A Thrilling Collection Of American True Ghost Stories, Scary Haunted Houses And Chilling Unexplained Happenings Have you ever tried to use a Ouija board? Perhaps you were just curious. Maybe you are a believer of ghosts and you want to prove that they are real. Or maybe you are not a believer and you wanted to prove everyone else wrong? Whatever your reasons are, if you decide to use one, be careful. How do you feel when you are at work, aside from the stress of unfinished work and the joys of being with work friends? During those times when you had to stay there late, did you get the feeling that someone was watching you? Perhaps you even heard it whisper your name or touch your hand... Whether you are a believer or not, you must accept one thing: there are certain things happening in our life that, try as we might, cannot be explained. We can choose to dismiss them as mere hoaxes: products of an imagination gone wild, but the feeling that something other worldly is happening cannot be relinquished.....

 Incredible True Paranormal Accounts: True Ghost Stories And Hauntings From The Past Scientists studying parapsychology try to establish many possible theories to justify a paranormal claim. Sometimes they successfully rationalize the mystical incidences with explainable scientific data and facts. But when they fail, it becomes an unsolvable mystery and controversial phenomena for future generations. We know that some places on earth are cursed and are not safe for human habitation. But, can we always scientifically explain or rationalize why some places or objects are so unlucky or why we sometimes see or feel things that no one else does? In this book we will tell you of some real ghost stories, stories of mysterious objects and a number of very tragic incidents that have been hard for science to logically define. This book contains a number of ghostly incidents that no scientist, or criminal investigator could ever rationally justify. Read these disturbing stories from the past yourself and see if you can connect the theories or justify each and every phenomenon to establish them as rationalized events.

Sometimes, after such incidents, dark and evil energies remain in these places of horror for

decades to come, haunting all that come near. Unfortunately, if you're not lucky enough, things can be even worse than this. Even if a house has no stain from its past, it can still become the doorway to hell. Do you know the history of your house, or the history of the land on which your house is built? Ghosts have been the entertaining subject of many works of fiction, but they're even more intriguing (and perhaps even scarier) when they are the focus of real-life hauntings in our own backyard. An employee of the St. James Hotel in New Mexico watches in shock as a fair-haired toddler with a terribly disfigured face disappears into the floor. This is just one of the paranormal mysteries Leslie Rule shares with us--a result of extensive interviews and research uncovering the reasons behind ghost sightings across the country. Coast to Coast Ghosts features dozens of spine-tingling, real-life ghost stories and approximately fifty black-and-white photographs taken by Rule, including some believed to have captured actual apparitions. Only the reader can decide. . . .
