Bring U.S. politics to life for students in grades 5 and up with Elections! In this comprehensive text, students learn the basics of democracy, what makes up the electoral college, how to compare election systems, and how political parties work. They also explore who votes and how voting systems and elections are run.

This 80-page book includes a complete glossary of political terms, creative ideas for class campaigns, and answer keys.

Eureka Math Statistics and Probability Study Guide Mark Twain Media

Connect students in grades 5 and up with science using Simple Machines. This 80-page book includes subject-specific concepts

and terminology, inquiry-based activities, challenge questions, extension activities, assessments, curriculum resources, a bibliography, and materials lists. The book supports National Science Education Standards, NCTM standards, and Standards for Technological Literacy.

Let's Review Regents: Algebra II Revised Edition Barrons Educational Series

Let money talk using Understanding Investment and the Stock Market for grades 5 and up. This 64-page book features information on the history and operation of the stock market, different kinds of stock, stock analysis, evaluating bonds, mutual funds and treasuries, and portfolio management. It includes fun puzzles, games, and worksheets that reinforce key concepts and an answer key.

Science Experiments, Grades 5 - 8 Carson-Dellosa Publishing Support students' learning, memory, and test-taking abilities using Improving Study and Test-Taking Skills for grades 5 and up. This 96-page book provides students with tips on organization and study skills through lessons based on scientific and professional literature. Topics include budgeting study time, motivation, health, learning and remembering new information, and different test types. This resource also includes teacher tips, cross-curricular activities, and a complete answer key.

Meteorology, Grades 5 - 8 Mark Twain Media

Write on! Write with students in grades 5 and up using Writing: Fundamentals for the Middle-School Classroom. This 128-page book helps students learn how to express themselves through writing. It provides open-ended lessons of personal writing, descriptive writing, short stories, poetry, and reports. This excellent classroom supplement also includes chapters arranged in order of increasing difficulty and activities that allow students to choose their own writing topics. It supports NCTE and IRA standards.

Elections, Grades 5 - 8 Mark Twain Media

Pre-Algebra and Algebra Warm-Ups for grades 5 to 8+ provides students with daily math activities to get them warmed up for the lessons ahead and to review lessons learned. Each page features four warm-up activities that can be cut apart and used separately, making it easy to adjust each activity when needed. Mark Twain Media Publishing Company specializes in providing engaging supplemental books and decorative resources to complement

middle- and upper-grade classrooms. Designed by leading educators, this product line covers a range of subjects including math, science, language arts, social studies, history, government, fine arts, and character.

INTERACTIVE NOTEBOOK: PHYSICAL SCIENCE, GRADES 5 - 8

Mark Twain Media

With this comprehensive classroom supplement, students learn to focus on the scientific method and developing hypotheses. Topics covered include geology, oceanography, meteorology, astronomy, investigations into water salinity, radiation, planets, and more! A variety of experiment models are also included for further concept reinforcement. Mark Twain Media Publishing Company specializes in providing captivating, supplemental books and decorative resources to complement middle- and upper-grade classrooms. Designed by leading educators, the product line covers a range of subjects including mathematics, sciences, language arts, social studies, history, government, fine arts, and character. Mark Twain Media also provides innovative classroom solutions for bulletin boards and interactive whiteboards. Since 1977, Mark Twain Media has remained a reliable source for a wide variety of engaging classroom resources.

WITH ACCOMPANYING DOCUMENTS, FOR THE YEAR ...

John Wiley & Sons

Presents a collection of individual experiments and demonstrations related to earth science, physical science, and life science, along with a standards matrix highlighting the National Science Education Standards covered by the activities.

Developing Creative Thinking Skills, Grades 5 - 8 Princeton Review

This eBook edition has been specially formatted for on-screen viewing with cross-linked questions, answers, and explanations. UNLOCK THE SECRETS OF ALGEBRA II with THE PRINCETON REVIEW. Algebra can be a daunting subject. That's why our new High School Unlocked series focuses on giving you a wide range of key techniques to help you tackle subjects like Algebra II. If one method doesn't "click" for you, you can use an alternative approach to understand the concept or problem, instead of painfully trying the same thing over and over without success.

Trust us—unlocking the secrets of algebra doesn't have to hurt! With this book, you'll discover the link between abstract concepts and their real-world applications and build confidence as your skills improve. Along the way, you'll get plenty of practice, from fully guided examples to independent end-of-chapter drills and test-like samples. Everything You Need to Know About Algebra II.

- Complex concepts explained in clear, straightforward ways
- Walk-throughs of sample problems for all topics
- Clear goals and self-assessments to help you pinpoint areas for further review
- Step-by-step examples of different ways to approach problems
- Practice Your Way to Excellence
- Drills and practice questions in every chapter
- Complete answer explanations to boost understanding
- ACT- and SAT-like questions for hands-on experience with how Algebra II may appear on major exams

High School Algebra II Unlocked covers:

- complex numbers and polynomials
- graphing and solving systems of equations
- radical and rational expressions and inequalities
- trigonometric equations
- logarithmic functions and operations
- statistical modeling ... and more!

