How to get the best from your vinyl records and kit. The Vinyl Manual is the 21st century companion for anyone who is bringing their vinyl music collection back to life or discovering the joys of vinyl for the first time. With chapters on turntables and audio kit, it is a step-by-step guide to getting the most from your vinyl collection and understanding the technology behind it. We explain how vinyl delivers the unique sound so loved by audio enthusiasts and its evolution over 100 years, from the 78s of the late 19th century to today's advanced electronic formats. As well as expert insight into setting up your system correctly and guides to choosing the right hardware for your music, the Haynes experts take you behind the scenes of the vinyl industry, including the super-clubs of the 1970s, 1980s and 1990s. We tell you the best way to build and curate your collection, from dance to rock to classical, and provide tips from the world's most respected professionals. Whether you are collecting, recording or just playing, the Vinyl Manual is the essential companion for any vinyl enthusiast.

Ant Anstead's Building a Special brings the Haynes story full circle, coming 61 years after the original Building a 750 Special was written by John Haynes, Haynes Publishing's founder, when he was still a schoolboy. This book is a TV tie-in, following the 12-part TV series Ant Anstead Master Mechanic, aired on Motor Trend, part of the Discover Network in the US and UK, following Ant Anstead's build of his own-design 'special' car, taking inspiration from the Alfa 158 - the first World Championship-winning F1 car, which raced from the 1930s until the 1950s. The 12-part TV series followed Ant's build of the car, from the first

design ideas, through the construction, culminating in the debut of the car during the 2019 US Grand Prix weekend in Austin, Texas. The book follows Ant's personal build of the car, from the selection of the donor MG TD for the chassis, and Alfa Romeo Spider for the engine and gearbox, through modifying the chassis, building the suspension, steering, brakes, bodywork and interior, and putting all the components together to produce a finished one-off 'special.' Content includes: Introduction The history of specials Planning Donor car Chassis, suspension, steering, rear axle Engine, fuel system, cooling system, ancillaries, exhaust Gearbox Bodywork Braking system Cockpit Wiring Preparation and painting Testing Setting up and Making road legal.

This definitive record of Ayrton Senna's racing life provides detailed coverage of every single race in which he competed, including Formula Ford, Formula 3 and Formula 1, in addition to one-off appearances and tests in other categories, such as the World Sports Car Championship and Indy Car. The compelling text features insightful new material drawn from interviews with many of Senna's rivals and colleagues - from early opponent Calvin Fish to Williams team-mate Damon Hill - and is accompanied by a rich array of high-quality period photographs captured through the lenses of Sutton Images, where brothers Keith and Mark Sutton between them followed Senna's meteoric career from the very beginning. Graced with a foreword by Martin Brundle, Senna's great rival in Formula 3 during 1983, this top-quality book provides a fitting tribute to a Formula 1 legend whose legacy today extends far beyond the world of motor racing. - The karting years: racing in Brazil and South America between 1973 and 1977, and Senna's efforts to win the elusive karting World Championship between 1978 and 1981. - Formula Ford 1600 and 2000: racing with the Van Diemen works team in 1981, before progressing to FF2000 in 1982, dominating the British and European championships. - Formula 3: the battle with Martin Brundle for the 1983 British F3 Championship. - Formula 1 baptism with Toleman: nearly winning the rain-shortened Monaco Grand Prix, and qualifying third at Estoril, behind Piquet's Brabham and Prost's McLaren. - The Lotus years, 1985-87: Senna's first wins, at Estoril and Spa in 1985, two more wins in 1986, and his final Lotus year, with wins in Monaco and Detroit, before signing for McLaren for the 1988 season. - The McLaren years, 1988-93: first world title in 1988 followed by an acrimonious year with team-mate Alain Prost in 1989. - Two further world titles in 1990 and 1991, but then Williams emerges

to dominate with Nigel Mansell (1992) and Alain Prost (1993), Senna winning five races in his final year for McLaren. - The final season (1994): driving for a no-longer-dominant Williams, struggling to take the fight to Benetton and Michael Schumacher, before tragically losing his life at Imola. Royal Automobile Club shortlist of contenders for Motoring Book of the Year!

On 20 July 1969, US astronauts Neil Armstrong and Buzz Aldrin became the first men to walk on the moon. NASA Mission AS-506 Apollo 11 Owners' Workshop Manual is the story of the Apollo 11 mission and the 'space hardware' that made it all possible. This manual looks at the evolution and design of the mighty Saturn V rocket, the Command and Service Modules, and the Lunar Module. It describes the space suits worn by the crew and their special life support and communications systems. We learn about how the Apollo 11 mission was flown - from launch procedures to 'flying' the Saturn V and the 'LEM', and from moon walking to the earth re-entry procedure. This new edition of the book celebrates the 50th Anniversary of the Apollo 11 moon landing.

Part-time racer and chicken farmer Carroll Shelby ordered a chassis from AC Cars in England in 1961, and asked them to install a Ford V8 engine in it. The AC Ace was fitted with the same rear diff as that used in the Jaguar E-type, and so when the car arrived in the Shelby workshop, it proved easy to modify thanks to the simple AC layout.

"[A] dark, elegant novel" of two women in ancient Greece, based on the great tragedies of Sophocles (Publishers Weekly). Thebes is a city in mourning, still reeling from a devastating plague that invaded every home and left the survivors devastated and fearful. This is the Thebes that Jocasta has known her entire life, a city ruled by a king—her husband-to-be. Jocasta struggles through this miserable marriage until she is unexpectedly widowed. Now free to choose her next husband, she selects the handsome, youthful Oedipus. When whispers emerge of an unbearable scandal, the very society that once lent Jocasta its support seems determined to destroy her. Ismene is a girl in mourning, longing for the golden days of her youth, days spent lolling in the courtyard garden, reading and reveling in her parents' happiness and love. Now she is an orphan and the target of a murder plot, attacked within the very walls of the palace. As the deadly political competition swirls around her, she must uncover the root of the plot—and reveal the truth of the curse that has consumed her family. The novel is based on Oedipus Tyrannus and Antigone, two of Classical Greece's most compelling tragedies. Told in intersecting narratives, this reimagining of Sophocles's classic plays brings life and voice to the women who were too often forced to the background of their own stories. "After two and a half millennia of near silence, Jocasta and Ismene are finally given a chance to speak . . . Haynes's Thebes is vividly captured. In her excellent new novel, she harnesses the mutability of myth." —The Guardian
