Complete your leadership toolkit with this inside look at high-level,

executive positions
Hidden Truths: What Leaders Need to Hear But Are Rarely Told delivers profound and rarely discussed insights about C-suite jobs that provide aspiring leaders with practical, new skills that

will equip them for the immense challenges of their desired jobs. Through 14 illuminating chapters, accomplished Harvard Business School faculty member and former Senior Partner of McKinsey & Company sets

out the essential habits that help leaders create success, time and time again. You'll learn: How to recognize the limits of monetary incentives for employees and colleagues To manage your relationships with members of the Board of Directors How to value and realize true diversity How to manage mergers and acquisitions properly, one of the most difficult parts of business leadership Perfect for managers, executives, and other business leaders with an eye on the

C-suite, Hidden Truths also belongs on the bookshelves of people who already find themselves in a C-level position and wish to learn how to better manage the stresses and challenges of the job.

The Case Study Handbook Berrett-Koehler Publishers Think big, buy small. Are you looking for an alternative to a career path at a big firm? Does founding your own start-up seem too risky? There is a radical third path open to you: You can buy

a small business and run it as CEO. Purchasing a small company offers significant financial rewards—as well as personal and professional fulfillment. Leading a firm means you can be your own boss, put your executive skills to work, fashion a company environment that meets your own needs, and profit directly from your success. But finding the right business to buy and closing the deal isn't always easy. In the HBR Guide to Buying a Small Business, Harvard

Business School professors Richard Ruback and Royce Yudkoff help you: Determine if this path is right for you Raise capital for your acquisition Find and evaluate the right prospects Avoid the pitfalls that could derail your search Understand why a "dull" business might be the best investment Negotiate a potential deal with the seller Avoid deals that fall through at the last minute *Hacking the Case Interview* Harvard Business Press
In the spring of 2010,

Harvard Business School's graduating class asked HBS professor Clay Christensen to address them—but not on how to apply his principles and thinking to their post-HBS careers. The students wanted to know how to apply his wisdom to their personal lives. He shared with them a set of guidelines that have helped him find meaning in his own life, which led to this now-classic article. Although Christensen's thinking is rooted in his deep religious faith, these are strategies anyone can

use. Since 1922, Harvard Business Review has been a leading source of breakthrough ideas in management practice. The Harvard Business Review Classics series now offers you the opportunity to make these seminal pieces a part of your permanent management library. Each highly readable volume contains a groundbreaking idea that continues to shape best practices and inspire countless managers around the world.

Command the room-- whether you're speaking to an audience of one or one hundred. If you read

nothing else on public speaking and presenting, read these 10 articles. We've combed through hundreds of Harvard Business Review articles and selected the most important ones to help you find your voice, persuade your listeners, and connect with audiences of any size. This book will inspire you to: Win hearts and minds-- and approval for your ideas Conquer your nerves and speak with confidence Focus your message so that people really listen Establish trust

with your audience by being your authentic self Use data and visuals to persuade more effectively Master the art of storytelling This collection of articles includes "How to Give a Killer Presentation," by Chris Anderson; "How to Become an Authentic Speaker," by Nick Morgan; "Storytelling That Moves People: A Conversation with Screenwriting Coach Robert McKee," by Bronwyn Fryer; "Connect, Then Lead," by Amy J.C. Cuddy, Matthew Kohut, and John Neffinger; "The

Necessary Art of Persuasion," by Jay A. Conger; "The Science of Pep Talks," by Daniel McGinn; "Get the Boss to Buy In," by Susan J. Ashford and James R. Detert; "The Organizational Apology," by Maurice E. Schweitzer, Alison Wood Brooks, and Adam D. Galinsky; "What's Your Story?" by Herminia Ibarra and Kent Lineback; "Visualizations That Really Work," by Scott Berinato; and "Structure Your Presentation Like a Story," by Nancy Duarte. HBR's

