First we will look at
outlining a program
using pseudocode.
Pseudocode is a
language very close to
English that allows us
to represent a program
concisely. The only
thing you need is a
statement to show
where you are starting

and where you are
ending a program.3
Pseudocode,
Flowcharts and Python
- GoadrichTo design an
algorithm you can
draw a flowchart or
write pseudo-code.
Your algorithm
(flowchart or pseudo-
code) can then be
converted by a
programmer using the
programming language
of their choice (e.g.
Python, Java, Visual
Basic, etc.) Coding
Challenges We have
designed five
algorithms (See
