## FARMER BRIA

*Maternal Child Nursing Care* Lippincott Williams & Wilkins  
Ideal for accelerated maternity and pediatrics courses, *Maternal-Child Nursing, 4th Edition* is filled with user-friendly features to help you quickly master essential concepts and skills. It offers completely updated content that's easy to read and understand. Plus, active learning tools give you the chance to practice applying your knowledge and make learning fun! Critical Thinking Exercises allow you to apply your knowledge to realistic clinical situations. Nursing care plans assist you with applying the nursing process to plan individualized care for the most common maternity and pediatric conditions. Critical to Remember boxes summarize and highlight essential, need-to-know information. Communication Cues provide practical tips for effective verbal and nonverbal communication with patients and families. Clinical Reference sections in pediatric chapters present information relevant to each body system, including anatomy and physiology, differences in the pediatric patient, and related laboratory and diagnostic tests. Integrated electronic features match icons in the text, so you can use print and electronic resources more effectively together. Using Research to Improve Practice boxes help you determine proper care to reinforce best practice. Spanish translations are included for phrases commonly encountered with maternity and pediatric patients. Improved design makes the text easier to read, and up-to-date photos ensure accuracy.

Maternal Child Nursing CareMosby

*Maternal-Child Nursing - Text and Simulation Learning System Package* Lippincott Williams & Wilkins

Specially designed to parallel the material in *Maternal-Child Nursing, 4th Edition*, this user-friendly study guide provides valuable review of essential concepts and skills. Hands-on learning exercises and practical activities allow you to apply your knowledge to real-world scenarios. Learning exercises include multiple-choice, matching, true/false, and review questions, as well as case studies, critical thinking activities, clinical learning exercises, and key concepts. Active learning approach helps you understand complex processes, improve skills performance, and develop critical-thinking and clinical decision-making skills. Completely updated content matches the textbook and provides a comprehensive review of essential maternal-child concepts and skills.

## STUDY GUIDE FOR MATERNAL CHILD NURSING CARE - E-BOOK

Elsevier Health Sciences

Thinking Critically case-based activities require students to apply the concepts found in the chapters to solve problems, make clinical judgement decisions concerning care management, and provide responses to patient questions and concerns. Reviewing Key Concepts questions in various formats give students ample opportunities to assess their knowledge and comprehension of information covered in the text. Matching, fill-in-the-blank, true/false, short-answer, and multiple-choice activities help

students identify the core content of each chapter and test their understanding. Learning Key Terms matching and fill-in-the-blank questions let students test their ability to define all key terms highlighted in the corresponding textbook chapter. Perforated pages allow you to use activities for graded assignments. Answer key at the end of the book includes answers to all questions.

*Optimizing Outcomes for Mothers, Children, and Families* Jones & Bartlett Learning

Step into maternal-neonatal nursing with confidence and know-how, with the fully updated *Maternal-Neonatal Nursing Made Incredibly Easy!*®, 4th Edition. This friendly guide's colorful images and helpful learning aids offer the latest in nursing interventions for prenatal care basics, including high-risk pregnancy, family planning, contraception and infertility, labor and birth, and postpartum care, presented in the enjoyable *Incredibly Easy* style. Offering practice questions written in NCLEX® exam format, this is the ideal support for nursing students and new nurses preparing for certification and the everyday challenges of the maternal-neonatal unit.

*Introduction to Maternity & Pediatric Nursing* W B Saunders Company

Canadian Maternity and Pediatric Nursing prepares your students for safe and effective maternity and pediatric nursing practice. The content provides the student with essential information to care for women and their families, to assist them to make the right choices safely, intelligently, and with confidence.

