UFOs Over Africa BookRefine Publishing

This is the new must-have UFO book. For beginners and experienced researchers alike, historian Richard Dolan covers the full range of this incredibly complex topic in his uniquely engaging style. He offers fresh insights on everything connected to UFOs: ancient aliens, modern encounters, abductions, channelers, the politics and cover-up, the black budget world, the bizarre science, the social dimensions (read YouTube and Facebook), the future, and much more. Toward that end, Dolan gives practical insights on how to distinguish and investigate UFOs in today's world, where we are flooded with claims and videos and data of all types. In addition, as one of ufology's pioneers in the deep analysis of the cover-up, he offers an original perspective on how it all works and why the cover-up, despite being so entrenched and insidious, is nevertheless bound to end. He also writes on the nature of contact, speculating on who these "Others" might be. Finally, Dolan takes the reader through the "weird science" of UFOs, covering everything from propulsion to

spacetime to consciousness and more. UFOs for the 21st Century Mind is a roadmap pointing the way forward in a field filled with uncertainty and obfuscation. In so doing, it is set to reposition an ancient phenomenon into a contemporary state of mind, reminding you just why the greatest mystery of our time is also one of the most important. Contents: Introduction1. What Are UFOs?2. Theories of Ancient Visitation3. Into Modernity: Airships, Foo Fighters, and Flying Saucers, 1896 to 19694. UFO Secrecy and Those Who Fought It5. Digging Deeper-The Breakaway Civilization6. High Strangeness-UFOs from 1970 to 19907. UFOs, 1991 to the Present8. Contact and Abduction9. The Growth of Ufology10. Who Are They? What Do They Want? 11. Weird Science: Propulsion, Energy, Spacetime, and Consciousness12. Into the Future, Into OurselvesConclusion486 p. IllustratedEndorsements: "In a field that can be so confusing, so complex, Richard Dolan has taken his many years of thinking about UFOs and written a completely fresh overview of the entire subject. . . . This is an ambitious work that truly ties the many different aspects of the subject together. It's rare to find something like this, especially considering the care and thoroughness that went into it." -- George Noory, host

of Coast to Coast AM."As a follow-up to his previous books exploring the relationship between UFOs and the National Security State, historian Richard Dolan widens his perspective to explore all aspects of this provocative phenomenon. In this role, he takes us on a journey that brings to life the subtlety and depth of this rich subject, a truly captivating read."--H. E. Puthoff, Ph.D., Director, Institute for Advanced Studies at Austin"UFOs For the 21st Century Mind represents a new kind of book - one that clearly and intelligently addresses literally every aspect and implication of the most maligned, misunderstood and compelling subject in human history. Richard Dolan's newest work is perfect reading for serious students of ufology as well as the absolute beginner. Inspired, particularly well written, and the product of a first class mind for this or any other century."--Peter Robbins, coauthor of the U.K. bestseller, *Left At East Gate: A First-Hand Account of the Rendlesham Forest UFO Incident, Its Cover-up and Investigation*"This is an invaluable treatment of the known facets and seemingly endless implications regarding UFOs, with a much-appreciated focus on the human experience. A job well done, Richard." -- Sam Maranto, Investigative Research Simon and Schuster

A voyage of exploration to the outer reaches of our inner lives. UFOs are a myth, says David J. Halperin—but myths are real. The power and fascination of the UFO has nothing to do with space travel or life on other planets. It's about us, our longings and terrors, and especially the greatest terror of all: the end of our existence. This is a book about UFOs that goes beyond believing in them or debunking them and to a fresh understanding of what they tell us

about ourselves as individuals, as a culture, and as a species. In the 1960s, Halperin was a teenage UFOlogist, convinced that flying saucers were real and that it was his life's mission to solve their mystery. He would become a professor of religious studies, with traditions of heavenly journeys his specialty. With *Intimate Alien*, he looks back to explore what UFOs once meant to him as a boy growing up in a home haunted by death and what they still mean for millions, believers and deniers alike. From the prehistoric Balkans to the deserts of New Mexico, from the biblical visions of Ezekiel to modern abduction encounters, *Intimate Alien* traces the hidden story of the UFO. It's a human story from beginning to end, no less mysterious and fantastic for its earthliness. A collective cultural dream, UFOs transport us to the outer limits of that most alien yet intimate frontier, our own inner space.