10 Must Reads paperback series is the definitive collection of books for new and experienced leaders alike. Leaders looking for the inspiration that big ideas provide, both to accelerate their own growth and that of their companies, should look no further. HBR's 10 Must Reads series focuses on the core topics that every ambitious manager needs to know: leadership, strategy, change, managing people, and managing yourself. Harvard Business Review has sorted through

hundreds of articles and selected only the most essential reading on each topic. Each title includes timeless advice that will be relevant regardless of an ever-changing business environment. *The Unspoken Rules* Harvard Business Review Press
"Filled with great strategies you can immediately put to use in your business and personal lives . . . extremely entertaining, thought-provoking."
—Tyra Banks, CEO, TYRA Beauty, and creator of

America's Next Top Model
Some negotiations are easy. Others are more difficult. And then there are situations that seem completely hopeless. Conflict is escalating, people are getting aggressive, and no one is willing to back down. And to top it off, you have little power or other resources to work with. Harvard professor and negotiation adviser Deepak Malhotra shows how to defuse even the most potentially explosive situations and to find success when things seem impossible.

Malhotra identifies three broad approaches for breaking deadlocks and resolving conflicts, and draws out scores of actionable lessons using behind-the-scenes stories of fascinating real-life negotiations, including drafting of the US Constitution, resolving the Cuban Missile Crisis, ending bitter disputes in the NFL and NHL, and beating the odds in complex business situations. But he also shows how these same principles and tactics can be applied in everyday

life, whether you are making corporate deals, negotiating job offers, resolving business disputes, tackling obstacles in personal relationships, or even negotiating with children. As Malhotra reminds us, regardless of the context or which issues are on the table, negotiation is always, fundamentally, about human interaction. No matter how high the stakes or how protracted the dispute, the object of negotiation is to engage with other human beings in a way that leads to

better understandings and agreements. The principles and strategies in this book will help you do this more effectively in every situation. "This book is magic for any deal maker." —Daniel H. Pink, New York Times- bestselling author

Teaming Harvard Business Press

"You've got a great idea that will increase revenue or productivity--but how do you get approval to make it happen? By building a business case that clearly shows its value. Maybe you struggle

to win support for projects because you're not sure what kind of data your stakeholders will trust, or naysayers always seem to shoot your ideas down at the last minute. Or perhaps you're intimidated by analysis and number crunching, so you just take a stab at estimating costs and benefits, with little confidence in your accuracy. To get any idea off the ground at your company you'll have to make a strong case for it. This guide gives you the tools to do that"--

Porth Harvard Business Press

Look around your office. Turn on the TV. Incompetent leadership is everywhere, and there's no denying that most of these leaders are men. In this timely and provocative book, Tomas Chamorro-Premuzic asks two powerful questions: Why is it so easy for incompetent men to become leaders? And why is it so hard for competent people--especially competent women--to advance? Marshaling decades of rigorous

research, Chamorro-Premuzic points out that although men make up a majority of leaders, they underperform when compared with female leaders. In fact, most organizations equate leadership potential with a handful of destructive personality traits, like overconfidence and narcissism. In other words, these traits may help someone get selected for a leadership role, but they backfire once the person has the job. When competent women--and men who

don't fit the stereotype--are unfairly overlooked, we all suffer the consequences. The result is a deeply flawed system that rewards arrogance rather than humility, and loudness rather than wisdom. There is a better way. With clarity and verve, Chamorro-Premuzic shows us what it really takes to lead and how new systems and processes can help us put the right people in charge.

VAULT GUIDE TO THE CASE INTERVIEW

Sourcebooks, Inc.

Come back from every setback a stronger and better leader. If you read nothing else on mental toughness, read these ten articles by experts in the field. We've combed through hundreds of articles in the Harvard Business Review archive and selected the most important ones to help you build your emotional strength and resilience--and to achieve high performance. This book will inspire you to: Thrive on pressure like an Olympic athlete. Manage and overcome negative

emotions by acknowledging them Plan short-term goals to achieve long-term aspirations Surround yourself with the people who will push you the hardest Use challenges to become a better leader Use creativity to move past trauma Understand the tools your mind uses to recover from setbacks. This collection of articles includes "How the Best of the Best Get Better and Better," by Graham Jones; "Crucibles of Leadership," by Warren G. Bennis and Robert J. Thomas;

"Building Resilience," by Martin E.P. Seligman; "Cognitive Fitness," by Roderick Gilkey and Clint Kilts; "The Making of a Corporate Athlete," by Jim Loehr and Tony Schwartz; "Stress Can Be a Good Thing If You Know How to Use It," by Alla Crum and Thomas Crum; "How to Bounce Back from Adversity," by Joshua D. Margolis and Paul G. Stoltz; "Rebounding from Career Setbacks," by Mitchell Lee Marks, Philip Mirvis, and Ron Ashkenas; "Realizing What You're Made Of," by Glenn E.