*Study Guide for Perry's Maternal Child Nursing Care in Canada,E-Book* F.A. Davis

Reinforce your understanding of maternity and pediatric nursing with practical exercises! Corresponding to the chapters in McKinney's *Maternal-Child Nursing, 6th Edition*, this study guide provides engaging activities and review questions to help you master nursing concepts and practice essential skills. Case studies help you learn to think critically, and clinical judgment exercises help you apply your knowledge to real-life situations. Not only will you get more out of the textbook, but you will also prepare more effectively for the NCLEX(R) exam! Learning exercises include multiple-choice, matching, true/false, short answer, and fill-in-the-blank questions, plus case studies and learning applications, helping students apply knowledge to solve problems, make decisions about care management, and provide responses to a patient's questions and concerns. Clinical Judgment exercises help students apply nursing theory to real-life situations, further testing critical thinking and decision-making skills. Suggested learning activities for community and clinical settings enhance understanding of the content. Answers to all activities are provided at the back of the study guide. NEW! Next Generation NCLEX(R) (NGN) examination-style case studies familiarize students to the way that content will be tested in the new NGN exam. NEW! Revised review questions reflect the updated content in *Maternal-Child Nursing, 6th Edition* and allow students to quickly check their knowledge and understanding of the material in each chapter of the text.

*Maternal-Child Nursing Test Success* Elsevier Health Sciences  
Master content from the textbook with this helpful study tool! Designed to accompany Perry's *Maternal Child Nursing Care, 4th Edition*, this workbook will assist students in understanding and applying material from each chapter in the text.

*Study Guide for Maternal-Child Nursing - E-Book* F A Davis Company

'Think like a nurse' with the 2nd Edition of this AJN Book-of-the-Year Award winner. It offers the perfect balance of maternal and child nursing care with the right depth and breadth of coverage for students in today's maternity/pediatric courses. And, it's accompanied by *The Women's Health Companion*, a complete guide to the role of the nurse in promoting women's health. A unique emphasis on optimizing outcomes, evidence-based practice, and research supports the goal of caring for women, families and children, not only in traditional hospital settings, but also wherever they live, work, study, or play. Clear, concise, and easy to follow, the content is organized around four major themes, holistic care, critical thinking, validating practice, and tools for care that help students to learn and apply the material. Don't miss the Plus Code, inside new, printed texts. It unlocks the resources online at DavisPlus, including Davis Digital Version, your complete text online, and an Electronic Study Guide with learning tools and clinical resources. Click here to see an overview of everything this resource has to offer. What instructors are saying... "Well written, eye-catching and well organized chapters" - Sami Rahman, MEd, MSN, RN Blinn College "Clear, concise, uses tables and figures to support important concepts and content." - Darlene A. Ardary, PhD, RN, CPN, CSN Lock Haven University "It is thorough on content and it contains many student tools like charts, tables and concept maps." - Carmen Torres MSN, MHS, RN, CNE Bergen Community College "I like the different aspects that are included that get the students engaged in learning. It is a comprehensive text to use when teaching Maternal child nursing. It is simple enough for all students but engaging enough to keep even your most adept student challenged." - Teresa Carnevale, PhD, MSN, RN Beaver College of Health Sciences "A complete continuum of the child from preconception through adolescents. All inclusive in a easy to read and understandable format." - Stephanie Palmersheim MSN, RN St. Luke's College Sioux City, Iowa "Good flow with information and material from Care of Maternal Health Nursing to Care of Pediatric Nursing." - Lisa Stoddart, MSN, RN, FNP-BC Associate Nursing Professor Pediatrics San Joaquin Delta College Awarded third place in the 2015 AJN Book of the Year Award in the Maternal-Child Nursing/Childbirthing category  
*AWHONN's Perinatal Nursing* Lippincott Williams & Wilkins  
A better way to learn maternal and newborn nursing! This unique presentation provides tightly focused maternal-newborn coverage in a highly structured text

**Maternal Child Nursing Care - E-Book** Routledge  
AJN Book-of-the-Year Award-Winner! A comprehensive women's health reference guide, this "pocket brain" delivers all the practical, evidence-based clinical information you need to care for normal and high-risk pregnant mothers, newborns, and their families in diverse hospital and community settings. This book delves into other women's health issues that may impact the care of the mother-baby dyad, such as culture, substance abuse, family planning, violence against women and sexually transmitted infections. Perfect for students, new-to-practice, or expert practitioners, this guide provides concise, comprehensive assessments, easy-to-understand tables of lab work-ups and values, common treatment guidelines and the steps to implement

and evaluate nursing care. As a special feature to assist with learning how to check a cervix, you can practice using the dilation milestone cut outs inside the book!

