Daily Telegraph Have you ever stopped and wondered where your jeans came from? Who made them and where? Ever wondered where they end up after you donate them for recycling? Following a pair of jeans, Clothing Poverty takes the reader on a vivid around-the-world tour to reveal how clothes are manufactured and retailed, bringing to light how fast fashion and clothing recycling are interconnected. Andrew Brooks shows how recycled clothes are traded across continents, uncovers how retailers and international charities are embroiled in commodity chains which perpetuate poverty, and exposes the hidden trade networks which transect the globe. Pattern Cutting Techniques for Ladies' Jackets Bloomsbury Publishing USA

From the moment we are born, we start our journey towards death. Some walk slowly, others run towards it, some skip and dance their way there, while others crawl. In his seventh book, author Manoj Jain dwells on the uncomfortable topic of death. Interspersed with stories from Indian mythology, Meeting Yama is set in the mystical city of Varanasi where all answers are given if one is willing to listen. Amrit, Rajat and Surya, three visitors meet each other in this city and find resolutions to the issues that they carry within

them. If you are reading this, then there is probably something in the book that is meant for you.

TRAIN YOUR MIND FOR PEACE AND PURPOSE EVERY DAY

McClelland & Stewart Jay Shetty, social media superstar and host of the #1 podcast On Purpose, distills the timeless wisdom he learned as a monk into practical steps anyone can take every day to live a less anxious, more meaningful life. When you think like a monk, you'll understand: - How to overcome negativity -How to stop overthinking -Why comparison kills love -How to use your fear -Why you can't find happiness by looking for it -How to learn from everyone you meet - Why you are not your thoughts -How to find your purpose -Why kindness is crucial to success -And much more... Shetty grew up in a family where you could become one of three things—a doctor, a lawyer, or a failure. His family was convinced he had chosen option three: instead of attending his college graduation ceremony, he headed to India to become a monk,

to meditate every day for four to eight hours, and devote his life to helping others. After three years, one of his teachers told him that he would have more impact on the world if he left the monk's path to share his experience and wisdom with others. Heavily in debt, and with no recognizable skills on his résumé, he moved back home in north London with his parents. Shetty reconnected with old school friends—many working for some of the world's largest corporations—who were experiencing tremendous stress, pressure, and unhappiness, and they invited Shetty to coach them on well-being, purpose, and mindfulness. Since then, Shetty has become one of the world's most popular influencers. In 2017, he was named in the Forbes magazine 30-under-30 for being a game-changer in the world of media. In 2018, he had the #1 video on Facebook with over 360 million views. His social media following totals over 38 million, he has produced over 400 viral videos which have amassed more than 8 billion views, and his podcast, On Purpose, is consistently ranked the world's #1 Health and

Wellness podcast. In this inspiring, empowering book, Shetty draws on his time as a monk to show us how we can clear the roadblocks to our potential and power. Combining ancient wisdom and his own rich experiences in the ashram, Think Like a Monk reveals how to overcome negative thoughts and habits, and access the calm and purpose that lie within all of us. He transforms abstract lessons into advice and exercises we can all apply to reduce stress, improve relationships, and give the gifts we find in ourselves to the world. Shetty proves that everyone can—and should—think like a monk.

Zed Books Ltd. Understand your psyche in a clear and comprehensive way, and resolve deep-seated emotional issues... 'Self-Therapy' makes the power of a cutting-edge psychotherapy approach accessible to everyone. Internal Family Systems Therapy (IFS) has been spreading rapidly across the country in the past decade. It is incredibly effective on a wide variety of life issues, such as self-esteem, procrastination,

depression, and relationship issues. IFS is also user-friendly; it helps you to comprehend the complexity of your psyche. Dr. Earley shows how IFS is a complete method for psychological healing that you can use on your own. 'Self-Therapy' is also helpful for therapists because it presents the IFS model in such detail that it is a manual for the method. The fact that Jay Earley wrote this book is high praise for the IFS model because he was an accomplished writer and thinker long before encountering IFS. Jay's passion has been to introduce IFS to a lay audience so that people can work with their parts on their own. Through well-described experiential exercises and examples of actual IFS sessions, you will be able to enter your inner world, heal your extreme parts, and transform them into valuable resources. - Richard Schwartz, PhD, creator of IFS, from the Foreword

Processes of post-war

reconstruction,

peacebuilding and

reconciliation are partly

about fostering stability

and adaptive capacity

across different social

systems. Nevertheless,

these processes have

seldom been expressly

discussed within a

resilience framework.

Similarly, although the

goals of transitional

justice – among them

(re)establishing the rule of

law, delivering justice and

aiding reconciliation –

implicitly encompass a

resilience element,

transitional justice has not

been explicitly theorised

as a process for building

resilience in communities

and societies that have

suffered large-scale

violence and human rights

violations. The chapters in

this unique volume

theoretically and

empirically explore the

concept of resilience in diverse societies that have experienced mass violence and human rights abuses. They analyse the extent to which transitional justice processes have – and can – contribute to resilience and how, in so doing, they can foster adaptive peacebuilding. This book is available as Open Access.
