\* A guide to the style of Harry Styles, a 21st-century fashion icon\* Over 200 pictures of Harry and the pop-idols who have influenced his sartorial taste\* The perfect gift for fans and fashionistas"I'm incredibly lucky to

have an environment where I feel comfortable being myself" - Harry Styles. Stepping bravely into the cyclone of 21st-century fashions, Harry Styles is more than weathering the storm. Whether he's breaking the internet with his \$7.99 frog-eyed yellow bucket hat or a pair of black fishnets, or fronting cult magazine *The Beauty Papers*, as he did in March 2021, Hazza's sparkle knows no boundaries. Gucci met Styles in 2014, and there was instant chemistry. According to designer Alessandro Michele, Harry is 'a young Greek God with the attitude of James Dean and a little bit of Mick Jagger' - and that effortless superstardom certainly radiates from the photos in this

collection, which document the heart of Harry's wardrobe, both on-stage and off. Part fashion history lesson, pulling references from the rock and roll greats of the past, and part innovation, Harry's style pays homage to Kurt Cobain and Marc Bolan, Prince and Little Richard, while developing into something authentic and entirely his own. This chic book fizzles with facts about Harry's styling choices, presenting the star's most revered looks alongside pictures that trace the roots of each design. With quotes from key designers, this is the perfect gift for any fan.

challenge and never looked back. Let the de-cluttering begin! Ever ask yourself how many of the items in your closet you actually wear? In search of a way to pare down on her expensive shopping habit, consistent lack of satisfaction with her purchases, and ever-growing closet, Carver created Project 333. In this book, she guides readers through their closets item-by-item, sifting through all the emotional baggage associated with those oh-so strappy high-heel sandals that cost a fortune but destroy your feet every time you walk more than a few steps to that extensive collection of never-worn little black dresses, to locate the items that actually look and feel like you. As

Carver reveals in this book, once we finally release ourselves from the cyclical nature of consumerism and focus less on our shoes and more on our self-care, we not only look great we feel great--and we can see a clear path to make other important changes in our lives that reach far beyond our closets. With tips, solutions, and a closet-full of inspiration, this life-changing minimalist manual shows readers that we are so much more than what we wear, and that who we are and what we have is so much more than enough.

Penguin UK  
Building on the eye-opening investigation into the damaging effects of the ultra-

competitive culture of youth sports in his previous book, *Until It Hurts*, Mark Hyman's new book looks at the business of youth sports, how it has changed, and how it is affecting young Americans. Examining the youth sports economy from many sides--the major corporations, small entrepreneurs, coaches, parents, and, of course, kids--Hyman probes the reasons for rapid changes in what gets bought and sold in this lucrative marketplace. Just participating in youth sports can be expensive. Among the costs are league fees, equipment, and perhaps private lessons with a professional coach. With nearly 50 million kids playing organized

sports each year, it is easy to see how profitable this market can be. Hyman takes us to tournaments sponsored by Nike, Gatorade, and other big businesses, and he talks to parents who sacrifice their vacations and savings to get their (sometimes reluctant) junior stars to these far-off, expensive venues for a chance to shine. He introduces us to videos purporting to teach six-month-old babies to kick a ball, to professional athletes who will "coach" an eight-year-old for a hefty fee, to a town that has literally staked its future on preteen sports. With its extensive interviews and original reporting, *The Most Expensive Game in Town* explains the causes and effects

of the commercialization of youth sports, changes that the author argues are distorting and diminishing family life. He closes with strong examples of individuals and communities bucking this destructive trend. IdeaPress Publishing

Harper Collins  
The New York Times-  
bestselling "skeptical  
environmentalist"  
argues that panic over  
climate change is  
causing more harm  
than good Hurricanes  
batter our coasts.

Wildfires rage across the American West. Glaciers collapse in the Artic. Politicians, activists, and the media espouse a common message: climate change is destroying the planet, and we must take drastic action immediately to stop it. Children panic about their future, and adults wonder if it is even ethical to bring new life into the world. Enough, argues bestselling author Bjorn Lomborg. Climate change is real, but it's not the apocalyptic threat that we've been told it is. Projections of Earth's imminent demise are based on bad science and even worse economics. In panic, world leaders have committed to wildly expensive but largely ineffective policies that

hamper growth and crowd out more pressing investments in human capital, from immunization to education. False Alarm will convince you that everything you think about climate change is wrong -- and points the way toward making the world a vastly better, if slightly warmer, place for us all.

The federal

government wastes your tax dollars worse than a drunken sailor on shore leave. The 1984 Grace Commission uncovered that the Department of Defense spent \$640 for a toilet seat and \$436 for a hammer. Twenty years later things weren't much better. In 2004, Congress spent a record-breaking \$22.9 billion dollars of your money on 10,656 of their pork-barrel projects. The war on terror has a lot to do with the record \$413 billion in deficit spending, but it's also the result of pork over the last 18 years the likes of: - \$50 million for an indoor rain forest in Iowa - \$102 million to study screwworms which were long ago eradicated from American soil -

\$273,000 to combat goth culture in Missouri - \$2.2 million to renovate the North Pole (Lucky for Santa!) - \$50,000 for a tattoo removal program in California - \$1 million for ornamental fish research Funny in some instances and jaw-droppingly stupid and wasteful in others, The Pig Book proves one thing about Capitol Hill: pork is king!
