“Fundamentals might be the perfect book for the winter of this plague year. . . . Wilczek writes with breathtaking economy and clarity, and his pleasure in his subject is palpable.” —The New York Times Book Review One of our great contemporary scientists reveals the ten profound insights that illuminate what everyone should know about the physical world In Fundamentals, Nobel laureate Frank Wilczek offers the reader a simple yet profound exploration of reality based on the deep revelations of

modern science. With clarity and an infectious sense of joy, he guides us through the essential concepts that form our understanding of what the world is and how it works. Through these pages, we come to see our reality in a new way—bigger, fuller, and stranger than it looked before. Synthesizing basic questions, facts, and dazzling speculations, Wilczek investigates the ideas that form our understanding of the universe: time, space, matter, energy, complexity, and complementarity. He excavates the history of fundamental science, exploring what we know and how we know it, while journeying to the horizons of the scientific world to give us a glimpse of what we may soon discover. Brilliant, lucid, and accessible, this celebration of human ingenuity and imagination will expand your world and your mind.

Look out for the original series—starring Peyton List, Brent Rivera, Liana Liberato, Ajiona Alexis, and Dylan Sprayberry—now streaming on Hulu! Riverdale meets Final Destination in this fast-paced and deliciously creepy novel about an innocent game that turns deadly at a high school sleepover. It was supposed to be a game... Junior year is shaping up to be the best of McKenna Brady's life. After a transformative summer, McKenna is welcomed into the elite group of popular girls at Weeping Willow High, led by the gorgeous Olivia Richmond. For the first time in a long time, things are looking up. But everything changes the night of Olivia's Sweet Sixteen sleepover. Violet, the mysterious new girl in town, suggests the girls play a game during which Violet makes up elaborate, creepily specific stories about the violent ways the friends will die. Though it unsettles McKenna, it all seems harmless at the time. Until a week later, when Olivia

dies...exactly as Violet predicted. As Violet rises to popularity and steps into the life Olivia left unfinished, McKenna becomes convinced Olivia's death wasn't just a coincidence, especially when a ghost haunting her bedroom keeps leaving clues that point to Violet. With the help of her cute neighbor, Trey, McKenna pledges to get to the bottom of Violet's secrets and true intentions before it's too late. Because it's only a matter of time before more lives are lost.

The New York Times Bestseller and A Reese's Book Club Pick  
 "This love story between Lucy & Gabe spans decades and continents as two star-crossed lovers try to return to each other...Will they ever meet again? This book kept me up at night, turning the pages to find out, and the ending did not disappoint."—Reese Witherspoon  
 "One Day meets Me Before You meets your weekender bag."—The Skimm  
 "Extraordinary."—Emily Giffin  
 He was the first person to inspire her, to move her, to truly understand her. Was he meant to be the last? Lucy is faced with a life-altering choice. But before she can make her decision, she must start her story—their story—at the very beginning. Lucy and Gabe meet as seniors at Columbia University on a day that changes both of their lives forever. Together, they decide they want their lives to mean something, to matter. When they meet again a year later, it seems fated—perhaps they'll find life's meaning in each other. But then Gabe becomes a photojournalist assigned to the Middle East and Lucy pursues a career in New York. What follows is a thirteen-

year journey of dreams, desires, jealousies, betrayals, and, ultimately, of love. Was it fate that brought them together? Is it choice that has kept them away? Their journey takes Lucy and Gabe continents apart, but never out of each other's hearts. This devastatingly romantic debut novel about the enduring power of first love, with a shocking, unforgettable ending, is *Love Story* for a new generation. "It's the epic love story of 2017."—Redbook

*Warrior of the Light* Farrar, Straus and Giroux

A genre-defying page turner that fuses thriller and speculative fiction with dark fantasy in a hidden world in the heart of Cold War Europe. THE TRUE COLD WAR IS FOUGHT ON THE BORDERS OF THIS WORLD, AT THE EDGES OF THE LIGHT. It's 1965 and Christopher Winter is trying to carve a new life, a new identity, beyond his days in British Intelligence. Recruited by London's gangland he now finds himself on the wrong side of the law - and about to discover that the secret service has a way of claiming back its own. Who is the fatally alluring succubus working honeytraps for foreign paymasters? What is the true secret of the Shadowless, a fabled criminal cabal deadlier than the Mafia? And why do both parties covet long-buried caskets said to hold the hearts of kings? Winter must confront the buried knowledge of his own past to survive - but is he ready to embrace the magic that created the darkness waiting there?

