The Eternal Tao Te Ching

Macmillan
 Long before environmental consciousness became popular, a young nature writer named Opal Whitely captured America's heart. Opal's childhood diary, published in 1902, became an immediate bestseller, one of the most talked-about books of its time. Wistful, funny, and wise, it was described by an admirer as "the revelation of

the ...life of a feminine Peter Pan of the Oregon wilderness—so innocent, so intimate, so haunting, that I should not know where in all literature to look for a counterpart." But the diary soon fell into disgrace. Condemning it as an adult-written hoax, skeptics stirred a scandal that drove the book into obscurity and shattered the frail spirit of its author. Discovering the diary by chance, bestselling

author Benjamin Hoff set out to solve the longstanding mystery of its origin. His biography of Opal that accompanies the diary provides fascinating proof that the document is indeed authentic—the work of a magically gifted child, America's forgotten interpreter of nature. Tiggers Don't Climb Trees
 New Harbinger Publications
 This book offers a fundamentally

new interpretation of the philosophy of the Chuang-Tzu. It is the first full-length work of its kind which argues that a deep level cognitive structure exists beneath an otherwise random collection of literary anecdotes, cryptic sayings, and dark allusions. The author carefully analyzes myths, legends, monstrous characters, paradoxes, parables and linguistic

puzzles as strategically placed techniques for systematically tapping and channeling the spiritual dimensions of the mind. Allinson takes issue with commentators who have treated the Chuang-Tzu as a minor foray into relativism. Chapter titles are re-translated, textual fragments are relocated, and inauthentic, outer miscellaneous chapters are carefully separated from the

transformator y message of the authentic, inner chapters. Each of the inner chapters is shown to be a building block to the next so that they can only be understood as forming a developmenta l sequence. In the end, the reader is presented with a clear, consistent and coherent view of the Chuang-Tzu that is more in accord with its stature as a major philosophical work. *The Last Lesson of Mrs*

Daoism, and upholds a way of being as well as a philosophy and a religion. The dominant image is of the Way, the mysterious path through the whole cosmos modelled on the great Silver River or Milky Way that traverses the heavens. A life-giving stream, the Way gives rise to all things and holds them in her motherly embrace. It enables the individual, and society as a whole, to harmonize the

disparate demands of daily life and achieve a more profound level of understanding. This new translation draws on the latest archaeological finds and brings out the word play and poetry of the original. Simple commentary accompanies the text, and the introduction provides further historical and interpretative context. ABOUT THE SERIES: For over 100

years Oxford World's Classics has made available the widest range of literature from around the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading authorities, helpful notes to clarify the text, up-to-date bibliographies

for further study, and much more.

Meditations on

Mindfulness with a Bear Named Pooh

Penguin The bestselling author of *The Tao of Pooh* offers a uniquely authentic translation of the enduring *Tao Te Ching*, based on the meanings of the ancient Chinese characters in use when the Taoist classic was written.

From Benjamin Hoff, author of *The Tao of Pooh* and *The Te of*

Piglet, which have sold millions of copies worldwide, comes *The Eternal Tao Te Ching*, a new translation of the Chinese philosophical classic, the *Tao Te Ching*. *The Eternal Tao Te Ching* is the first translation to employ the meanings of the pre-writing brush characters in use 2,400 years ago, when the classic was written, rather than relying on the often-different meanings of the more

modern brush characters, as other translations have done. Hoff points out in his chapter notes the many incidents of meddling and muddling that have been made over the centuries by scholars and copyists, and he corrects the mistakes and removes such tampering from the text. Hoff also makes the provocative claim—and demonstrates by revealing clues in the text—that the *Tao Te Ching's*

author was a young nobleman hiding his identity, rather than the long-alleged author, the "Old Master" of legend, Lao-tzu. And Hoff's chapter notes shed new light on the author's surprisingly modern viewpoint. With a selection of lyrical color landscape photographs by the author, this is a unique, and uniquely accessible, presentation of the Tao Te Ching.
