The Law of Explosive Growth Harvest House Publishers

Right now, 70% of Americans aren't passionate about their work and are desperately longing for meaning and purpose. They're sick of "average" and know there's something better out there, but they just don't know how to reach it. One basic principle—The Proximity Principle—can change everything you thought you knew about pursuing a career you love. In his latest book, *The Proximity*

Principle, national radio host and career expert Ken Coleman provides a simple plan of how positioning yourself near the right people and places can help you land the job you love. Forget the traditional career advice you've heard! Networking, handing out business cards, and updating your online profile do nothing to set you apart from other candidates. Ken will show you how to be intentional and genuine about the connections you make with a fresh, unexpected take on resumes and the job interview process. You'll discover the five people you should look for and the four best places to grow, learn, practice, and perform so you can step into the role you were created to fill. After reading *The Proximity Principle*, you'll know how to connect with the right people and put yourself in the right places, so opportunities will come—and you'll be prepared to take them.

Extended Summary Of The 21 Irrefutable Laws Of Leadership:

Follow Them And People Will Follow You - Based On The Book By John C. Maxwell Do work teams fail in your organization? Do you know what to do to achieve good team integration? Can you work in a team? Know these 17 laws and you will achieve success.

About The Original Book In this book the author presents 17 laws that every leader should keep in mind to form good working teams. These are basic principles especially useful in these times, in which individual work has been minimized and the integration of people is an essential condition for achieving goals. What Will You Learn? You will understand that integrating a team is not just gathering people to work together. You will get to know the process of the 17 laws with which you will improve the functioning of the team that you integrate or lead. You will get your team to work with that "chemistry" that allows it to coordinate different capacities, abilities and skills to achieve a goal. If you are a leader, you will feel your effectiveness grow. You will work happier and more relaxed along with your team. About Mentors Library Books are mentors. Books can guide what we do and our lives. Many of us love books while reading them and maybe they will echo with us a few weeks after but 2 years later we can't remember if we have read it or not. And that's a shame. We remember that at that time, the book meant a lot to us. Why is it that 2 years later we have forgotten everything? That's not good.

This summary is taken from the most important themes of the original book. Most people don't like books. People just want to know what the book says they have to do. If you trust the source you don't need the arguments. So much of a book is arguing its points, but often you don't need the argument if you trust the source you can just get the point. This summary takes the effort to distill the blahs into themes for the people who are just not going to read the whole book. All this information is in the original book.

Lesson 4 from The 21 Irrefutable Laws of Leadership

Thomas Nelson

Use this helpful book to learn about the leadership tools to fuel success, grow your team, and become the visionary you were meant to be. True leadership isn't a matter of having a certain job or title. In fact, being chosen for a position is only the first of the five levels every effective leader achieves. To become more than "the boss" people follow only because they are required to, you have to master the ability to invest in people and inspire them. To grow further in your role, you must achieve results and build a team that produces. You need to help people to develop their skills to become leaders in their own right. And if you have the skill and dedication, you can reach the pinnacle of leadership—where experience will allow you to extend your influence beyond your immediate reach and time for the benefit of others. The 5 Levels of Leadership are: 1. Position—People follow because they have to. 2. Permission—People follow because they want to. 3. Production—People follow because of what you have done for the organization. 4. People Development—People follow because of what you have done for them personally. 5. Pinnacle—People follow because of who you are and what you represent. Through humor, in-depth insight, and examples, internationally recognized leadership expert John C. Maxwell describes each of these stages of leadership. He shows you how to master each level and rise up to the next to become a more influential, respected, and successful leader.