**Maternal-Newborn Nursing** F A Davis Company  
AJN Book of the Year 2009 The ENHANCED, REVISED, REPRINT of Maternal-Child Care Nursing is the same great book that won an AJN Book-of-the-Year Award... made even better with the feedback we received from instructors across the country and Canada. BONUS! The Women's Health Companion, packaged with every copy of the book, is a \$29.00 value that's absolutely FREE when you purchase the ENHANCED, REVISED, REPRINT. It's a complete guide to the role of the nurse in promoting women's health. From class to clinical through NCLEX to practice, it presents all of the information nursing students need to know and shows them how to apply it in both traditional and community settings. There are even teaching and learning resources for this content online at DavisPlus. The perfect balance of maternal and child nursing care in a new textbook conceived and written to be a combination textbook! An extensive review by nursing educators ensures that it offers just the right depth and breadth of coverage for students in today's maternity/pediatric courses. Its unique emphasis on optimizing outcomes, evidence-based practice, and research supports the goal of caring for women, families and children not only in traditional hospital settings, but also wherever they live, work, study, or play. Clear, concise, and easy to follow, the content is organized around four major themes, holistic care, critical thinking, validating practice, and tools for care that help students to learn and apply the material.

**Maternal-Child Nursing Care** W B Saunders Company  
Featuring the most accurate, current, and clinically relevant information available, Perry's Maternal Child Nursing Care in Canada combines essential maternity and pediatric nursing information in one text. Comprehensive coverage includes promotion of wellness and the care for persons experiencing common health concerns throughout the lifespan, care in childbearing, as well as the health care of children and child development in the context of the family. Health concerns, including physiological dysfunctions and special needs and illnesses, are also featured. This text provides a family-centred care approach that recognizes the importance of collaboration with families when providing care. Medication Alerts stress medication safety concerns for better therapeutic management. Safety Alerts highlighted and integrated within the content draw attention to developing competencies related to safe nursing practice. Research Focus boxes identify best practices by presenting evidence and how to apply the knowledge learned. Atraumatic Care boxes in the pediatric unit teach you how to provide competent and effective care to pediatric patients with the least amount of physical or psychological stress. Community Focus boxes emphasize community issues, supply resources and guidance, and illustrate nursing care in a variety of settings. Clinical reasoning case studies offer you opportunities to test and develop your analytical skills and apply knowledge in various settings. Cultural Awareness boxes explore beliefs and practices about pregnancy, childbirth, parenting, women's health concerns, and caring for sick children. Evidence-Informed Practice boxes highlight findings that confirm effective practices or that identify practices with unknown, ineffective, or harmful effects. Emergency boxes alert you to emergency situations and guide you step-by-step through emergency procedures. Family-Centred Care boxes highlight the needs or concerns of families that you should consider in providing family-centred care. Guidelines boxes outline nursing procedures in an easy-to-follow format. Home Care boxes detail important information that you need to deliver care to patients and families in the home setting. Medication Guide boxes include key information about medications used in maternity and newborn care, including their indications, adverse effects, and nursing considerations. Patient Teaching boxes assist you in helping patients and families become involved in their own care with optimal outcomes. **Care of the Childbearing and Childrearing Family** F A Davis Company

