SYSMEX - XT 4000i COMMUNITY, MANUALS AND SPECIFICATIONS ...

Xt 4000i SysmexThe XT-4000i is an outstanding haematology analyser. Using Sysmex’s unique fluorescence flow cytometry, the analyser looks at RNA/DNA content, cell size and inner cell complexity rather than just cell size.XT-4000i - SysmexThe XT-4000i really is an outstanding haematology analyser. Using Sysmex’s unique fluorescence flow cytometry, the analyser looks at RNA/DNA content, cell size and inner cell complexity rather than just cell size. This generates remarkably accurate results and a superb WBC differential.XT-4000i - Sysmex Europe GmbHThe Sysmex XT-4000i provides 34 parameters, including the advanced clinical parameters, IG (Immature Granulocyte) and RET-He (Reticulocyte Hemoglobin Equivalent) and a Body Fluid specific mode. It utilizes Sysmex’s patented fluorescent flow cytometry and advanced cell counting methods to deliver rapid, reliable results essential in patient diagnosis and therapeutic monitoring.Sysmex Receives FDA Clearance for XT-4000i™ Automated ...The Sysmex XT-4000i offers medium to high volume laboratories an automated hematology system that can truly meet and exceed expectations. Designed to be reliable and efficient, the Sysmex XT-4000i offers medium to high volume laboratories an automated hematology system that can truly meet and exceed expectations.Sysmex - XT 4000i Community, Manuals and Specifications ...AdvancedTechnologySolutions toMeetYourLab’sNeeds Today’sLaboratoryChallenges Laboratoriescontinuetofaceanumber ofchallenges.Theseincludeclinical,operationalXT-..., i AutomatedHematologyAnalyzer - Sysmex CorporationXT-Series. Using our fluorescence flow cytometry platform, the XT-Series offers intelligent flagging and extended parameters and high-sensitivity body fluid measurement on the XT-4000i. With 80 -100 samples per hour, they are great solutions for a medium throughput lab.XT-Series - SysmexTo increase your analytical possibilities, and transform your XT-2000i into an even more versatile device, you can add our XT-IG Master with our XT-PRO. Now your analyser offers a classic 5-part differential and a true immature granulocyte (IG) count, with far superior clinical utility than the flagging offered by other technologies.XT-2000i - SysmexEl analizador hematológico Sysmex XT-4000i utiliza el poder de las tecnologías de citometría de flujo fluorescente y enfoque hidrodinámico. Utilizando un exclusivo diodo láser con tecnología de vanguardia, la citometría de flujo fluorescente de Sysmex proporciona la sensibilidad necesaria para medir y diferenciar tipos celulares en muestras de sangre total y fluidos corporales.XT-4000-Hematology-Analyzer - Sysmex CorporationThe Sysmex XT-4000i hematology analyzers utilize the power of fluorescent flow cytometry and hydrodynamic focusing technologies. Using a unique and advanced diode laser bench, Sysmex fluorescent flow cytometry provides the sensitivity needed for measuring and differentiating cell types in whole blood and body fluid samples.Sysmex XT 4000i Hematology Analyzer | Buy Used Medical ...Haematology. Clinical haematology is an intensive, exciting, rewarding and demanding specialty. It includes the study of aetiology, diagnosis, treatment, prognosis, and prevention of blood diseases that affect the production of blood and its components. These include white blood cells, red blood cells, haemoglobin and platelets.Haematology - SysmexO analisador hematológico Sysmex

XT-4000i utiliza a tecnologia de citometria de fluxo fluorescente com laser semiconductor e f oco hidrodinâmico que traz a sensibilidade necessária para quantificar e diferenciar as classes celulares no sangue total e em amostras de líquidos biológicos.XT-4000-Hematology-Analyzer - Sysmex CorporationThe XT-4000i really is an outstanding haematology analyser.
