What is this thing called literature? Why should we study it? And how? Relating literature to topics such as dreams, politics, life, death, the ordinary and the uncanny, this beautifully written book establishes a sense of why and how literature is an exciting and rewarding subject to study. Bennett and Royle delicately weave an essential love of literature into an account of what literary texts do, how they work and what sort of questions and ideas they provoke. The book's three parts reflect the fundamental components of studying literature: reading, thinking and writing. The authors use helpful, familiar examples throughout, offering rich reflections on the question 'What is literature?' and on what they term 'creative reading'. Bennett and Royle's lucid and friendly style encourages a deep engagement with literary texts. This book is not only an essential guide to the study of literature, but an eloquent defence of the discipline.

*Literature: an Introduction to Reading and Writing* Bloomsbury Publishing

Fantasy has been an important and much-loved part of children's literature for hundreds of years, yet relatively little has been written about it. *Children's Fantasy Literature* traces the development of the tradition of the children's fantastic - fictions specifically written for children and fictions appropriated by them - from the sixteenth to the twenty-first century, examining the work of Lewis Carroll, L. Frank Baum, C. S. Lewis, Roald Dahl, J. K. Rowling and others from across the English-speaking world. The volume considers changing views on both the nature of the child and on the appropriateness of fantasy for the child reader, the role of children's fantasy literature in helping to develop the imagination, and its complex interactions with issues of class, politics and gender. The text analyses hundreds of works of fiction, placing each in its appropriate context within the tradition of fantasy literature.

### HOW TO READ LITERATURE LIKE A PROFESSOR REVISED

Univ of North Carolina Press

Originally published in 1984, *Reading the Romance* challenges popular (and often demeaning) myths about why romantic fiction, one of publishing's most lucrative categories, captivates millions of women readers. Among those who have disparaged romance reading are feminists, literary critics, and theorists of mass culture. They claim that romances enforce the woman reader's dependence on men and acceptance of the repressive ideology purveyed by popular culture.

Radway questions such claims, arguing that critical attention "must shift from the text itself, taken in isolation, to the complex social event of reading." She examines that event, from the complicated business of publishing and distribution to the individual reader's engagement with the text.

Radway's provocative approach combines reader-response criticism with anthropology and feminist psychology. Asking readers themselves to explore their reading motives, habits, and rewards, she conducted interviews in a midwestern town with forty-two romance readers whom she met through Dorothy Evans, a chain bookstore employee who has earned a reputation as an expert on romantic fiction. Evans defends her customers' choice of entertainment; reading romances, she tells Radway,

is no more harmful than watching sports on television. "We read books so we won't cry" is the poignant explanation one woman offers for her reading habit. Indeed, Radway found that while the women she studied devote themselves to nurturing their families, these wives and mothers receive insufficient devotion or nurturance in return. In romances the women find not only escape from the demanding and often tiresome routines of their lives but also a hero who supplies the tenderness and admiring attention that they have learned not to expect. The heroines admired by Radway's group defy the expected stereotypes; they are strong, independent, and intelligent. That such characters often find themselves to be victims of male aggression and almost always resign themselves to accepting conventional roles in life has less to do, Radway argues, with the women readers' fantasies and choices than with their need to deal with a fear of masculine dominance. These romance readers resent not only the limited choices in their own lives but the patronizing attitude that men especially express toward their reading tastes. In fact, women read romances both to protest and to escape temporarily the narrowly defined role prescribed for them by a patriarchal culture. Paradoxically, the books that they read make conventional roles for women seem desirable. It is this complex relationship between culture, text, and woman reader that Radway urges feminists to address. Romance readers, she argues, should be encouraged to deliver their protests in the arena of actual social relations rather than to act them out in the solitude of the imagination. In a new introduction, Janice Radway places the book within the context of current scholarship and offers both an explanation and critique of the study's limitations.

