Changing the Way We Do Church Thomas Nelson

A New York Times columnist and one of America's leading conservative thinkers considers Pope Francis's efforts to change the church he governs in a book that is "must reading for every Christian who cares about the fate of the West and the future of global Christianity" (Rod Dreher, author of *The Benedict Option*). Born Jorge Mario Bergoglio in 1936, today Pope Francis is the 266th pope of the Roman Catholic Church. Pope Francis's stewardship of the Church, while perceived as a revelation by many, has provoked division throughout the world. "If a conclave were to be held today," one Roman source told *The New Yorker*, "Francis would be lucky to get ten votes." In his "concise, rhetorically agile...adroit, perceptive, gripping account (*The New York Times Book Review*), Ross Douthat explains why the particular debate Francis has opened—over communion for the divorced and the remarried—is so dangerous: How it cuts to the heart of the larger argument over how Christianity should respond to the sexual revolution and modernity itself, how it promises or threatens to separate the church from its own deep past, and how it divides Catholicism along geographical and cultural lines. Douthat argues that the Francis era is a crucial experiment for all of Western civilization, which is facing resurgent external enemies (from ISIS to Putin) even as it struggles with its own internal divisions, its decadence, and self-doubt. Whether Francis or his critics

are right won't just determine whether he ends up as a hero or a tragic figure for Catholics. It will determine whether he's a hero, or a gambler who's betraying both his church and his civilization into the hands of its enemies. "A balanced look at the struggle for the future of Catholicism...To Change the Church is a fascinating look at the church under Pope Francis" (Kirkus Reviews). Engaging and provocative, this is "a pot-boiler of a history that examines a growing ecclesial crisis" (Washington Independent Review of Books).

Church After Gospel Light Publications

Churches of all types around the country are struggling. The more programs they try the more evident it becomes that there is no quick fix or secret formula to help them out of their rut. John Wesley, the founder of the Methodist Movement, once said, "The way to keep a Methodist alive is to keep him moving." It is time to recapture this simple yet profound truth and get back to the basics of making fully devoted followers of Jesus Christ. The authors developed and launched a highly successful pathway to discipleship in their church (Morning Star UMC, in St.Louis). Here, they show others how to create a successful discipleship pathway for their own particular contexts, based on the principles developed at Morning Star. Willard and Scheiner share the process of developing a discipleship pathway that meets individual people where they are. They provide examples of each element and practical instruction on how to plan, implement and sustain the discipleship pathway. The authors are teaching this material in conferences around the UM connection, from New Mexico to Missouri. They also share examples of how the pathway works in other churches. For small group study participants working through *Stride*, the *Stride Participant Book* (ISBN 9781501876257), a workbook designed to facilitate individual work on creating a discipleship pathway, is available to purchase separately.

To Change the Church CreateSpace

Changing The Way We Do Church is a book inspired by the recent decline and exodus which is taking place in the church. For whatever reason people do not attend church the way they use to. This has caused many challenges within the church, and some congregations are struggling to survive. There are many personal reasons why people do not attend church, but some of it has to do with the church itself. Worship is stale or failing to meet the people's spiritual needs. However, the tragedy is that many churches have not realized this drastic change, or they are ignoring what's taking place. Another issue is that everything is changing, but many churches are staying the same. If some churches do not wake up and make some necessary changes, they will continue to lose members and be forced to close its doors. Therefore, this book is a practical guide that will assist churches in why and how they should implement change so that the church can continue to be a fruitful congregation.

Now it has developed into a proof of concept that shows you how to raise up generations of young people in your church to build His kingdom. After over 20 years, this youth church, operated by youths, for youths to reach youths, still has an average age of 22. "I see a great struggle in the global churches in keeping the young people... At Heart of God Church, things are different. After ministering in the biggest churches and conferences all over the world, what I've witnessed at Heart of God Church is unlike anything I have experienced before. What Heart of God Church has wonderfully modelled for us all should not only be applauded and admired; it should also be reproduced everywhere." - JOHN BEVERE, International bestselling author The Bait of Satan, Co-Founder, Messenger International "On my most recent visit, one of my band was so wowed by the environment of the visual/video tech room - where he saw not just one operator at each station, but three... (This) was so impressive - there was one operator, one trainer and one trainee. These were people in their mid to high teens, some as young as 12 or 13...

Considering the amount of responsibility a video/visual team carries in a large service, and how much specialised technical skill there is to learn... he was amazed. There was a beautiful trust being placed in these young people... and ultimately it's the Jesus model of discipleship." - MATT REDMAN, Two-time Grammy Award winner, singer-songwriter and worship leader Bonus #1: Contributors and 'Inside Stories' Read 1,000+ word contributions from 13 other contributing writers that provide an 'inside look' and 360° view of HOGC.
