Hey there! This is Cecilia Anne Celia Stanhope and my life is about to get really exciting! My buddy, Regina Goldie OBrien, and I are about to find us some treasure! I know youre laughing at that idea, but this is where it gets really interesting. Goldie and I met a couple of guys, Mark and Nick, who have in their possession a sword hilt from the S.M.S. Cormorana German shipwreck that dates to World War One. Mark found the beautiful brass hilt while metal detecting on the beach on Rota, an island just north of Guam in the Marianna Island chain. The thing is the Cormoran is located in Guams Apra Harbor. Did a typhoon wash treasure from Guam to Rota? Seems unlikely. Mark and I put two plus two together and discover that there are two ships named Cormoran. The one were after was filled with treasure and spirited

away from Germany before the end of the war. Welcome to the island of Rota. Were at a place called the Devils Jawthe final resting place of The Wreck.

A memoir from the Emmy-winning Saturday Night Live writer that is “funny, spiky, and twistedly entertaining” (Entertainment Weekly). *39 Years of Short-Term Memory Loss* is a seriously funny and irreverent memoir that gives an insider’s view of the birth and rise of Saturday Night Live, and features laugh-out-loud stories about some of its greatest personalities—Al Franken, Lorne Michaels, Dan Aykroyd, John Belushi, Bill Murray, Michael O’Donoghue, and Chris Farley. Tom Davis’s voice is rich with irony and understatement as he tells tales of discovery, triumph, and loss with relentless humor. His memoir describes not only his experiences on the set of SNL but also his suburban childhood, his high school escapades in the sixties, his discovery of sex, and how he

reveled in the hippie culture—and psychoactive drugs—from San Francisco to Kathmandu to Burning Man over the last four decades. Hysterical, lucid, and wise, *39 Years of Short-Term Memory Loss* is an unforgettable romp in an era of sex, drugs, and comedy. “Though it features some lurid and hysterical SNL stories, Davis’s memoir is less a backstage expose than a winning coming-of-age story featuring a funny Midwestern kid following his unlikely dream to the top.” —Publishers Weekly, starred review

 Danny O Donoghue is loved by millions around the world as the front man of The Script, but success did not come quickly for the Dubliner it took years of grafting to hit the big time Youngest of a musical family, Danny was born to be a rock star. With no interest in education, his long path to stardom began after a chance meeting with would-be guitar hero Mark Sheehan. Little did the two youngsters know that they would ultimately find fame together as one of Ireland’s most successful bands. But Danny would spent a decade in musical

purgatory in the US, stealing bags of ice just to fill his bath and making tea in recording studios for the likes of Justin Timberlake and Britney Spears. With years of learning from the best, he knew the recipe for success. The Script exploded onto the scene in style, with hit singles turning them into worldwide stars. With Paul McCartney, Take That, and U2 all clamoring for their support, they were soon headlining arenas themselves. And in 2012, Danny’s career reached new heights as a judge on hit show “The Voice.” His journey from tea boy to TV star, music hero, and household name was complete. In this first-ever biography of the star, David O Dornan reveals the amazing highs and lows of Danny’s personal and professional life, and speaks to music industry experts and artists to find out more about the man behind the music that is adored by so many. This is a must-read book for any fan or, as Danny likes to call them, “The Script Family.”

 Mabo : Life of an Island Man is the story of a small island and an

extraordinary man. Eddie Koiki Mabo was born on Murray Island in the Torres Strait, but lived most of his life in exile. Only after his death did the island wholeheartedly welcome him home. By then the island and Eddie, between them, had changed the legal and political landscape of Australia. On June 3rd 1992, six months after Eddie Mabo's tragic death, the High Court of Australia upheld his claim that Murray Islanders held "native title" to three islands on the eastern fringe of the Torres Strait. Aboriginal and Islander communities across Australia greeted the Mabo judgement with jubilation. The legal fiction that Australia was an empty land when first occupied by white people had been laid to rest - by the highest court in the land. After more than 200 years of struggle, European law was at last coming to grips with pre-existing indigenous law. But the world knows little of Eddie Mabo, the man who gave his name - and much of his life - to a legal judgement that continues to reverberate throughout Australia. Filmmaker Trevor Graham counted Eddie as a friend during the last few years of

Mabo's life. Land Bilong Islanders, his 1989 documentary, would become the only film record of the Mabo proceedings. Now he has made a new film, a feature documentary about the little-known life of Eddie Mabo. It tells the private and public stories of an island man so passionate about family and home that he fought an entire nation and its legal system. Though he died before his greatest victory was won, it has forever ensured his place - on Murray Island and in Australian history. A disarming novel that asks a simple question: Can gentle people change the world? In this charming and truly unique debut, popular Irish musician Ronan Hession tells the story of two single, thirty-something men who still live with their parents and who are . . . nice. They take care of their parents and play board games together. They like to read. They take satisfaction from their work. They are resolutely kind. And they realize that none of this is considered . . . normal.

