Greek: An Essential  
Grammar of the

### Modern Language

Routledge

A Reading Course in Homeric Greek, Book One, Third Edition is a revised edition of the well respected text by Frs. Schoder and Horrigan. This text provides an introduction to Ancient Greek language as found in the Greek of Homer. Covering 120 lessons, readings from Homer begin after the first 10 lessons in the book. Honor work, appendices, and vocabularies are included, along with review exercises for each chapter with answers.

### **THE USE AND ABUSE OF HISTORY**

National Geographic  
Books

Do you want to perfect your Greek handwriting? Do you

need a trustworthy resource to teach your small children to trace the Greek alphabet? Then this workbook is the perfect companion for your studies. In it, you'll find all the Modern Greek consonants and vowels, including the upper and lower case versions and the ending form of the sigma letter. Your benefits: Clear large letters make it easy to recognize even the most detailed of the Greek characters. Detailed stroke order instructions provide you with a strong foundation to build your skills. Dedicated "Trace and Learn" sections are designed to imprint proper stroke technique unto your muscle memory. Font variations train your brain to recognize

alternative character styles. As a bonus, for each character, you'll find an extra 8.5 x 11 inches page fully dedicated to the handwriting practice of that letter with and without guiding background light-gray letters. Feel free to photocopy these bonus pages as you wish to extend the lifetime value of your workbook. Special information: Like all Lang Workbooks, this work is also a labor of love. Accordingly, if you are a teacher, a student of Greek, or homeschooling your children, then you can photocopy any part of this workbook for your own, or your students, personal use. Learning to write the Greek script by heart has never been made easy.

## **JAPANESE FROM ZERO! 5**

Yesjapan Corporation Japanese From Zero! is an innovative and integrated approach to learning Japanese developed by professional Japanese interpreter George Trombley and co-writer Yukari Takenaka. The lessons and techniques used in this series have been taught successfully for over fifteen years in classrooms throughout the world. ### **COMMON SWEDISH VERBS**

Routledge  
Winner of the Duff  
Cooper Prize • One of  
The Economist's top  
history books of the  
year From one of our  
leading historians, an  
important new history  
of the Greek War of  
Independence—the  
ultimate worldwide  
liberal cause célèbre of  
the age of Byron,  
Europe's first  
nationalist uprising,  
and the beginning of  
the downward spiral of  
the Ottoman

Empire—published two  
hundred years after its  
outbreak As Mark  
Mazower shows us in  
his enthralling and  
definitive new account,  
myths about the Greek  
War of Independence  
outpaced the facts  
from the very  
beginning, and for  
good reason. This was  
an unlikely cause,  
against long odds, a  
disorganized collection  
of Greek patriots up  
against what was still  
one of the most storied  
empires in the world,  
the Ottomans. The  
revolutionaries needed  
all the help they could  
get. And they got it as  
Europeans and  
Americans embraced  
the idea that the heirs  
to ancient Greece, the  
wellspring of Western  
civilization, were  
fighting for their  
freedom against the  
proverbial Eastern

despot, the Turkish sultan. This was Christianity versus Islam, now given urgency by new ideas about the nation-state and democracy that were shaking up the old order. Lord Byron is only the most famous of the combatants who went to Greece to fight and die—along with many more who followed events passionately and supported the cause through art, music, and humanitarian aid. To many who did go, it was a rude awakening to find that the Greeks were a far cry from their illustrious forebears, and were often hard to tell apart from the Ottomans. Mazower does full justice to the realities on the ground as a revolutionary conspiracy triggered

outright rebellion, and a fraying and distracted Ottoman leadership first missed the plot and then overreacted disastrously. He shows how and why ethnic cleansing commenced almost immediately on both sides. By the time the dust settled, Greece was free, and Europe was changed forever. It was a victory for a completely new kind of politics—international in its range and affiliations, popular in its origins, romantic in sentiment, and radical in its goals. It was here on the very edge of Europe that the first successful revolution took place in which a people claimed liberty for themselves and overthrew an entire empire to attain it, transforming

diplomatic norms and the direction of European politics forever, and inaugurating a new world of nation-states, the world in which we still live.

### **ADVANCES IN GEOPHYSICS VOLUME I**

Apress  
For the Third Edition, 2001 Nobel laureate Joseph Stiglitz joins forces with new co-author Carl Walsh, who brings both economic expertise and teaching savvy to the project. Together, Stiglitz and Walsh thoroughly integrate contemporary economics into the traditional curriculum. Informed by the broad range of research that earned Professor Stiglitz the Nobel Prize in Economic Sciences,

the first edition of this text pioneered important topics relating to the economics of imperfect markets, which are today's standard in all principles texts. Only this text, however, gives those topics serious attention, with complete chapters on imperfect information in product markets, imperfections in labor markets, technological change, and environmental externalities, as well as a complete chapter on strategic behavior. Learn from Zero  
An introduction to research methods intended to help readers understand and evaluate research in language learning, this book presents a balanced, accessible view of a range of methods including:" formal experiments" introspective methods (including diaries, logs, journals, and stimulated recall" interaction and transcript analysis" case studiesIt emphasises the value to language teachers of reading published research, as well as initiating their own research. After completing the tasks and exercises in each chapter, readers should acquire sufficient skills and

knowledge to formulate research questions, collect relevant data, analyse and interpret it, and report the results to others.

A Short Guide to a Long Life Yesjapan Corporation

This book offers a lively introduction to the research methods and techniques available to English language teachers who wish to investigate aspects of their own practice. It covers qualitative and quantitative methodology and includes sections on observation, introspection, diary studies, experiments, interviews, questionnaires, numerical techniques and case study research. Each method is illustrated with examples in language

teaching contexts, and techniques of data collection and analysis are introduced. The authors focus particularly on research in the classroom, on tests, materials, the effects of innovations, and they discuss methods appropriate to research in various collaborative modes as well as by individuals. A key feature of the book is an introduction to the debate surrounding different approaches to research, with an evaluation of traditional research in relation to the paradigms associated with reflective practice and action research. The book is ideal for teachers on initial training and post-experience courses, students on degree programmes in applied

linguistics and TEFL  
and, of course,  
practising teachers

with an interest in  
research methods in  
language teaching.
