This book invites Muslims and non-Muslims to acquaint themselves with the prophet's practice and teachings, his Sunnah, first hand. Relying exclusively upon the sayings and actions of the prophet,

which have been selected and translated from authenticated and well-known collections of hadith literature, this book presents a close-up and composite picture of the life of the Prophet Muhammad, described in the Qur'an as the best model for humanity. Ahmad Von Denffer was born in Germany in 1949. He studied Islamics and Social Anthropology at the

University of Mainz. He works at the Islamic Centre, Munich, and has translated the Qur'an into German.

Turner has this theory that you can tell a lot about a person by their regular coffee drink. She scribbles it all down in a notebook and calls it Espressology. So it's not a totally crazy idea when Jane starts hooking up some of her friends based on their coffee orders. Like her best friend, Em, a medium hot chocolate, and Cam, a toffee nut latte. But when her boss, Derek, gets wind of Jane's Espressology,

CIFOR  
Identity and Pleasure: The Politics of Indonesian Screen Culture critically examines what media and screen culture reveal about the ways urban-based Indonesians attempted to redefine their identity in the first decade of this century. Through a richly nuanced

analysis of expressions and representations found in screen culture (cinema, television and social media), it analyses the waves of energy and optimism, and the disillusionment, disorientation and despair, that arose in the power vacuum that followed the dramatic collapse of the militaristic New Order government. While in-depth analyses of identity and political contestation

within the nation are the focus of the book, trans-national engagements and global dimensions are a significant part of the story in each chapter. The author focuses on contemporary cultural politics in Indonesia, but each chapter contextualizes current circumstances by setting them within a broader historical perspective. Hamid Mowlana, for decades, has been one of the foremost trackers and analyzers of global communications--their volume, character, and impact. No one is more qualified to explain these increasingly important and central issues to a wide public. -- Herbert S. Schiller, New York University The rapid changes in the way we communicate across the globe continue to alter the many facets

of society. Both interdisciplinary and intercultural in its approach, Global Communication in Transition examines the human dimensions and technological imperatives of international communications. Author Hamid Mowlana provides a comprehensive analysis beginning with the rise of modern political systems and the interactions of various cultures, through the expansion of social organizations and the growing global infrastructure. This unique perspective on global communication is organized around a number of basic concepts such as history, power, community, legitimacy, and language. By analyzing the political, economic, and cultural implications of communication today, within the broader concepts of such issues as community, Mowlana provides a new paradigm for the study of international communication. This auspicious text covers the history, theories, processes, and issues of international communication. Advanced undergraduates and graduate students in political science and international relations as well as communication will benefit greatly from the insightful scholarship