UFOs. Aliens. Strange crop circles. Giant figures scratched in the desert surface along the coast of Peru. The amazing alignment of the pyramids. Strange lines of clouds in the sky. The paranormal is alive and well in the American cultural landscape. In *UFOs, Chemtrails, and Aliens*, Donald R. Prothero and Tim Callahan explore why such demonstrably false beliefs thrive despite decades of education and scientific debunking. Employing the ground rules of science and the standards of scientific evidence, Prothero and Callahan discuss a wide range of topics including the reliability of eyewitness testimony, psychological research into why people want to believe in aliens and UFOs, and the role conspiratorial thinking plays in UFO

culture. They examine a variety of UFO sightings and describe the standards of evidence used to determine whether UFOs are actual alien spacecraft. Finally, they consider our views of aliens and the strong cultural signals that provide the shapes and behaviors of these beings. While their approach is firmly based in science, Prothero and Callahan also share their personal experiences of Area 51, Roswell, and other legendary sites, creating a narrative that is sure to engross both skeptics and believers.

An award-winning journalist investigates

a story largely ignored by mainstream media but right there, in front of our eyes ... UFOs, UAPs, flying cigars, extraordinary new technologies ... Are we not alone? Award-winning investigative journalist Ross Coulthart has been intrigued by UFOs since mysterious glowing lights were reported near New Zealand's Kaikoura mountains when he was a teenager. The 1978 sighting is just one of thousands since the 1940s, and yet research into UFOs is still seen as the realm of crackpots and conspiracy theorists. In 2020, however, after decades of denial, the US Department of Defence made the astonishing admission that strange aerial and underwater objects frequently reported and videoed by pilots and tracked by sensors are real, unexplained, and pose a genuine national security concern. Compelled to investigate, Coulthart has embarked on what's become the most confronting and challenging story of his career, speaking to witnesses, researchers, scientists, spies and defence and intelligence officials and insiders. What he has found suggests that the world is on the cusp of extraordinary technological breakthroughs and cultural revelations. Bizarre, sometimes mind-blowing and utterly fascinating, *In Plain Sight* tells a story that's largely escaped the radar of mainstream media coverage but has been there all along. Now it's time to observe what's in front of our eyes.

In the spring of 2014, Grant Cameron received an astonishing message from his friend Chris Bledsoe. Chris had an extraordinary encounter with beings he called "the Guardians". Chris relayed this message to Grant and told him that "the message is in the music". Grant Cameron was never musically inclined,

and rarely showed any interest in music until he heard the song, "After the Goldrush" by Neil Young. The message that Chris relayed to Grant now resonated with him. Grant wondered if the lyrics in that song, were part of the message. He then became very interested in musicians who have had experiences with various unexplained phenomenon. And so, the trip down the rabbit hole began...What emerged from the investigation was evidence of a very weird world where many musicians have reported bizarre occurrences such as: unexplained sightings of craft, encounters with other worldly beings and telepathic transmissions from outside our known reality. Many musicians have reported musical downloads and that they have tapped into a non-local consciousness. Many are influenced or inspired by paranormal forces and have written songs with UFO themes. There are even accounts of UFOs that have showed up at their concerts! Many musicians seem to be heavily influenced by supernatural or mystical forces and Grant's investigation expands into many of other aspects to the paranormal world of music. This book examines the parallel stories in pre-rock music and assesses what "the message in the music" might be. Is there a plan by a higher-level consciousness to influence, enlighten and disclose information into our level of reality? After reading this book, you will certainly start to wonder...

