also discusses counseling strategies that can be used for identifying when money is being used for purposes of manipulation. Chapter 6: Building the Client's Motivation for Achieving Their Financial Goals (Rick Kahler) Chapter 7: Examining Couple and Family Financial Transparency (Emily Koochel and Meghaan Lurtz) Chapter 8: Mediating Financial Conflict (Sonya Lutter and Emily Koochel) Chapter 9: Facilitating Goal Congruence (Rick Kahler) Chapter 10: Identifying When Money Is Being Used as Manipulation (Saundra D. Davis, Meghaan Lurtz and Megan McCoy) Section 4: Principles of Counseling Section 4 includes Chapters 11 and 12, and introduces the principles of counseling. Davis) Chapter 12: Forging Trusting Relationships (Megan McCoy and Sonya Lutter) Section 5: General principles of effective communication Section 5 includes Chapter 13, and provides an overview of the general principles of effective communication. This topic is of great importance as effective communication has been shown to be the single largest predictor of client trust and relationship commitment, which in turn can lead to a greater propensity by clients to reveal personal and financial information, engage in effective conflict resolution, and act on financial planning recommendations. Chapter 13: Multifaceted Communication (Swarn Chatterjee and Ron Sages) Section 6: Crisis Events with Severe Consequences Section 6 includes Chapters 14 and 15, and discusses strategies for helping clients who experienced crisis events with severe consequences. The strategies discussed in this section focus on helping clients navigate unanticipated personal and environmental crises, and the importance of empathy when working with clients who experienced such events. As is true across all topics in this book, self-awareness and self-development by the financial planner is as important as understanding the client's psychology when helping them navigate difficult circumstances. Chapter 14: Navigating Change (Sonya Lutter, Megan McCoy, Saundra D. Davis, and Lance Palmer) Chapter 15: The Necessity of Empathy (Megan McCoy and Sonya Lutter)

American Government 3e Independently Published

Throughout the past two years, Trans World Airlines, Midway Airlines, and R.H. Macy Company, as well as over 46,000 other corporations, have filed petitions for relief under Chapter 11 of the United States Bankruptcy Code. Of the firms that have filed Chapter 11 reorganization petitions, over eighty percent will never reorganize successfully and will not avoid a subsequent conversion to a Chapter 7 liquidation proceeding. The effects of these "misfilings" are enormous. Most fundamentally, an attempted reorganization, when liquidation is the more efficient solution, can unnecessarily increase the overall costs of bankruptcy significantly. In response to these costs, some scholars have called for the repeal of Chapter 11, while others have advocated merely a new approach to Chapter 11 reorganization proceedings. Still others defend the present Chapter 11 system. This Article contends that reducing bankruptcy costs requires a revised Chapter 11 reorganization structure. This Article posits a two-part revision to the present Chapter 11 system: (1) replacing corporate managers acting as debtors in possession with trustees; and (2) establishing a methodology to guide these new decision makers in determining whether a reorganization or a liquidation is the proper course of action in a given case.

American Government 3e aligns with the topics and objectives of many government courses. Faculty involved in the project have endeavored to make government workings, issues, debates, and impacts meaningful and memorable to students while maintaining the conceptual coverage and rigor inherent in the subject. With this objective in mind, the content of this textbook has been developed and arranged to provide a logical progression from the fundamental principles of institutional design at the founding, to avenues of political participation, to thorough coverage of the political structures that constitute American government. The book builds upon what students have already learned and emphasizes connections between topics as well as between theory and applications. The goal of each section is to enable students not just to recognize concepts, but to work with them in ways that will be useful in later courses, future careers, and as engaged citizens.