Leonard and Hungry Paul is the story of two friends struggling to protect their understanding of what's meaningful in life. It is about the uncelebrated people of this world — the gentle, the meek, the humble. And as they struggle to persevere, the book asks a surprisingly enthralling question: Is it really them against the world, or are they on to something?

Erykah Badu stands at the forefront of a whole new genre of music. Before

Macy Gray, Alicia Keys and Angie Stone, Erykah was bringing the unique sounds of neo-soul - the classic vibes of Motown and Stax smoothed by Jazz and toughened by Hip-Hop - to the people. quite simply, there is no other artist like her. Joel McIver's biography is a detailed and enlightening look at one of the world's great performers, accompanied with photographs, which forms a typically insightful appreciation of her magnificent music.

Here is the story of the outrageous talent and the fatal addictions of brilliant comedian, actor and star John Belushi. Told by Bob Woodward, the author of *Veil*, *Wired* was an acclaimed hardcover, and its mass market debut ties in to the upcoming movie release!

Prior to his death in 1993, Vincent Price was collaborating with Mr. Joel Eisner (author of the over 100,000 copy bestselling *Official Batman Batbook* concerning the '60's Adam West Batman television series) to construct a definitive, official biography of his

life and career in films.

This is that book.

Sanctioned by the Vincent Price Estate and daughter Victoria, *THE PRICE OF FEAR* is not only told through journalist Eisner's personal interviews with Price himself but with the cooperation, direct interviews and quotes from many of those with whom Price worked with throughout his illustrious career. Before he passed away, all Vincent saw of this book was his fellow actor Peter Cushing's heartfelt foreward.

Introducing the true story of a man born within a moderately wealthy family of candy manufacturers in 1911 St. Louis, Missouri, whose interest in theatre during the Great Depression led him into eventually becoming, arguably, the most universally iconic personification of the horror genre in the entire encompassment of the 20th Century. That man was Vincent Leonard Price, Jr. What you now hold in your hands is the only authorized, official biography about Vincent Price's entire life in films ever published in history with his direct participation and approval, in his own words. Never before has the story of Vincent's life

been told, how he rose from dramatic theatre and stage to joining the ranks of the early cultured Hollywood elite fresh from where motion pictures were first spawned to eventually spend his life behind horrifying makeup and horror genre movie roles at the sacrifice of a greater passion for fine art and comedy. For nearly a century, we've known the name. We've heard the voice. We've seen the many faces. At last, with *The Price of Fear: The Film Career of Vincent Price*, in *His Own Words*, we can know the man, directly from the legend himself, in this never-before-published highly entertaining and inspirational masterpiece. *Ten Years of Irish Publishing* Bobcat Books

In the spring of 1987, Ed Underwood is happy with his life: he has a good job as personnel manager at a successful jewelry company, a loving girlfriend, and in his spare time pursues his passion for karate. Then one day Henry Cohen, the company president, summons him to his office. Cohen has received an anonymous note, both cryptic and threatening, and he asks Ed to call on his psychology training to interpret it. Unsure what

the note means, Ed also doesn't realize that its arrival is about to upend the security of his life. At the same time, experienced homicide detective Mike Langan is struggling to solve a murder which appears to be a mugging gone bad, but with no clues to the killer. Soon, he encounters another death which is equally inexplicable, and with nothing to indicate the two crimes are actually related. As Detective Langan searches for leads, crime reporter Stan Osciewicz begins covering the cases, hoping for the big story that could be his ticket to a Pulitzer Prize. Soon all three will be drawn together, grappling with circumstances that they never imagined possible, while a diabolical killer continues his plans for revenge....