*Bone Dance* Packt Publishing Ltd

In this short story prequel to *Pretending to Dance*, psychologist Graham Arnette longs to dance the way he used to, before illness stole his ability to walk. Graham lives on one hundred acres of

family land with his daughter Molly and his wife Nora-and with Amalia, a green-eyed beauty with whom Graham shares his hopes and fears. Six-year-old Molly is the light of Graham's life. As he and his extended family turn an old springhouse into a playhouse for her, long buried hostilities emerge that lead to anger and resentment. . . and, ultimately, to the healing power of family love.

**Bush Warfare** Penguin

In this new edition of a modern classic, Thomas Howard contrasts the Christian and secular worldviews, refreshing our minds with the illuminated vision of reality that inspired the world in times past and showing us that we cannot live meaningful lives without it. Howard explains in clear and beautiful prose the way materialism robs us of beauty, depth, and truth. With laser precision and lyrical ponderings he takes us through the dismal reductionist view of the world to the shimmering significance of the world as sign and sacrament. More timely now than when it was first written, this book is a prophetic examination of modern society's conscience.

**Dancing with Qubits** DigiCat

Through his prolific and highly regarded writings, Thomas Howard's name is familiar to Protestants and Catholics alike. With grace, charm, and wit, Dr. Howard describes his journey from Evangelicalism to Anglicanism, and finally, to the Church of Rome. In a world saturated with fashionable unbelief, Howard's testimony inspires and informs. This is the personal story of a man's search for spiritual fulfillment that includes a detailed explanation of the factors that led him to his ultimate destination. It is a testimony to the difficulty faced by a life-long, well-known

Protestant in taking that final step across the threshold to Catholicism. Howard clearly explains the challenges of learning and accepting some doctrines that were completely new to him, and the reactions one might face from friends and family.

Romy and Michelle's High School Reunion meets Night of the Living Dead in this laugh-out-loud debut YA novel by Emmy Award-nominated TV writer E. Van Lowe Principal Taft's 3 Simple Rules for Surviving a Zombie Uprising: Rule #1: While in the halls, walk slowly and wear a vacant expression on your face. Zombies won't attack other zombies. Rule #2: Never travel alone. Move in packs. Follow the crowd. Zombies detest blatant displays of individuality. Rule #3: If a zombie should attack, do not run. Instead, throw raw steak at to him. Zombies love raw meat. This display of kindness will go a long way. On the night of her middle school graduation, Margot Jean Johnson wrote a high school manifesto detailing her goals for what she was sure would be a most excellent high school career. She and her best friend, Sybil, would be popular and, most important, have boyfriends. Three years later, they haven't accomplished a thing! Then Margot and Sybil arrive at school one day to find that most of the student body has been turned into flesh-eating zombies. When kooky Principal Taft asks the girls to coexist with the zombies until the end of the semester, they realize that this is the perfect opportunity to live out their high school dreams. All they have to do is stay alive.... "An unabashedly silly send-up of paranormal romance novels." - Strange Horizons At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