History is written by the winners—and the powerful—but how much of it is fiction? And who is really in control today? From the dawn of civilization to the 21st century, from ancient aliens to the New World Order, Secret History:

Conspiracies from Ancient Aliens to the New World Order examines, explores, and uncovers the hidden, overlooked, and buried history of mankind. The book moves from biblical, Egyptian, Mayan, Greek, and early mysteries of antiquity to the clandestine doings of the Nazis and the Masons and assassination plots of the more recent past to the surveillance, monitoring, mind-control, and secret schemes of today.

Researcher Nick Redfern investigates the stories, mythologies, lore behind incredible events and clandestine groups of yesterday and today. More than 60 entries dig deep into the manipulation of events by influential groups, including ...

- Historical riddles—alien visitations, space gods, and human-alien crossbreeding.
- Government cover ups—mind control, murders, scientists, and secret agents.
- Powerful groups and intended consequences—9-11, new world order, bird-flu, and chemtrails.

Tracing the chilling and lasting effects of conspiracies, cabals, and plots, Secret History: Conspiracies from Ancient Aliens to the New World Order exposes their deep reach in shaping today's world.

The Report on Unidentified Flying Objects is a book by Edward J. Ruppelt which described the study of UFOs by United States Air Force from 1947 to 1955. Ruppelt was a United States Air Force officer best known for his involvement in Project Blue Book, a formal governmental study of unidentified flying objects. He is generally credited with coining the term "unidentified flying object." Because Ruppelt was the central axis of the government's investigation the book provides a unique insider look at how the government's efforts functioned.

[UFO Secrets](#) UFO Scholar

A new edition of the blockbuster book that revealed the top-secret findings of the US government about UFOs. Throughout the 1950s and 1960s, while publicly dismissing the existence of UFOs, the United States Air Force was engaged in a secret program for evaluating every report of unidentified flying objects. Under the code name, Project Blue Book, the Air Force analyzed over 13,000 incidents. The goal of this enterprise was threefold: To determine the cause for each UFO sighting, to assess the security threat for each incident, and to determine how the United States could obtain or create the technology used by UFOs. This book, based on secret files obtained through the Freedom of Information Act, includes accounts of seven of the most important USAF enquiries-- among them the story of the nights the White House was buzzed by UFOs, the mystery of the Lubbock Lights, the full story of Captain Mantell--Ufology's first martyr, and the startling conversion of the prominent astronomer, J. Alan Hynek from UFO skeptic to believer. This is startling and fascinating book that uncovers not only the anatomy of a government cover-up, but also provides stark and chilling evidence that we are not alone. It is all here, government documents, the testimony of scientists, the military, pilots and citizens all over the country who have witnessed UFOS.

Tranceformers: Shamans of the 21st Century is the true story of this author's contact with a "dead" optics physicist colleague and the telepathic communication that sent him searching for scientific answers to his spiritual questions. Harper draws from this deep well of wisdom: astrology, biology, near-

death experiences, paranormal psychology, quantum physics as well as Egyptian and Mayan cosmology overall. He does an excellent job of synthesizing massive amounts of information, making this shift of the ages comprehensible to the general reader. Clearly this is a necessary primer to understand the coming apocalypse of biblical proportions in consciousness, climate, culture, and civilization. However, the theme of this book is that by learning to use trance- the techniques employed by mystics, prophets, and shamans- one can unlock the mysteries of existence for themselves. Indeed this is the big idea behind the Eternal Return of the Sun of God in 2012: Self-Empowerment.

UFOs AND THE NATIONAL SECURITY STATE

Visible Ink Press
Unidentified phenomena in space, in the Earth's atmosphere, and in waters are too important to leave their exploration to the military and scientific laypersons. Their proper scientific study is important for a variety of reasons; in particular, scientists and the public at large need to know the basic facts, to be informed about the way evidence is recorded, and to understand the difference between reliable evidence and fiction, as well as between plausible explanations and fantasy. With this objective, the book surveys the history of UFO observations, the variety of recorded phenomena, and recounts the efforts of investigative commissions and their published findings. Although wild rumors are demystified in the process, this is not an exercise in rumor-bashing. An open and at the same time critical mindset is the key. Many narratives and hypothesis appear implausible relative to our present state of knowledge; but this