SCIENCE VOCABULARY BUILDING, GRADES 5 - 8

Mark Twain Media

Bring history to life for students in grades 5 and up with World War II! This 120-page book covers topics such as the causes and effects of World War II, the rise of dictators, democracy, the Third Reich, D-day, concentration camps, weapons, and the Battles of the Bulge, Iwo Jima, and Okinawa. The book presents and reinforces information through captivating reading passages and a variety of reproducible activities. It also includes biographical sketches, a time line, and a complete answer key.

WRITING, GRADES 5 - 8

Corwin Press

Bring history to life for students in grades 5 and up using Renaissance! This 96-page book features reading selections and assessments that utilize a variety of questioning strategies, such as matching, true or false, critical thinking, and constructed response. Hands-on activities, research opportunities, and mapping exercises engage students in learning about the Renaissance. For struggling readers, the book includes a downloadable version of the reading selections at a fourth- to

fifth-grade reading level. This book aligns with state, national, and Canadian provincial standards.

ALGEBRA II, GRADES 8 - 10

Mark Twain Media

This book will be a comprehensive, step-by-step schedule implementation guide for school and district administrators. It will explain the how to reorganize school schedules to facilitate various programs, including RTI, Special Education, small learning communities, concept flexibility, and credit recovery. The authors will also provide research-based teaching strategies to maximize the effectiveness of each scheduling model to ensure student success. The proven schedule models and implementation strategies will be a must-read for school administrators and a useful text for educational leadership courses.

ROCKS & MINERALS, GRADES 5 - 8

Carson-Dellosa Publishing

Provides hands-on inquiry activities and curriculum resources for teaching students in grades five through eight about rocks and minerals.

Simple Machines, Grades 5 - 8 Carson-Dellosa Publishing

A quick in, quick out review of Algebra II Common Core math Relevant to high school students enrolled in their Algebra II class in those states adhering to the Common Core math standards, this quick review provides targeted chapter-level reviews of topics aligned to the Algebra II Common Core math standards, with practice problems throughout each review chapter and chapter-end quizzes. This quick review is supplemented with 300+ multiple-choice questions available on CliffsNotes.com.

100+ Science Experiments for School and Home, Grades 5 - 8

Mark Twain Media

Learn math in a guided discovery format. These "teaching textbooks" are designed to let students learn at their own pace. Summit Math books are for curious students who want learning to feel like a journey. The scenarios are arranged to show how new math concepts are related to previous concepts they have already learned. Students naturally learn at different paces and these books help teachers manage flexible pacing in their classes. Learn more at www.summitmathbooks.com. Topics in this book: Review multiplying polynomials Writing a trinomial as a product of

two binomials Factoring a difference of two squares Factoring a perfect square trinomial Using factoring to solve equations Scenarios that involve factoring Using factoring to simplify fractions Introduction to graphing parabolas Cumulative Review Answer Key Book description: This book builds on what students learn in Algebra 1: Book 4. Students learn how to think about multiplying polynomials in reverse order, which is known as factoring. They analyze factoring patterns that occur when a polynomial has a special structure like a difference of squares or a perfect square trinomial. They learn how to use factoring to solve quadratic equations and then they apply what they have learned as they solve a wide variety of scenarios that involve quadratic relationships. Near the end of the book, students are introduced to simplifying rational expressions, which they will study in more depth in Algebra 2: Book 4. They also learn about graphing parabolas, which they will study in more depth in Algebra 2: Book 3. Student testimonials: "This is the best way to learn math." "Summit Math books are unlike typical textbooks. It doesn't matter how you learn or what speed you go at...you can learn at your own pace while still understanding all the material." "Summit Math Books have guided me through algebra. They are the stepping stones of what it takes to think like a mathematician..." "I really enjoy learning from these books...they clearly demonstrate how concepts are built over other concepts." "You don't just memorize, you actually understand it." Parent testimonials: "Summit Math Books not only helped my daughter learn the math, they helped her to love learning math in and of itself! Summit Math books have a fun, self-paced way to explain math concepts..." "I am absolutely thrilled with this math program. The books are so well organized and the content builds from one lesson to the next." "We are really impressed and grateful for our boys' understanding of what the math means, not just how to get problems right...we should all learn to understand math this way." "As the mother of a teenage daughter who previously had occasional difficulty in math, it was refreshing to watch her actually enjoy her math class and to understand the subject matter without struggling" "I have three kids that have used Summit Math. Using these books, they have more freedom to learn and explore at their own pace during class, with notes already incorporated within the book." Teacher testimonials: "Summit Math allows students to work at their own pace which

allows me the opportunity to provide individualized attention to those who need it..." "Summit Math emphasizes understanding concepts rather than memorizing rules. Students take ownership while acquiring the necessary skills to solve meaningful math problems..." "It has been a real benefit having problem sets that are explicitly designed to guide students through the development of their understanding of the how and why behind the concepts they are studying." See more testimonials at www.summitmathbooks.com.
