THEY
THOUGHT IT
WAS DEAD.
THEY WERE

WRONG. Two
years ago, a
virus hit
London, killing
thousands of
people and
driving the
rest into
hiding. But
Leon has
somehow
survived,
making it
through two
harsh winters.

Now he's
living on the
fragile hope
that the
freezing snow
and ice of the
English
climate wiped
out the virus
for good.
Word even
reaches Leon
of a rescue
boat on its
way. But all is

not as safe as it seems. The virus has been busy... Praise for Plague Land: "Will immediately engross and terrify readers."

—VOYA "A thrilling family survival story, a clinical study of a fictional pathogen, body horror, and an action-packed dystopian narrative."

—Booklist "Terror, anxiety, and anticipation will flow rapidly through the veins of readers as they piece

together clues...in this fast-paced horror." —The Bulletin of the Center for Children's Books "A high-impact horrific thriller that will keep readers on the edge of their seat and begging for the next installment."

It's early April of 1945 and the dog-days of World War II. The Nazi regime is being slowly throttled by the oncoming

Russian and Allied armies and Hitler rages uselessly in his Berlin bunker. But the high command have one more throw of the dice to make. An audacious plan is hatched to save the Fatherland and beat off the oncoming apocalypse. All it will take is a hodge-podge squadron of escort fighters, a captured U. S. bomber, and one suicidally brave pilot to fly it over the

Atlantic into the beating heart of America. Half a century later, a rusting plane is discovered, sunk with its crew, off the coast of New York a relic from a bygone age. Chris Roland, a brilliant young photographer, is sent to take photos of this time capsule. But it is only when he discovers that the fragments of Nazi uniforms on the decaying corpses that he realizes that he has come across a secret so

terrible that even 50 years later it could still kill him *Plague Land: Reborn* Penguin UK Liam O'Connor should have died at sea in 1912. Maddy Carter should have died on a plane in 2010. Sal Vikram should have died in a fire in 2026. But all three have been given a second chance - to work for an agency that no one knows exists. Its purpose: to prevent time travel destroying history . . . In 1993 British

computer hacker Adam Lewis finds his name in a coded manuscript that is almost one thousand years old. How did Adam's name get in there . . . and why? Confronted by Adam in 2001, the TimeRiders travel back to Sherwood Forest in 1193 to discover the origins of the ancient message. But when a strange hooded man appears interested in the same thing, they begin to

wonder what terrible threat this cryptic link from the past holds for the future . . .

Akhir cerita bagi para Penjelajah Waktu akan segera berakhir. Sebagai satu usaha untuk mencegah kerusakan sejarah, Liam dan Maddy melompat kembali ke

Liam O'Connor, Maddy Carter, and Sal Vikram all should have died. But instead, they have been given a second chance-to work for an agency that no one knows exists. The TimeRiders' mission: to prevent time travel from destroying history-and the future. . . . When Maddy mistakenly opens a time window where and when she shouldn't,

Liam is marooned sixty-five million years in the past, in the hunting ground of a deadly, and until now undiscovered, species of prehistoric predator. Can Liam make contact with Maddy and Sal before he's hunted down by dinosaurs, and without changing history so much that the world is overtaken by a terrifying new reality? The second book in the thrilling TimeRiders series is just

as fast-paced, intelligent, and mind-bending as the first. *Ready Player One* Penguin UK Liam O'Connor should have died at sea in 1912. Maddy Carter should have died on a plane in 2010. Sal Vikram should have died in a fire in 2026. But all three have been given a second chance - to work for an agency that no one knows exists. Its purpose: to prevent time travel destroying history . . .

When Maddy finally unlocks fragments of the secret that Becks has been holding on to, the TimeRiders start to piece together their true purpose. Racing through time to connect the clues, the team discover a Mayan tribe and an ancient relic provides a vital link to the past and future. But not all the TimeRiders can cope with the discovery, and one threatens to bring them all down if they can act out

their revenge .

When a British computer hacker finds his name coded into a centuries-old manuscript, TimeRider Maddy recognizes it as the same message she had also been sent. Sure it must be communication from other TimeRiders

agents, she sends Liam and the two support units back to Robin Hood's time to search for the fabled document - possibly the Holy Grail. But as a war begins to brew between King Richard and his brother John, Liam unwittingly takes on the role of the Sheriff of Nottingham and discovers that the mythical Robin Hood may have been another support unit all along. This action-packed reimagining of

the Robin Hood legend, weaving elements of religion, alternative history, and time-travel ethics perfect for fans of The DaVinci Code, is a page-turner old fans and new ones alike won't want to miss.

LAST LIGHT

Puffin
When twins Sheridan and Taylor wake up 400 years in the future, they find a changed world: domed cities, no animals, and a language that's so different, it barely sounds like English. And the worst news: They

can't go back home. The twenty-fifth-century government transported the girls to their city hoping to find a famous scientist to help perfect a devastating new weapon. The same government has implanted tracking devices in the citizens, limiting and examining everything they do. Taylor and Sheridan have to find a way out of the city before the government discovers their secrets. To

complicate matters, the moblike Dakine has interest in getting hold of them too. The only way for the girls to elude their pursuers is to put their trust in Echo, a guy with secrets of his own. The trio must put their faith in the unknown to make a harrowing escape into the wilds beyond the city. Full of adrenaline-injected chases and heartbreaking confessions, *Erasing Time* explores the strength of

the bonds between twins, the risks and rewards of trust, and the hard road to finding the courage to fight for what you believe in. [The Jamie Drake Equation](#) Bloomsbury Publishing USA