alone should not lead to their outright exclusion. Thus the author also pays attention to UFO sightings that have so far eluded explanation in terms of known physics or meteorology. Here the reader will encounter some of the more speculative but scientifically tenable proposals, for example, relating to sudden zigzag motion without apparent inertia or recognizable propulsion, yet always with a clear guide to their plausibility. Last but not least, the book outlines plans and suggestions for future research capable of revealing the existence and intentions of extraterrestrial intelligences, outer-space engineers, or technologies so far known only from science fiction.

A True Story of Alien Abduction - One of the most important, sincere and honest abduction stories out there. Finally back in print. As with the reissue of TAKEN, INTO THE FRINGE is an officially authorized republication with the sole input of Karla Turner's widower Elton. Endorsed and approved by Elton Turner with the highest respect for the importance of the story; we excitedly bring INTO THE FRINGE to the 21st century. Into the Fringe documents the account of alien abduction and how Karla Turner, along with her family, uncovered the memories and physical evidence of their encounters with beings from outside of our own planet. "This brave and defiant refusal, in the name of humanity, to countenance suffering from an alien tyrant masquerading as a benefactor, is Karla Turner's final legacy." - John Chambers, UFO Magazine

NEW YORK TIMES BESTSELLER •

Impeccably researched, this riveting journalistic investigation separates fact from fiction, and documents the existence of—and government reactions to—actual UFOs. “A treasure trove of insightful and eye-opening information.”—Michio Kaku, PH.D., bestselling author of *Physics of the Future* Leslie Kean, a veteran investigative reporter who has spent the past ten years studying the still-unexplained UFO phenomenon, reviewed hundreds of government documents, aviation reports, radar data, and case studies with corroborating physical evidence. She interviewed dozens of high-level officials and aviation witnesses from around the world. Among them, five Air Force generals and a host of high-level sources—including Fife Symington III, former governor of Arizona, and Nick Pope, former head of the British Defence Ministry’s UFO Investigative Unit—have written their own breathtaking, firsthand accounts about UFO encounters and investigations exclusively for this book. With the support of former White House chief of staff John Podesta, Kean lifts the veil on decades of U.S. government misinformation about this mysterious phenomenon and presents irrefutable evidence that unknown flying objects—metallic, luminous, and seemingly able to maneuver in ways that defy the laws of physics—actually exist. With a Foreword by John Podesta “The most important book on the phenomenon in a generation.”—*Journal of Scientific Exploration* “Written with penetrating depth and insight, the revelations in this book constitute a

watershed event in lifting the taboo against rational discourse about this controversial subject.”—Harold E. Puthoff, PH.D., Director of the Institute for Advanced Studies at Austin “Kean presents the most accurate, most credible reports on UFOs you will ever find. She may not have the final smoking gun, but I smell the gunpowder.”—Miles O’Brien, science correspondent for PBS’s *NewsHour*

A CLASSIC OF MILITARY SF FROM THE NEW YORK TIMES BEST-SELLING AUTHOR OF THE HONOR HARRINGTON SERIES RINGSIDE FOR THE APOCALYPSE There he was in his sailboat in the middle of the Atlantic, all alone and loving it. Well, there was a US Navy carrier group on his southern horizon,

but Richard Ashton was a Navy guy himself, so he didn't mind. Then came the UFOs, hurtling in from the Outer Black to overfly the carriers at Mach 17. Their impossible aerobatics were bad enough—but then they started shooting at each other. And at the Navy. With nukes. Little ones at first, but winding up with a 500 megatonner at 90 miles that fried every piece of electronics within line of sight. Ashton thought he was just a ringside observer to these now over-the-horizon events. But when a crippled alien lifeboat came drifting down and homed in on his sailboat, he suddenly found his hands full of an unconscious, critically wounded, and impossibly human alien warrior who also happened to be a gorgeous female. That's when things got interesting.