### AN INTRODUCTION

Cambridge University Press

This is the first volume to consider the popular literary category of Early Readers – books written and designed for children who are just beginning to read independently. It argues that Early Readers deserve more scholarly attention and careful thought because they are, for many younger readers, their first opportunity to engage with a work of literature on their own, to feel a sense of mastery over a text, and to experience pleasure from the act of reading independently. Using interdisciplinary approaches that draw upon and synthesize research being done in education, child psychology, sociology, cultural studies, and children's literature, the volume visits Early Readers from a variety of angles: as teaching tools; as cultural artifacts that shape cultural and individual subjectivity; as mass produced products sold to a niche market of parents, educators, and young children; and as aesthetic objects, works of literature and art with specific conventions. Examining the reasons such books are so popular with young readers, as well as the reasons that some adults challenge and censor them, the volume considers the ways Early Readers contribute to the construction of younger children as readers, thinkers, consumers, and as gendered, raced, classed subjects. It also addresses children's texts that have been translated and sold around the globe, examining them as part of an increasingly transnational children's media culture that may add to or supplant regional, ethnic, and national children's literatures and cultures. While this collection focuses mostly on books written in English and often aimed at children living in the US, it is important to acknowledge that these Early Readers are a major US cultural export, influencing the reading habits and development of children across the globe.

### AN INTRODUCTION TO LITERATURE

Routledge

Lively, original and highly readable, *An Introduction to Literature, Criticism and Theory* is the essential guide to literary studies. Starting at 'The Beginning' and concluding with 'The End', chapters range from the familiar, such as 'Character', 'Narrative' and 'The Author', to the more unusual, such as 'Secrets', 'Pleasure' and 'Ghosts'. Now in its fifth edition, Bennett and Royle's classic textbook successfully illuminates complex ideas by engaging directly with literary works, so that a reading of *Jane Eyre* opens up ways of thinking about racial difference, for example, while Chaucer, Raymond Chandler and Monty Python are all invoked in a discussion of literature and laughter. The fifth edition has been revised throughout and includes four new chapters – 'Feelings', 'Wounds', 'Body' and 'Love' – to incorporate exciting recent developments in literary studies. In addition to further reading sections at the end of each chapter, the book contains a comprehensive bibliography and a glossary of key literary terms. A breath of fresh air in a field that can often seem dry and dauntingly theoretical, this book will open the reader's eyes to the exhilarating possibilities of reading and studying literature.

*An Introduction to Literature, Criticism and Theory* Polity

A thoroughly revised and updated edition of Thomas C. Foster's classic guide—a lively and entertaining introduction to literature and literary basics, including symbols, themes, and contexts—that shows you how to make your everyday reading experience more rewarding and enjoyable. While many books can be enjoyed for their basic stories, there are often deeper literary meanings interwoven in these texts. *How to Read Literature Like a Professor* helps us to discover those hidden truths by looking at literature with the eyes—and the literary codes—of the ultimate professional reader: the college professor. What does it mean when a literary hero travels along a dusty road? When he hands a drink to his companion? When he's drenched in a sudden rain shower? Ranging from major themes to literary models, narrative devices, and form, Thomas C. Foster provides us with a broad overview of literature—a world where a road leads to a quest, a shared meal may signify a communion, and rain, whether cleansing or destructive, is never just a shower—and shows us how to make our reading experience more enriching, satisfying, and fun. This revised edition includes new chapters, a new preface, and a new epilogue, and incorporates updated teaching points that Foster has developed over the past decade.

**An Introduction** Macmillan

Bringing together strands of public discourse about valuing personal achievement at the expense of social values and the impacts of global capitalism, mass media, and digital culture on the lives of children, this book challenges the potential of science and business to solve the world's problems without a complementary emphasis on social values. The selection of literary works discussed illustrates the power of literature and human arts to instill such values and foster change. The book offers a valuable foundation for the field of literacy education by providing knowledge about the

importance of language and literature that educators can use in their own teaching and advocacy work.
