Man's eternal quest for self-knowledge and self-fulfillment demands a continuing expansion of consciousness. Consciousness, the secret of life, determines man's experiences. Discovery of this secret is the primary purpose of man's presence in the world. On the mystical path, you learn that the goal in life is releasing the soul from the tomb of human existence, more especially the tomb of the human mind. If we are to experience the soul, we have to break through the limitations of the body and the mind. The reason that this realm of the soul is so little known is that God is spoken of as God without the realization that God is the soul of man. The purpose of man is to show forth the nature of God. Man originally was intended to be the instrument through which, or as which, God lives on earth. Man is the great glory of God. Man was not meant to cry, and all his tears are shed only because of a sense of limitation. Every tear you shed is proof of some form of limitation being experienced in your life. Man was not born to cry!

The World Is New is a superb exposition of Joel Goldsmith's path to practical spirituality called The Infinite Way. The major theme of The World Is New is that recognizing our spiritual identity as the Christ, or God appearing as individual being, makes for newness of life. "The world is new to every soul when Christ has entered into it," says Goldsmith, quoting from the inscription in the Stanford Memorial Church that inspired the title for the book. To embody the principles set forth so clearly in this book is to experience that newness of life that makes the whole world new and unexpectedly wondrous. "How many times we have read in the New Testament about the Father within! How many times we have read what Paul said: 'I live; yet not I, but Christ liveth in me, '" says Goldsmith. "But how seldom have we sat down with ourselves and felt that we must get acquainted with this Father within and find out what Paul meant. Few ever really investigate and find out if what Jesus said is true." The World Is New helps the reader with that investigation, setting forth the breadth and depth of Goldsmith's teaching with unequalled clarity, and teaching the spiritual practices that will bring the seeker to the spiritual freedom that is attained when we touch the Christ of our own being and actually feel the divine Presence within us. "There are those who have ears but do not hear and those who have eyes but do not see," Goldsmith says. "We have eyes, certainly. But do we see an infinite supply of good? We cannot see it with our human eyes. We see it only with that inner eye, when our attention is centered on receptivity to God. In that inner vision, we can behold everything present now. It is all here. We do not need to have a single new thing added to our experience to make it complete. We have only to open our spiritual eyes to see the fullness and completeness of God's universe, which is already here and which is already now - and then the world is new."

Historians of the Civil War often speak of "wars within a war--the military fight, wartime struggles on the home front, and the political and moral battle to preserve the Union and end slavery. In this broadly conceived book, Thavolia Glymph provides a comprehensive new history of women's roles and lives in the Civil War--North and South, white and black, slave and free--showing how women were essentially and fully engaged in all three arenas. Glymph focuses on the ideas and ideologies that drove women's actions, allegiances, and politics. We encounter women as they stood their ground, moved into each other's territory, sought and found common ground, and fought for vastly different principles. Some women used all the tools and powers they could muster to prevent the radical transformations the war increasingly imposed, some fought with equal might for the same transformations, and other women fought simply to keep the war at bay as they waited for their husbands and sons to return home. Glymph shows how the Civil War exposed as never before the nation's fault lines, not just along race and class lines but also along the ragged boundaries of

gender. However, Glymph makes clear that women's experiences were not new to the mid-nineteenth century; rather, many of them drew on memories of previous conflicts, like the American Revolution and the War of 1812, to make sense of the Civil War's disorder and death.

If you think that there is some new truth to be learned humanly, you will be disappointed because there is not a single new truth in the entire world. The truth revealed in this book is not my truth or

my message, but the word of God which has been imparting itself to universal consciousness throughout all time. That word of God is already embodied in your consciousness, and this truth, which is already your consciousness, is now being unveiled to you within you. Unless God is my consciousness, there will be no truth expressing itself through, or as, me; and, moreover, unless God is your consciousness, you will not understand the truth that is being presented. But, since God is universal consciousness and since God is my consciousness, truth is expressing itself as this book.

2010 Reprint of 1962 Edition. Joel Solomon Goldsmith (March 10, 1892-June 17, 1964) was an author, teacher, spiritual healer, mystic, and founder of the Infinite Way movement. In this book Goldsmith makes a distinction between psychological healing and spiritual healing. Psychological healing is primarily an activity of the human mind and the intellect. Spiritual healing is an activity of the soul faculties; it is always performed without mental activity, without the necessity of the physical presence of the patient, and often without his cooperation beyond giving his consent. The book is devoted to explaining the art of spiritual healing.

'No part of the Great War compares in interest with its opening', wrote Churchill. 'The measured, silent drawing together of gigantic forces, the uncertainty of their movements and positions, the number of unknown and unknowable facts made the first collision a drama never surpassed...in fact the War was decided in the first twenty days of fighting, and all that happened afterwards consisted in battles which, however formidable and devastating, were but desperate and vain appeals against

the decision of fate.' On of Britain's foremost military historians and defence experts tackles the origins - and the opening first few weeks of fighting - of what would become known as 'the war to end all wars'. Intensely researched and convincingly argued, Allan Mallinson explores and explains the grand strategic shift that occurred in the century before the war, the British Army's regeneration after its drubbings in its fight against the Boer in South Africa, its almost calamitous experience of the first twenty days' fighting in Flanders to the point at which the British Expeditionary Force - the 'Old Contemptibles' - took up the spade in the middle of September 1914: for it was then that the war changed from one of rapid and brutal movement into the more familiar vision of trench warfare on Western Front. In this vivid, compelling new history, Mallinson brings his experience as a professional soldier to bear on the circumstances, events, actions and individuals and speculates - tantalizingly - on what might have been...

Wilkesburg schools were once among the highest achieving in Pennsylvania. For more than two decades, however, they have produced woefully undereducated students. Driven by desperation and frustrated with the failure of other less radical reforms aimed at educational improvement, the Wilkesburg School Board privatized Turner Elementary School in 1994, dismissing 24 unionized teachers. Privatization of Turner created the first U.S. public school to be sub-contracted to a private firm and staffed by non-unionized teachers. "No Wind for Their Sails: The Betrayal of America's Urban Youth" tells the story of this community locked in a union stranglehold, and how people catalyzed a history-making revolution -- albeit a Pyrrhic victory -- in order to give children a chance at a better life.
