Develop an entrepreneurial culture with
the best practices discussed inside this
resource. Declining public resources,
coupled with the demand that we do more
with less, make it more of an imperative
that entrepreneurship, flexibility, and
adaptability thrive in the community
college environment. Seeing how other
community colleges have brought

entrepreneurship and creativity to life in
their programs and services will inspire
your own ideas for increasing revenue and
reducing costs. You will also discover how
strong leaders can become collaborators,

A must have for every combination fire department leader! Leading a combination fire department is one of the greatest challenges a fire chief can face. To successfully lead this type of organization, fire chiefs must recognize the unique difficulties inherent in combination systems, and overcome them by applying lessons learned from other chiefs who have faced similar challenges. Authored by a team of seasoned fire service leaders,

and modeled after the Chief Fire Officer's Desk Reference, A Leadership Guide for Combination Fire Departments is a compilation of the best practices and lessons learned through experience. It is designed to provide chief- and officer-level personnel with the tools necessary to lead today's combination service department. *Parkway West and Westgreen Proposed Subdivisions, Harris County* Lulu.com

"No Dog Should Die Alone" was the attention-grabbing — and heart-stirring — headline of journalist Laura T. Coffey's TODAY show website story about photographer Lori Fusaro's work with senior shelter pets. While generally calm, easy, and already house-trained, these animals often represent the highest-risk population at shelters. With gorgeous, joyful photographs and sweet, funny, true

tales of "old dogs learning new tricks," Coffey and Fusaro show that adopting a senior can be even more rewarding than choosing a younger dog. You'll meet endearing elders like Marnie, the irresistible shih tzu who has posed for selfies with Tina Fey, James Franco, and Betty White; Remy, a soulful nine-year-old dog adopted by elderly nuns; George Clooney's cocker spaniel, Einstein; and Bretagne, the last known surviving search dog from Ground Zero. They may be slower moving and a tad less exuberant than puppies, but these pooches prove that adopting a senior brings immeasurable joy, earnest devotion, and unconditional love.

 A leader in the fields of animal ethics and neurology, Dr. Aysha Akhtar examines the rich human-animal connection and how interspecies empathy enriches our well-being. Deftly combining medicine, social history and personal experience, *Our Symphony with Animals* is the first book by a physician to show that humans and animals have a shared destiny—our well-being is deeply entwined. Dr. Akhtar reveals how empathy for animals is the next step in our species’ moral evolution and a vital component of human health. When we include animals in our circle of empathy, we not only liberate animals, we also liberate ourselves. Drawing on the accounts of a varied cast of characters—a former mobster, a pediatrician, an industrial chicken farmer, a serial killer, and a deer hunter—to reveal what happens when we both break and forge bonds with animals. *Interwoven* is Dr. Akhtar’s own story, an immigrant who was bullied in school and abused by her uncle. Feeling abandoned by humanity, it was

only when she met Sylvester, a dog who had also been abused, that she find the strength to sound the alarm for them both. Humans are neurologically designed to empathize with animals. Violence against animals goes against our nature. In equal measure, the love we give to animals biologically reverberates back to us. Our Symphony with Animals is the definitive

account for why our relationships with animals matter.
