THE SUNDAY TIMES NUMBER-ONE BESTSELLER. Michael Dunlop is quite simply the greatest road racer on the planet. Brother of William, also an accomplished rider, son of the late Robert and nephew of the late great Joey Dunlop, Michael can fairly claim that racing is in his blood. Now for the first time he talks in depth about his family story, how he got involved in the family business and how he manages to keep getting back on his bike despite all he knows of the deadly risks he encounters every time he crosses the start line. The death of his uncle during a competition in Estonia in 2000 was followed just eight years later by the death of his father at the North West 200. But despite these tragic losses Michael was undeterred and, two days after his father's death, he returned to the North West, and won. The next year Michael won his first TT, joining both his father and uncle in the record books. Now with thirteen TT wins to his name Michael is a phenomenal competitor, and in this sensational autobiography he reveals the highs and lows of racing, what it was like growing up part of a motorcycle dynasty and how that made him the incredible racing driver he is today.

As Toyota skids into an ocean of problems and uncertainty continues in the U.S. automotive industry, Lemon-Aid Used Cars and Trucks 2011/2012 shows buyers how to pick the cheapest and most reliable vehicles from the past 30 years. Lemon-Aid guides are unlike any other car and truck books on the market. Phil Edmonston, Canada's automotive Dr. Phil for 40 years, pulls no punches. Like five books in one, Lemon-Aid Used Cars and Trucks is an exposé of car scams and gas consumption lies; a do-it-yourself service manual; an independent guide that covers beaters, lemons, and collectibles; an archive of secret service bulletins granting free repairs; and a legal primer that even lawyers can't beat! Phil delivers the goods on free fixes for Chrysler, Ford, and GM engine, transmission, brake, and paint defects; lets you know about Corvette and Mustang tops that fly off; gives the lowdown on Honda, Hyundai, and Toyota engines and transmissions; and provides the latest information on computer module glitches.

Automotive News Michael O'Mara Books " Few authorities in the hobby could be counted on to provide this much entertainment in a single volume. Discover Kevin Mackay's stories of finding and restoring valuable Corvettes, including the 1960 Briggs Cunningham Le Mans racer that took first in class, Steve McQueen's 1966 Corvette, the 1967 Bounty Hunter racer, the 1968 Sunray DX #2 and #3, and chassis #003 from 1953. It's hard to imagine that a car with the racing pedigree of the Rebel

Corvette could be neglected to the point of it being lost. Winning the GT class at the 1972 12 Hours of Sebring wasn't enough to keep this car from becoming just another old wreck out behind the shed. It was many years before Kevin Mackay came to rescue this prominent machine. If you like L88 Corvettes, no one has bought and restored more of them than Kevin Mackay! Finding, documenting, restoring, and selling rare and valuable Corvettes is one of Mackay's specialties. His business, Corvette Repair Inc., is considered the premier Corvette restoration facility in the country. "