#### **Light in August** Simon and Schuster

The sequel to London Shah's thrilling futuristic mystery *The Light at the Bottom of the World*, perfect for fans of *Illuminae* and *These Broken Stars* Leyla McQueen has finally reunited with her father after breaking him out of Broadmoor, the illegal government prison—but his freedom comes at a terrible cost. As Leyla celebrates his return, she must grapple with the pain of losing Ari. Now separated from the boy who has her heart and labeled the nation's number one enemy, Leyla must risk illegal travel through uncharted waters in her quest for the truth behind her father's arrest. Across Britain, the fallout from Leyla's actions has escalated tensions between Anthropoid and non-Anthropoid communities, bringing them to an all-time high. And, as Leyla and her friends fight to uncover the startling truths about their world, she discovers her own shocking past—and the horrifying secrets behind her father's abduction and arrest. But as these long-buried truths finally begin to surface, so, too, do the authorities' terrible future plans. And if the ever-pervasive fear prevents the people from taking a stand now, the abyss could stay in the dark forever.

#### **Dance Upon the Air** Ignatius Press

Back in print, *Bone Dance* is a classic techno-fantasy from Emma Bull, author of the bestselling *Territory Sparrow's my name*. Trader. Deal-maker. Hustler, some call me. I work the Night Fair circuit, buying and selling pre-nuke videos from the world before. I know how to get a high price, especially on Big Bang collectibles. But the hottest ticket of all is information on the Horsemen—the mind-control weapons that tilted the balance in the war between the Americas. That's the prize I'm after. But it

seems I'm having trouble controlling my own mind. The Horsemen are coming.

*Quantum Chance* Penguin

Earth is long since dead. On a colony planet, a band of men has gained control of technology, made themselves immortal, and now rules their world as the gods of the Hindu pantheon. Only one dares oppose them: he who was once Siddhartha and is now Mahasamatman. Binder of Demons. Lord of Light.

### **LIGHT AS A FEATHER**

Grand Central Publishing

\*NOW A NETFLIX LIMITED SERIES—from producer and director Shawn Levy (*Stranger Things*) starring Mark Ruffalo, Hugh Laurie, and newcomer Aria Mia Loberti\* Winner of the Pulitzer Prize and National Book Award finalist, the beloved instant New York Times bestseller and New York Times Book Review Top 10 Book about a blind French girl and a German boy whose paths collide in occupied France as both try to survive the devastation of World War II. Marie-Laure lives with her father in Paris near the Museum of Natural History where he works as the master of its thousands of locks. When she is six, Marie-Laure goes blind and her father builds a perfect miniature of their neighborhood so she can memorize it by touch and navigate her way home. When she is twelve, the Nazis occupy Paris, and father and daughter flee to the walled citadel of Saint-Malo, where Marie-Laure's reclusive great uncle lives in a tall house by the sea. With them they carry what might be the museum's most valuable and dangerous jewel. In a mining town in Germany, the orphan Werner grows up with his younger sister, enchanted by a crude radio they find. Werner

becomes an expert at building and fixing these crucial new instruments, a talent that wins him a place at a brutal academy for Hitler Youth, then a special assignment to track the Resistance. More and more aware of the human cost of his intelligence, Werner travels through the heart of the war and, finally, into Saint-Malo, where his story and Marie-Laure's converge. Doerr's "stunning sense of physical detail and gorgeous metaphors" (*San Francisco Chronicle*) are dazzling. Deftly interweaving the lives of Marie-Laure and Werner, he illuminates the ways, against all odds, people try to be good to one another. Ten years in the writing, *All the Light We Cannot See* is a magnificent, deeply moving novel from a writer "whose sentences never fail to thrill" (*Los Angeles Times*).

*The Light in the Piazza* Bantam

Quantum physics, which offers an explanation of the world on the smallest scale, has fundamental implications that pose a serious challenge to ordinary logic. Particularly counterintuitive is the notion of entanglement, which has been explored for the past 30 years and posits an ubiquitous randomness capable of manifesting itself simultaneously in more than one place. This amazing 'non-locality' is more than just an abstract curiosity or paradox: it has entirely down-to-earth applications in cryptography, serving for example to protect financial information; it also has enabled the demonstration of 'quantum teleportation', whose infinite possibilities even science-fiction writers can scarcely imagine. This delightful and concise exposition does not avoid the deep logical difficulties of quantum physics, but gives the reader the insights needed to appreciate them. From 'Bell's Theorem' to experiments in quantum

entanglement, the reader will gain a solid understanding of one of the most fascinating areas of contemporary physics.