Mangurian; "Extreme Negotiations," by Jeff Weiss, Aram Donigian, and Jonathan Hughes; and "Post-Traumatic Growth and Building Resilience," by Martin Seligman and Sarah Green Carmichael. Why Do So Many Incompetent Men Become Leaders? McGraw Hill Professional Reinvent your organization for the hybrid age. Hybrid work is here to stay—but what will it look like at your company? If your organization is holding on to inflexible, pre-

pandemic policies about where—and when—your people work, it may be risking a mass exodus of talent. Designing a hybrid workplace that furthers your business goals while staying true to your culture requires balancing experimentation with rigorous planning. *Hybrid Workplace: The Insights You Need from Harvard Business Review* will help you adopt the best technological, cultural, and new management practices to seize the benefits and avoid the pitfalls of the hybrid age.

Business is changing. Will you adapt or be left behind? Get up to speed and deepen your understanding of the topics that are shaping your company's future with the *Insights You Need from Harvard Business Review* series. Featuring HBR's smartest thinking on fast-moving issues—blockchain, cybersecurity, AI, and more—each book provides the foundational introduction and practical case studies your organization needs to compete today and

collects the best research, interviews, and analysis to get it ready for tomorrow. You can't afford to ignore how these issues will transform the landscape of business and society. The *Insights You Need* series will help you grasp these critical ideas—and prepare you and your company for the future.

Cybersecurity threats are on the rise. As a leader, you need to be prepared to keep your organization safe. Companies are investing an unprecedented amount of money to keep their data and assets safe, yet cyberattacks are on the rise--and the problem is worsening. No amount of

technology, resources, or policies will reverse this trend. Only sound governance, originating with the board, can turn the tide. Protection against cyberattacks can't be treated as a problem solely belonging to an IT or cybersecurity department. It needs to cast a wide and impenetrable net that covers everything an organization does--from its business operations, models, and strategies to its products and intellectual property. And boards are in the best

position to oversee the needed changes to strategy and hold their companies accountable. Not surprisingly, many boards aren't prepared to assume this responsibility. In *A Leader's Guide to Cybersecurity*, Thomas Parenty and Jack Domet, who have spent over three decades in the field, present a timely, clear-eyed, and actionable framework that will empower senior executives and board members to become stewards of their companies' cybersecurity

activities. This includes:
 Understanding cyber risks and how best to control them
 Planning and preparing for a crisis--and leading in its aftermath
 Making cybersecurity a companywide initiative and responsibility
 Drawing attention to the nontechnical dynamics that influence the effectiveness of cybersecurity measures
 Aligning the board, executive leadership, and cybersecurity teams on priorities
 Filled with tools, best practices, and strategies, A Leader's

Guide to Cybersecurity will help boards navigate this seemingly daunting but extremely necessary transition.

HBR GUIDE TO BUILDING YOUR BUSINESS CASE

Harvard Business Press
 How to Resolve the Really Hard Problems Every manager makes tough calls—it comes with the job. And the hardest decisions are the “gray areas”—situations where you and your team have worked hard to find an answer, you’ve done the

best analysis you can, and you still don’t know what to do. But you have to make a decision. You have to choose, commit, act, and live with the consequences and persuade others to follow your lead. Gray areas test your skills as a manager, your judgment, and even your humanity. How do you get these decisions right? In *Managing in the Gray*, Joseph Badaracco offers a powerful, practical, and even radical way to resolve these problems. Picking up where conventional tools

of analysis leave off, this book provides tools for judgment in the form of five revealing questions. Asking yourself these five questions provides a simple yet profound way to broaden your thinking, sharpen your judgment, and develop a fresh perspective. What makes these questions so valuable is that they have truly stood the test of time—they've guided countless men and women, across many centuries and cultures, to resolve the hardest questions of work,

