of Congress

"Historians may have  
locked the box on the JFK  
assassination and the life

of Lyndon Baines Johnson  
but in reading James  
Norvell's riveting "out of  
the box" tale, you will  
shiver with nagging  
thoughts of intrigue and  
doubt. Norvell's semi-  
fictitious story, bolstered  
with historical facts, is a  
spellbinding masterpiece.

He has interacted with  
principal characters -  
particularly Madeleine  
Brown and Billie Sol Estes  
- and done so in a  
personal manner and over  
an extended period of  
time. The more you read,  
the more you'll wonder,  
"Could this have

happened?" Be careful - once you pick it up you won't put it down. Dynamite!" John H. (Jack) Grubbs, Ph.D, Brigadier General (Ret.), U. S. Army, author of Dryline and Bad Intentions. "Jim Norvell's unique approach to explaining the assassination of President Kennedy leads the reader into this complex and often difficult subject from a fresh direction. I recommend this book primarily because it exposes even the experienced student of the subject to information

with which he may not have been familiar, and to possible associations between 'competing theories' about what happened in Dallas, that may indicate many of them are not necessarily mutually exclusive after all. Mr. Norvell does not pull any punches, and does not sugar-coat the assassination story in any way. An engaging read." Douglas P. Horne, formerly Chief Analyst for Military Records, Assassination Records Review Board, B.A. in History, Ohio State

University, and author of Inside the Assassination Records Review Board, Vol. I-V. "My classmate from the Naval Academy, Jim Norvell, has put together a very shocking scenario that leads to a very different assassination event than the "lone gunman, lone event, Oswald-did-it" type answer. Instead he constructs a list of timed events with key power brokers in 1963 that provides a hard-core conspiratorial assassination plot. . . And if you are not entirely

convinced these diverse power brokers can mesh and team to make the killing of a President possible, then go very slowly through the chapters that lay down the assassination time lines . . . Point by point, bullet by bullet, the historical novel unfolds. . . . But I assure you that it will not end with a lone event, a lone gunman. Two additional assassinations follow with the shootings of Martin Luther King, Jr. and Robert F. Kennedy. Norvell drives you back in time to the

60's to piece together for you an entirely different assassination than the one focused on Oswald and defended as such by the Warren Commission. This is a very good read for all and especially for those who to this day can remember where we were on November 22, 1963." Alexander J. Krekich, Vice Admiral, U. S. Navy (Retired); B.S. U.S. Naval Academy 1964, M.S.A. George Washington University, 1972; U.S. Army Command & General Staff College, 1973; and Naval War

College, 1978. "I extend personal thanks to Jim Norvell for his deep insights, for connections not uncovered anywhere else, and for bringing us nearer to the solution to the most horrific crime in American History, horrific for what it did to one man and his family, horrific for what it did to America, and horrific for the failure of the authorities to mete out justice." Barr McClellan, B.A., J.D., University of Texas, author of Blood, Money and Power, How LBJ Killed JFK, and former law

partner with LBJ's attorney, Ed Clark. "Jim Norvell's historical novel is a truly remarkable study of a broad range of facts surrounding a single individual. What he has carefully developed is almost unthinkable to well-adjusted human beings. To my knowledge, this depiction has not been accomplished before in our time, and he should be commended for all the long years of effort that it required. I found that his identification of LBJ as a narcissist is quite well-founded. There is a long

and well-established history of those traits among world leaders in every field, many in very public roles. Health care professionals have identified and articulated in textbooks different types of narcissism and their symptomatic traits, some of which are incredibly destructive and actually evil. Jim's novel acutely and accurately displays the personification of pure evil in LBJ. I think he has written a serious best-seller which will lead readers to thoughtfully

and carefully examine the traits and actions which our public figures display." Ray C. Witter, Rear Admiral, U.S. Navy (Ret.), B.S. U.S. Naval Academy, M.S., Engineering Accoustics, Naval Postgraduate School

"The Senator Stan Clark PMI program (K.S.A. 65-1, 159a) was first established in the 1999 Kansas legislative session. The purpose of the Pregnancy Maintenance Initiative (PMI) program is to provide services to pregnant women to enable them to carry their pregnancies to term. PMI services are based on a case management model that incorporates an integrated, collaborative, and multi-disciplinary provider approach for the provision of a continuum of care during the

pregnancy and for six months post-delivery, based on individual client needs and goals. The service model promotes public/private partnerships to facilitate the availability and ready access to affordable and appropriate care, thus improving the potential for a positive pregnancy outcome for the childbearing woman and infant"--Introduction. Human Kinetics Boost your energy, build muscle, lose fat, and improve your performance with the

best-selling sports nutrition guide! The fifth edition includes the latest research on hydration, vitamins, supplements, energy drinks, organic foods, and balancing carbohydrate and protein intake for exercise and competition.