### **Never Slow Dance With a Zombie** HarperCollins

For years Grant Kessler has smuggled goods from one end of the world to the next. When business turns in a direction Grant isn't willing to follow he decides to retire and by all appearances he settles down in a nowhere town called Durstrand. But his real plan is to wait a few years and let the FBI lose interest, then move on to the distant coastal life he's always dreamed of. Severely autistic, Morgan cannot look people in the eye, tell left from right, and has uncontrolled tics. Yet he's beaten every obstacle life has thrown his way. And when Grant Kessler moves into town Morgan isn't a bit shy in letting the man know how much he wants him. While the attraction is mutual, Grant pushes Morgan away. Like the rest of the world he can't see past Morgan's odd behaviors Then Morgan shows Grant how light lets you see but it also leaves you blind. And once Grant opens his eyes, he loses his heart to the beautiful enigma of a man who changes the course of his life.

Ballantine Books

THE INSTANT NEW YORK TIMES BESTSELLER! Also on the USA Today, Washington Post, Boston Globe, Globe and Mail, Publishers Weekly, and Indie bestseller lists. One of the most important stories of World War II, already optioned by Steven Spielberg for a major motion picture: a spectacular, searing history that brings to light the extraordinary accomplishments of brave Jewish women who became resistance fighters—a group of

unknown heroes whose exploits have never been chronicled in full, until now. Witnesses to the brutal murder of their families and neighbors and the violent destruction of their communities, a cadre of Jewish women in Poland—some still in their teens—helped transform the Jewish youth groups into resistance cells to fight the Nazis. With courage, guile, and nerves of steel, these “ghetto girls” paid off Gestapo guards, hid revolvers in loaves of bread and jars of marmalade, and helped build systems of underground bunkers. They flirted with German soldiers, bribed them with wine, whiskey, and home cooking, used their Aryan looks to seduce them, and shot and killed them. They bombed German train lines and blew up a town's water supply. They also nursed the sick, taught children, and hid families. Yet the exploits of these courageous resistance fighters have remained virtually unknown. As propulsive and thrilling as *Hidden Figures*, *In the Garden of Beasts*, and *Band of Brothers*, *The Light of Days* at last tells the true story of these incredible women whose courageous yet little-known feats have been eclipsed by time. *Judy Batalion*—the granddaughter of Polish Holocaust survivors—takes us back to 1939 and introduces us to Renia Kukielka, a weapons smuggler and messenger who risked death traveling across occupied Poland on foot and by train. Joining Renia are other women who served as couriers, armed fighters, intelligence agents, and saboteurs, all who put their lives in mortal danger to carry out their missions. *Batalion* follows these women through the savage destruction of the ghettos, arrest and internment in Gestapo prisons and concentration camps, and for a lucky few—like Renia, who orchestrated her own audacious escape from a brutal Nazi jail—into the late 20th century and

beyond. Powerful and inspiring, featuring twenty black-and-white photographs, *The Light of Days* is an unforgettable true tale of war, the fight for freedom, exceptional bravery, female friendship, and survival in the face of staggering odds. Einstein's steadfast refusal to accept certain aspects of quantum theory was rooted in his insistence that physics has to be about reality. Accordingly, he once derided as "spooky action at a

distance" the notion that two elementary particles far removed from each other could nonetheless influence each other's properties—a hypothetical phenomenon his fellow theorist Erwin Schrödinger termed "quantum entanglement." In a series of ingenious experiments conducted in various locations—from a dank sewage tunnel under the Danube River to the balmy air between a pair of mountain peaks in the Canary Islands—the author and his colleagues have demonstrated the reality of such entanglement using photons, or light quanta, created by laser beams. In principle the lessons learned may be applicable in other areas, including the eventual development of quantum computers.