responsibility, and life. You can use the five-question framework on your own or with others on your team to help you cut through complexities, understand critical trade-offs, and develop workable solutions for even the grayest issues. Blockbusters Harvard Business Press
If you're enrolled in an executive education or MBA program, you've probably encountered a powerful learning tool: the business case. But if you're like many people, you may find interpreting

and writing about cases mystifying, challenging, or downright frustrating. In "The Case Study Handbook", William Ellet presents a potent new approach for analyzing, discussing, and writing about cases. Early chapters show how to classify cases according to the analytical task they require (solving a problem, making a decision, or forming an evaluation) and quickly establish a base of knowledge about a case. Strategies and templates, in addition to several

sample Harvard Business School cases, help you apply the author's framework. Later in the book, Ellet shows how to write persuasive case-analytical essays based on the process laid out earlier. Extensive examples of effective and ineffective writing further reinforce your learning. The book also includes a chapter on how to talk about cases more effectively in class. Any current or prospective MBA or executive education student needs to read this book.

Harvard Business Press The guide all MBAs and exec ed students need. If you're enrolled in an MBA or executive education program, you've probably encountered a powerful learning tool: the business

case. But if you're like many people, you may find interpreting and writing about cases mystifying and time-consuming. In *The Case Study Handbook, Revised Edition*, William Ellet presents a potent new approach for efficiently analyzing, discussing, and writing about cases. Early chapters show how to classify cases according to the analytical task they require (making a decision, performing an evaluation, or diagnosing a problem) and quickly establish a base of

knowledge about a case. Strategies and templates, in addition to several sample Harvard Business School cases, help you apply the author's framework. Later in the book, Ellet shows how to write persuasive case-analytical essays based on the process laid out earlier. Examples of effective writing further reinforce the methods. The book also includes a chapter on how to talk about cases more effectively in class. Any current or prospective MBA or executive

education student needs this guide.

Managing in the Gray

Harvard Business Press
Financial fraud in the United States costs nearly \$400 billion annually. The executives responsible for this corporate duplicity usually earn excellent salaries. So why do they become criminals? Harvard Business School professor Eugene Soltes shares his findings after years of extensive research. His numerous case histories make for fascinating reading. He speaks almost exclusively

about men so don't look for gender-neutral pronouns. As Soltes explains, "Women are conspicuously absent from the ranks of prominent white-collar criminals." getAbstract recommends his compelling study to business students and professors, executives, business pundits, financial law enforcement officials and anyone who handles the money.

Negotiating the Impossible Harvard Business Review Press
Named one of the best

strategy books of 2021 by strategy+business Get to better, more effective strategy. In nearly every business segment and corner of the world economy, the most successful companies dramatically outperform their rivals. What is their secret? In *Better, Simpler Strategy*, Harvard Business School professor Felix Oberholzer-Gee shows how these companies achieve more by doing less. At a time when rapid technological change and global competition conspire to

upend traditional ways of doing business, these companies pursue radically simplified strategies. At a time when many managers struggle not to drown in vast seas of projects and initiatives, these businesses follow simple rules that help them select the few ideas that truly make a difference. Better, Simpler Strategy provides readers with a simple tool, the value stick, which every organization can use to make its strategy more effective and easier to execute. Based on proven

financial mechanics, the value stick helps executives decide where to focus their attention and how to deepen the competitive advantage of their business. How does the value stick work? It provides a way of measuring the two fundamental forces that lead to value creation and increased financial success—the customer's willingness-to-pay and the employee's willingness-to-sell their services to the business. Companies that win, Oberholzer-Gee shows, create value for

customers by raising their willingness-to-pay, and they provide value for talent by lowering their willingness-to-sell. The approach, proven in practice, is entirely data driven and uniquely suited to be cascaded throughout the organization. With many useful visuals and examples across industries and geographies, Better, Simpler Strategy explains how these two key measures enable firms to gauge and improve their strategies and operations.

Based on the author's
sought-after strategy

course, this book is your
must-have guide for

making better strategic
decisions.