Get the accurate, practical information you need to succeed in the classroom, the clinical setting, and on the NCLEX-RN® examination. Written by the foremost experts in maternity and pediatric nursing, the user-friendly Maternal Child Nursing Care, 6th Edition provides both instructors and students with just the right amount of maternity and pediatric content. This new edition includes updated case studies within Nursing Care Plans, as well as a new chapter on pediatric cancer. Focus on the family throughout emphasizes the influence of the entire family in health and illness. Focus on the family throughout emphasizes the influence of the entire family in health and illness. Expert authors of the market-leading maternity and pediatric nursing textbooks combine to ensure delivery of the most accurate, up-to-date content. Critical thinking case studies offer you opportunities to test and develop your analytical skills and apply knowledge in various settings. Nursing Care Plans include rationales for

interventions and provide you with an overview and specific guidelines for delivering effective nursing care. Nursing Alerts highlight critical information that you need to know when treating patients. Guidelines boxes outline nursing procedures in an easy-to-follow format. Emergency boxes in the maternity unit guide you through step-by-step emergency procedures. Home Care boxes detail important information that you need to deliver care to patients and families in the home setting. Atraumatic Care boxes in the pediatric unit teach you how to provide competent and effective care to pediatric patients with the least amount of physical or psychological stress. Community Focus boxes emphasize community issues, provide resources and guidance, and illustrate nursing care in a variety of settings. Patient Teaching boxes in the maternity unit highlight important information nurses need to communicate to patients and families. Cultural Competence boxes equip you with the knowledge you need to deliver culturally competent care. Family-Centered Care boxes draw attention to the needs or concerns of families that you should consider to provide family-centered care. Medication Guides serve as an important reference of drugs and their interactions. NEW! New chapter on pediatric cancer gives you the most up-to-date information on the latest topics. EXPANDED! Additional information on sexuality in the maternity section. EXPANDED! More content on spirituality in the family, culture, and spiritual chapters. EXPANDED and UPDATED! New content about LBGTQ+ included in the Transition to Parenthood chapter. NEW! Information on victims of sexual abuse as parents and human trafficking helps prepare you to handle these delicate issues. NEW and UPDATED! Case studies emphasize interprofessional care, demonstrating how nursing must collaborate with other health care disciplines to provide the most comprehensive care possible to women and children. UPDATED! Nursing Care Plans now incorporate case studies to personalize interventions and promote critical thinking.

#### SHERPATH FOR MATERNAL NEWBORN AND PEDIATRIC NURSING COMBINED

Elsevier Health Sciences

For all courses in maternal and child nursing care in any nursing program. This dynamic, up-to-date text offers an integrated framework and philosophy for teaching the nursing of childbearing families and nursing of children together. Accurate, readable, and concise, Maternal & Child Nursing Care supports faster and more efficient learning in briefer, more compressed courses; while helping students develop essential skills for fast-changing healthcare environments. Core themes in this edition include family-centered and community-based care; health promotion (including Healthy People 2020); patient and family education; clinical reasoning; evidence-based practice, and developing cultural competence. This edition adds new Safety Alerts; more coverage of pain as the fifth vital sign; greater focus on care of families where a child is dying; and updated content on assessment, nutrition, communication, and many other key topics. Multiple pedagogical tools help students focus both learning and review, including intuitive Pathophysiology Illustrated visuals; Family Quotes presenting the family's perspective; Learning Outcomes and Critical Concept Review Features; Key Terms, and an online audio glossary.

