 L.P. Dover, the New York Times and USA Today bestselling author who brought

you the tantalizing Gloves Off series, presents Gloves Off – Next Generation. This brand-new saga of interconnected standalones unites new characters with beloved originals in dark and sexy stories laced with suspense! Two months ago, everything changed. The enemy no longer feels the need to sulk in the shadows. Instead, he hides in plain sight and prepares his attack... against Reagan Jameson. Reagan knew this day would come. She proudly holds the featherweight title and is known as one of the sexiest female fighters in MMA history. She can handle her own, and that's exactly what she plans to do with Nikolai. Unfortunately, things aren't as they were before. When given an offer she can't refuse, Reagan is well aware nothing good will come of it. They promised her power, prestige, and money... a world full of intrigue and dangerous desires. Not being able to resist the allure, she gives in and becomes a pawn in their game. She's able to fool those closest to her into believing everything is okay... except for Braden Emerson. Braden's reputation as one of the toughest fighters in the circuit hasn't gone unnoticed. In fact, it's his skills that get him lured into the pit of danger. While he vows to keep Reagan safe no matter the cost, his desire for her is used against him. As passion ignites between the pair, they must work together if they hope to survive. Fighting for a title is one thing, but nothing beats the stakes of fighting for love. This is one TKO that could cost them everything. No cheating. No cliffhangers. Just hot, dirty-talking fighters who want to take you down to the mat. *** Want more GLOVES OFF sexy love stories?  Axe doesn't suffer from addiction. He
 relishes it. Ever since an open heart
 surgery tested his metal, everyday
 challenges just haven't been enough.
 Despite living the good life in Texas, his
 girlfriend, Sunshine, knows as well as he
 does that no matter how happy Axe
 might be, he'll always have demons
 inside to battle. He trades his current
 ride, the Goat, for its steroid-pumped
 younger cousin, the Cadillaxe. After
 equipping the triple black beauty with
 mirror-mounted radar detection and
 thermal vision, he takes a test run to
 Colorado and back. Next he finishes
 building the most exotic chopper of his
 career and rides this chrome steed to
 Daytona Beach. But neither of these
 vehicles or trips are enough for his
 insatiable need for adrenaline. Finally,
 the idea of riding his BMW S1000RR
 motorcycle from the Pacific to the
 Atlantic consumes his twisted mind. Axe
 prepares by modifying the BMW,
 installing the latest gadgetry, and
 training. Eventually, brains pass the
 torch to balls as it becomes clear the
 task is not intended for the weak or
 sensible. Through pure determination,
 the leather-clad biker shatters the record
 for the fastest motorcycle ride across
 America.

Set your pulse racing with this stunning visual guide to over 1000 pin-up machines - iconic symbols of wanderlust, speed, and the open road. From Gottlieb Daimler's gas-powered "engine on a bicycle" which set fire to the seat on its first outing, to superbikes such as the Ducati 916, *Motorcycle: The Definitive Visual History* takes you on an enthralling tour of the bike's history. It shows you bikes that appeal to the head - practical forms of transport - and to the heart - a parade of classic pin-ups including cult machines such as the Honda RC30, the Triumph Bonneville, and the Harley-Davidson XR750. *Motorcycle: The Definitive Visual History* shows the brilliance and impracticality of different designs and features detailed cross-sections of engines such as the air-cooled two-stroke. It explains how the great marques such as the Royal Enfield, the "legendary" Indian Scout, Vespa, and Norton all became household names.

Mirabella had even booked a Netjets Excel, but unfortunately, their passenger never arrived. Leanna kindly asked one of her best friends working at the NSA to activate her access to the satellites. Using Echelon on another computer, she managed to jam the engine software on Veronica's chauffeured car. When the limo got closer to a truck in the opposite direction, she pushed the enter-key on her laptop. Within a second, the driver suffered a heart failure through an electrical discharge on the steering wheel; a wrong steering signal was sent to the servo-control as well as a brake jamming. The car jumped into the air, doing a barrel-roll and crashing on the other side of the A8, into the

approaching truck transporting liquid gas.