Barney McKenna, 'Banjo Barney from Donnycarney', was one of the founder members of the Dubliners. But he was also famous for another reason: he was capable of bringing any conversation to a sudden stop by uttering something so completely unexpected as to reduce everyone present to bemused silence. *An Obstacle Confusion* is a collection of stories about Barney and his 'Barneyisms'. It was compiled by the late

Jim McCann, a former member of the Dubliners, and illustrated by Wendy Shea, a long-time friend of Barney. These wonderful flights of fancy are must-reads for Dubliners fans, young and old. \* The Dubliners were travelling through a wine-growing region in southern Germany and had stopped at a scenic restaurant with a wonderful view over the vine-covered hills and valleys. They stood outside, gazing at the breathtaking, sun-dappled panorama, an occasional medieval castle peeking through the mist-shrouded trees, and basked in the beauty of the idyllic scene. Barney eventually broke the reverential silence. "Jaysus," he said, "there's a fair few hangovers growin' up there." *The Secret Keeper* Melville House NEW YORK TIMES BESTSELLER • In these hilarious essays, the Saturday Night Live head writer and Weekend Update co-anchor learns how to take a beating. "I always wanted to punch his face before I read this book. Now I just want to kick him in the balls."—Larry David NAMED ONE OF THE BEST BOOKS OF THE YEAR BY

Cosmopolitan • Vulture • Parade If there's one trait that makes someone well suited to comedy, it's being able to take a punch—metaphorically and, occasionally, physically. From growing up in a family of firefighters on Staten Island to commuting three hours a day to high school and "seeing the sights" (like watching a Russian woman throw a stroller off the back of a ferry), to attending Harvard while Facebook was created, Jost shares how he has navigated the world like a slightly smarter Forrest Gump. You'll also discover things about Jost that will surprise and confuse you, like how Jimmy Buffett saved his life, how Czech teenagers attacked him with potato salad, how an insect laid eggs inside his legs, and how he competed in a twenty-five-man match at WrestleMania (and almost won). You'll go behind the scenes at SNL and Weekend Update (where he's written some of the most memorable sketches and jokes of the past fifteen years). And you'll experience the life of a touring stand-up comedian—from performing in rural college cafeterias at noon to opening for Dave

Chappelle at Radio City Music Hall. For every accomplishment (hosting the Emmys), there is a setback (hosting the Emmys). And for every absurd moment (watching paramedics give CPR to a raccoon), there is an honest, emotional one (recounting his mother's experience on the scene of the Twin Towers' collapse on 9/11). Told with a healthy dose of self-deprecation, *A Very Punchable Face* reveals the brilliant mind behind some of the dumbest sketches on television, and lays bare the heart and humor of a hardworking guy—with a face you can't help but want to punch. [Erykah Badu: The First Lady of Neo-Soul](#) Random House From the author of the bestselling *Danny Black* series and hit TV show *Strikeback*. Former SAS legend Chris Ryan brings you his sixteenth novel and it is full of all his trademark action, thrills and inside knowledge. 2003. Invalided out of the SAS Chet Freeman makes his living in high-end security, on a temporary contract for an American corporation called the Grosvenor Group. He catches a young woman, a peace campaigner,

eavesdropping on a meeting the Group is holding with the British Prime Minister. The Group's interests include arms manufacture, and what Chet and the young woman overhear seems to imply that it is bribing the Prime Minister to take his country into an illegal war. Could this possibly be true? Somebody believes that this is a secret that needs covering up, because Chet and the girl are attacked. Hunted down, they go into hiding, and a deadly game of cat and mouse begins. Nearly ten years later tension is reaching breaking point in Jerusalem. The now ex-Prime Minister is working as a Middle East peace envoy. As the city descends into anarchy and rival armies are poised to turn it into a battlefield, Chet's best buddy, Luke, is part of a team tasked by the Regiment with extracting the ex-Prime Minister. At the height of the battle Luke discovers a

conspiracy far more devastating than any arms deal. *Saturday Night Black Bed Sheet Books* From the author of *Bellefleur: A "psychologically incisive" glimpse into the mind of a deranged predator and the boy he abducts to be his son (Booklist)*. Robbie Whitcomb is five years old when he's taken from his mother in a mall parking lot. In her attempt to chase the kidnapper, she's left badly injured and permanently disfigured. Such are the methods of the man who calls himself Daddy Love—a man known to the rest of the world as charismatic preacher Chester Cash. For the next six years, Robbie is to be Daddy's son. That means doing whatever Daddy says—and giving him whatever he wants. Soon Robbie learns to accept his new name, Gideon. He also learns that he is not the first of Daddy Love's sons. And