#### MATERNAL AND CHILD NURSING CARE

Elsevier

Provide competent and sensitive maternal and newborn nursing care with Clinical Companion for Maternity & Newborn Nursing, 2nd Edition! Ideal for quick reference in the clinical setting, this book offers the information you need on topics such as pregnancy, childbirth, postpartum care, and care of the newborn, including potential complications for each. Expert authors Dr. Shannon E. Perry, Kitty Cashion, Dr. Deitra Leonard Lowdermilk, and Kathryn R. Alden stress the importance of safe nursing practice as outlined in the Quality and Safety Education for Nurses (QSEN) initiative. Teaching for Self-Management boxes offer a guide to communicating follow-up care to patients and their families. Signs of Potential Complications boxes help you recognize the signs and symptoms of complications and provide immediate interventions. Procedure boxes offer easy-to-use, step-by-step instructions for maternity skills and procedures. Emergency boxes may be used for quick reference in critical situations. Nursing Alerts highlight critical information that must be considered when providing care. Medication Guides in an appendix provide a key reference for common drugs and their interactions. Updated content provides the most current practice guidelines, including expanded information on obesity, the late preterm infant, and fetal heart rate pattern identification. Safety Alerts highlight developing competencies related to safe nursing practice in conjunction with the QSEN initiative on quality and safety in nursing care.

Publisher's Note: Products purchased from 3rd Party sellers are not guaranteed by the Publisher for quality, authenticity, or access to any online entitlements included with the product. Build the critical thinking capabilities essential to your success with this captivating, case-based approach. Maternity, Newborn, and Women's Health Nursing: A Case-Based Approach brings the realities of nursing practice to life and helps you acquire the understanding and clinical reasoning skills to ensure effective patient-centered care. This innovative text immerses you in realistic, case-based narratives that help you experience maternity, newborn, and women's health nursing concepts from the patient's perspective and confidently prepare for your clinical rotations. Accompanying units leverage these patient stories to enrich your understanding of key concepts and reinforce their clinical relevance, giving you unparalleled preparation for the challenges you'll face in your nursing career. Powerfully written case-based patient scenarios instill a clinically relevant understanding of essential concepts to prepare you for clinicals. Nurse's Point of View sections in Unit 1 help you recognize the nursing considerations and challenges related to patient-based scenarios. Step-by-Step Skills tutorials clarify common procedures. Unfolding Patient Stories, written by the National League for Nursing, foster meaningful reflection on commonly encountered clinical scenarios. Analyze the Evidence callouts present conflicting research to hone your critical thinking capabilities. Patient Teaching boxes highlight important information to communicate to patients. Lab Values help you recognize the significance of out-of-range values and make appropriate nursing interventions. The Pharmacy features detail essential pharmaceutical information at a glance. Interactive learning resources, including Practice & Learn Case Studies and Watch & Learn Videos, reinforce skills and challenge you to apply what you've learned. Learning Objectives and bolded Key Terms help you maximize your study time. Think Critically questions instill the clinical reasoning and analytical skills essential to safe patient-centered practice. Suggested Readings point you to further research for more information and clinical guidance. **Maternity, Newborn, and Women's Health Nursing** Springer Publishing Company

Based on a philosophy of active learning, this innovative and refreshing study aid is designed to help students learn the fundamentals of maternal-child nursing through unfolding case studies. Nursing content is woven into vivid case vignettes that evolve over time, thus engaging students and helping them develop critical thinking and clinical decision-making skills. The text also serves as a comprehensive workbook for students preparing for the NCLEX-RN®. It is the only maternal-child nursing review text to integrate content with practice and professional responsibilities to foster an engrossing real-world learning experience. The case vignettes are based on actual cases and incorporate all core content topics (assessment, planning, intervention, and evaluation of patient care) for maternal-child nursing and NCLEX-RN® success. The book includes multiple choice, matching, true/false and calculation questions, each related to the unfolding clinical situation. Exercise answers with rationale appear at the end of each chapter. References at the end of the book facilitate self-remediation. Nurse-educators will also find this resource helpful for simulation experiences, classroom cases, group projects, and clinical conferences. Key Features: Reviews maternal-child nursing core content for course learning and test review prep, as well as for NCLEX-RN® success Uses unfolding, real-life case vignettes to integrate core content with practice and professional responsibilities Covers all types of NCLEX-style questions for greater test familiarity Incorporates online resources for use in clinical settings Develops critical thinking skills to help students "think like a nurse"
