Kamusi Ya Tashbihi, Vitendawili, Milio Na  
Mishangao Prentice Hall

This book is a thorough revision of the highly successful text first published in 1994. The authors retain the multidisciplinary approach that presents research from linguistics, sociology, psychology, and education, in a format designed for use in an introductory course for undergraduate or graduate students. The research is updated throughout and there are new sections and chapters in this second edition as well. New chapters cover child language acquisition (first and

second), Universal Grammar, and instructed language learning; new sections address issues, such as what data analysis doesn't show, replication of research findings, interlanguage transfer (multilingual acquisition and transfer), the aspect hypothesis, general nativism, connectionist approaches, and implicit/explicit knowledge. Major updates include nonlanguage influences and the lexicon. The workbook, *Second Language Learning Data Analysis, Second Edition*, makes an ideal accompaniment to the text.

*Thug Matrimony* Cambridge University Press

A new translation of the late Okot p'Bitek's classic epic poem 'Wer pa Lawino', first published in Acholi in 1969, and recently

listed in Africa's 100 Best Books. Lawino is a female voice, taking issue with her husband whom she witnesses imitating a European culture which is destroying a more deeply rooted African culture.

Heinemann Educational Books

This best-selling dictionary is now in its 4th edition. Specifically written for students of language teaching and applied linguistics, it has become an indispensable resource for those engaged in courses in TEFL, TESOL, applied linguistics and introductory courses in general linguistics. Fully

revised, this new edition includes over 350 new entries. Previous definitions have been revised or replaced in order to make this the most up-to-date and comprehensive dictionary available. Providing straightforward and accessible explanations of difficult terms and ideas in applied linguistics, this dictionary offers: Nearly 3000 detailed entries, from subject areas such as teaching methodology, curriculum development, sociolinguistics, syntax and phonetics. Clear and accurate definitions which assume no prior knowledge of the subject matter helpful diagrams and tables cross references throughout, linking related subject areas for ease of reference, and helping to broaden students' knowledge The Dictionary of Language Teaching and Applied Linguistics is the definitive resource for students.

### **An Introduction to Natural Generative Phonology** Routledge

The Sabaki languages form a major Bantu subgroup and are spoken by 35 million East Africans in Somalia, Kenya, Tanzania, Mozambique, and the Comoro Islands. The authors provide a historical/comparative treatment of Swahili (and other Sabaki

languages), an account of the relationship of Swahili to Sabaki and to other Bantu languages, and some data on contemporary Sabaki languages. Data sets, appendices, maps, and figures present essential information on phonology, lexical makeup, and tense/aspect morphology. The final chapter is a synthesis describing the linguistic and historical relationship of the Sabaki dialects to each other and to hypothetical proto-stages.

This massive authoritative Swahili dictionary, is the most definitive and comprehensive in existence. It has taken a team of lexicographers and academics fourteen years to prepare, with the

support of the Institute of Kiswahili Research in Dar es Salaam. The last comparable edition was in 1939, and was primarily intended to help the user to comprehend English texts. The dictionary records new words and meanings of words which the language has acquired since 1939; and provides lexicographical information needed by current dictionary users. There are more than 50,000 entries, with an attempt to give every English word an equivalent in Swahili, or otherwise a phrase; and the vocabulary covers both general and specialized language. Guidance is provided on use and connotation, word formation and syntax, and derivatives and compounds of a headword are explicitly shown in each entry. The full information and arrangement given for each entry is: headword, homographs, wordclass, alternative spelling of a headword, cross-reference, gloss, definition, subject label, usage label, regional label, senses separated by numbers, illustrative examples, compounds, derivatives, and adjectival complementation.

An uninvited guest throws a ghetto wedding into chaos in this raw urban romance by the New York Times and Essence bestselling author. Angel, Jaz, Tasha, and Kyra are living proof that hope is more than a word. The four girlfriends are pulling themselves out of the ghetto—and trying to bring their hearts up to higher ground with them. But sometimes the past ain't in no mood to let go. . . Angel has met the brother of her dreams—after living through a nightmare with Snake. Believing that pimp is dead, Angel has moved on. She's starting her own law practice and a new life with Kaylin, a drug dealer who's stepped outta the game to run a recycling business and a hot new record label. But the past is never far from Kaylin, and when an unwanted guest crashes their wedding, all the rage and bloodlust from the hood comes bustin' out—and Angel's gonna need every prayer in heaven to make it to the altar.

This book provides a critical review of the development of generative grammar, both transformational and non-transformational, from the early 1960s to the present, and presents contemporary results in the context of an overall evaluation of recent research in the field. Geoffrey Horrocks compares Chomsky's approach to the study of grammar, culminating in Government and Binding theory, with two other theories which are deliberate reactions to this framework: Generalised Phrase Structure Grammar and Lexical-Functional Grammar. Whilst proponents of all three models regard themselves as generative grammarians, and share many of the same objectives, the differences between them nevertheless account for much of the recent debate in this subject. By presenting these different theories in the context of the issues that unite and divide them, the book highlights the problems which arise in any attempt to establish an adequate theory of grammatical representation.
