NEW YORK TIMES BESTSELLER • This instant classic explores how we can change our lives by changing our habits. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Wall Street Journal • Financial Times In The Power of Habit, award-winning business reporter Charles Duhigg takes us to the thrilling edge of scientific discoveries that explain why habits exist and how they can be changed. Distilling vast amounts of information into engrossing narratives that take us from the boardrooms of Procter & Gamble to the sidelines of the NFL to the front lines of the civil rights movement, Duhigg presents a whole new understanding of

human nature and its potential. At its core, The Power of Habit contains an exhilarating argument: The key to exercising regularly, losing weight, being more productive, and achieving success is understanding how habits work. As Duhigg shows, by harnessing this new science, we can transform our businesses, our communities, and our lives. With a new Afterword by the author "Sharp, provocative, and useful."—Jim Collins "Few [books] become essential manuals for business and living. The Power of Habit is an exception. Charles Duhigg not only explains how habits are formed but how to kick bad ones and hang on to the good."—Financial Times "A flat-out great read."—David Allen, bestselling author of Getting Things Done: The Art of Stress-Free Productivity "You'll never look at yourself, your organization, or your world quite the same way."—Daniel H. Pink,

bestselling author of *Drive* and *A Whole New Mind* “Entertaining . . . enjoyable . . . fascinating . . . a serious look at the science of habit formation and change.”—The New York Times Book Review

Wall Street Journal bestseller “A welcome revelation.” --The Financial Times Award-winning Wharton Professor and Choiceology podcast host Katy Milkman has devoted her career to the study of behavior change. In this ground-breaking book, Milkman reveals a proven path that can take you from where you are to where you want to be, with a foreword from psychologist Angela Duckworth, the best-selling author of *Grit*. Change comes most readily when you understand what's standing between you and success and tailor your solution to that roadblock. If you want to work out more but find exercise difficult and boring, downloading a goal-setting app probably won't help. But what if, instead, you transformed your workouts so they became a source of pleasure instead of a chore? Turning an uphill battle into a downhill one is the key to success. Drawing on Milkman's original research and the work of her world-

renowned scientific collaborators, *How to Change* shares strategic methods for identifying and overcoming common barriers to change, such as impulsivity, procrastination, and forgetfulness. Through case studies and engaging stories, you'll learn: • Why timing can be everything when it comes to making a change • How to turn temptation and inertia into assets • That giving advice, even if it's about something you're struggling with, can help you achieve more Whether you're a manager, coach, or teacher aiming to help others change for the better or are struggling to kick-start change yourself, *How to Change* offers an invaluable, science-based blueprint for achieving your goals, once and for all. *10 Steps to Change Your Life A Step-By-Step Guide* Savio Republic

In *Stop Sabotaging Your Life: 3 Steps To Your Full Potential*, acclaimed life coach Bruno LoGreco shares his simple path to achieving healthy mental and emotional independence. How many times have you caught yourself thinking something like this?: I'm not enough—good enough...smart enough...good looking enough...successful enough.... LoGreco says we sabotage our lives by focusing too much on being what others want us to be and do, and not spending enough time listening to our own hearts and minds. Some people try to find self-acceptance and contentment through counseling, but end up trapped on the therapy treadmill. Others try to go it alone, but still end up in a tiresome process of navel-gazing that never leads to personal fulfillment. LoGreco offers a three-step plan to help you reach your own potential: self-awareness (recognize what you have been doing, and why); rebuilding values (learn a different way to do things); and reach your full potential (identify opportunities and set meaningful goals). You will learn to leverage your strengths to stop chasing illusions and work toward achieving your dreams. LoGreco doesn't claim his book will cure everything that ails you. As he says, “There is no secret formula, no magic pill that will make you happy, productive, and successful. You must challenge your beliefs and take back control of your choices. Don't just think outside the box—break out of it altogether.” What clients and readers are saying about life coach, mentor, and motivational speaker Bruno LoGreco: “As a divorced mother of three, I've encountered many obstacles, mostly personal ones within myself. I wondered why I kept repeating the same patterns with the men I was dating and why it always ended badly, usually with me being hurt, and

questioned what 'I' was doing wrong. Bruno taught me how to love myself again, how to respect myself and above all else, BELIEVE in myself.... Bruno saved me from my self-destructive patterns. Without his help, I wouldn't be the confident woman I am today. I am a better mother for that."—Cristina "The world is filled with very successful executives who for decades focus every waking minute on professional accolades and professional development [only to] realize they haven't take the time out to focus on personal development in terms of a better balance in life, being in touch with their spiritual side and inner self, and even the fun side of life. That would describe me in the past.... I came across Bruno, and I knew he was the man. His personality exudes authenticity and geniality. The man simply knows his stuff, has this uncanny ability to read between the lines, and zero in instantly on underlying triggers. His structured approach steers you to address issues head on; challenges you to challenge yourself; opens your mind; helps you understand behaviors, experiences and patterns; gets you in touch with yourself; fuels a sense of purpose and passion; and escorts you to chart a new course to life. He never judges, but relentlessly encourages and empowers you. He's truly a brilliant, genuine and a humane person with an infectious enthusiasm to make you seize your inborn potential." —Adrian "If I had to sum up my experience with Bruno in one word, it would be 'awakened.' Bruno helped me see life from a different perspective, which is what I needed, but most importantly, he showed me how to do that myself without being dependent on him.... Bruno got me to step outside of my comfort zone and do things I normally wouldn't have done otherwise, which is undoubtedly the key to growth." —Blaine

You Are Not In Control According to research, 99% of the thoughts, emotions and actions you had today are the same as the ones you had yesterday. We simply repeat things unconsciously. We think we're in control but we really are not. Our programming simply repeats things daily. You cannot fight this programming with willpower. You need to consciously reprogram it with new routines so that it works for you, rather than against you, in achieving your goals. External Results Are An Illusion. Change Yourself And Your External Results Change The default thing we try to do if we're not getting the external results we seek is to reach out and try to change the results, often without changing ourselves. Striving to create an external result that is not in alignment with who you currently are internally is really a case of chasing shadows. The reality is that the external world you see is simply a reflection of your state of consciousness. The only way to change your external world is to change yourself internally. So for the external changes you want to see in your life you need to first detail out the external goals, and then map them to internal changes you need to make in order to achieve them. With this shift in thinking, there is no need for you to get anxious about making external changes that are outside your control. You just need to focus on making the required internal changes as internal change is all within your control. Your External World Is Simply A Mirror Of You It can be difficult for you to really see yourself due to the multitude of smokescreens and the fact we humans are masters at self-deception. However an accurate way of seeing yourself is in your external circumstances. External reality acts as a mirror to enable us see what's really going on inside. This is good news because when you become aware of this law you realise all the power to change your reality lies within you. The reflection never lies, just as you cannot stand in front of a physical mirror and see a different person in your reflection. The law of correspondence is as real as gravity. Growth Is All That Matters Growth is what matters in life, not the material things we acquire. Material things can disappear in a flash but growth remains forever. If you don't try new things and deal with whatever learning curve is required then you don't grow. In This Book You'll Learn: The difference between the ego and consciousness and the role of the ego in shaping your life. How to use challenges in

life as welcome tools to create a better version of yourself instead of seeing them as bad. How to use the Law of Correspondence which is always in operation in your life whether you're aware of it or not. How to transform yourself to the person who can automatically get the kind of results you want in life. How to use the power of delayed gratification to make your life easier. A step by step guide for how to create and instil positive habits and make them effortless within 30 days.
