Rich Dad's Before You Quit Your Job Grand Central Publishing  
Don't get mad, get even... Phil Town's first book, the #1 New York

Times bestseller Rule #1, was a guide to stock trading for people who believe they lack the knowledge to trade. But because many people aren't ready to go from mutual funds directly into trading without understanding investing—for the long term - he created

Payback Time. Too often, people see long-term investing as “mutual fund contributing” – otherwise known as “long-term hoping.” But the sad truth is that mutual fund investors are, to a stunning degree, pinning their hopes on an institution that is hopeless. It turns out that only 4% of fund managers consistently beat the S&P 500 index over the long term, which means that 96% of fund investors see a smaller return on their nest egg than a chimpanzee who simply buys stocks in the 500 biggest companies in America and watches what happens. But it’s worse than that. The net effect of hitching your wagon to mutual funds is that over a lifetime they’ll fritter away as much 60% of your nest egg in fees. Once you understand how funds engineer this, you’ll rush to invest on your own. Payback Time’s risk-free approach is called “stockpiling” and it’s how billionaires get rich in bad markets. It’s a set of rules for investing (not trading but investing) in the right businesses at the right time -- rules that will ensure you make the big money.

We are called to be architects of the future, not its victims." - R. BUCKMINSTER FULLER In *Infinite Returns*, Robert--with Kim and

their top-notch team of Advisors--delves into how the economic and social climate of 2020 has set the stage for a decade of unprecedented challenges as well as opportunities. He draws on his study of Bucky Fuller for vision and guidance as well as noted economists in comparing and contrasting economic theories, and looks to the future, the decade ahead, through the lens of 'cosmic accounting.' Kiyosaki uses lessons from the past to envision the future and peppers that vision with doses of today's reality... while never losing sight of the power of optimism and the individual's power to affect change--in themselves and in our world. The book includes chapters from Kim, the Rich Dad Advisors, and the Rich Dad business team who offer insights on how to achieve infinite returns: Ken McElroy, Blair Singer, Garrett Sutton, Andy Tanner, Tom Wheelwright, Josh and Lisa Lannon, John MacGregor, Mona Gambetta, and Doctors Radha Gopalan and Nicole Srednicki.

Many people have million-dollar ideas. They're confident that their new product or service or innovation will make them rich and that all their dreams will come true. The problem is: Most people don't know how to turn their million-dollar idea into millions of dollars. According to many social scientists, the most important thing in life is a person's social and professional network. In other words, the people around us--our associates,

our team, our friends. The people we surround ourselves with-- and the people we go to for advice and guidance--can mean the difference between success and failure. And as he taught in Rich Dad Poor Dad, if the people around you have a poor person's mindset, it's likely that you'll be, or stay, poor. Your team, in life and in business, will determine if your million-dollar idea will give you a million-dollar payday. In *More Important Than Money*, Robert teams up with his most trusted Advisors who contribute not only chapters on the strengths and talents they bring to the team, but offer candid and insightful individual Profiles and excerpts from each of the 14 Rich Dad Advisor Series books. Readers will meet all of Robert's Rich Dad Advisors and learn why they are among his most valuable assets.
