At the Scent of Water North Atlantic Books
Rain is elemental, mysterious, precious, destructive. It is the subject of countless poems and paintings; the top of the weather report; the source of the world's water. Yet this is the first book to tell the story of rain. Cynthia Barnett's *Rain* begins four billion years ago with the torrents that filled the oceans, and builds to the storms of climate change. It weaves together science—the true shape of a raindrop, the mysteries of frog and fish rains—with the human story of our ambition to control rain, from ancient rain dances to the 2,203

miles of levees that attempt to straitjacket the Mississippi River. It offers a glimpse of our "founding forecaster," Thomas Jefferson, who measured every drizzle long before modern meteorology. Two centuries later, rainy skies would help inspire Morrissey's mopes and Kurt Cobain's grunge. Rain is also a travelogue, taking readers to Scotland to tell the surprising story of the mackintosh raincoat, and to India, where villagers extract the scent of rain from the monsoon-drenched earth and turn it into perfume. Now, after thousands of years spent praying for rain or worshipping it; burning witches at the stake to stop rain or sacrificing small children to bring it; mocking rain with irrigated agriculture and cities built in floodplains; even trying to blast rain out of the sky with mortars

meant for war, humanity has finally managed to change the rain. Only not in ways we intended. As climate change upends rainfall patterns and unleashes increasingly severe storms and drought, Barnett shows rain to be a unifying force in a fractured world. Too much and not nearly enough, rain is a conversation we share, and this is a book for everyone who has ever experienced it.

One beautiful summer afternoon, Jody Linder receives shocking news: The man convicted of murdering her father is being released from prison and returning to the small town of Rose, Kansas. It has been twenty-three years since that stormy night when her father was shot and killed and her mother disappeared, presumed dead. Neither the protective embrace of Jody's

three uncles nor the safe haven of her grandparents' ranch could erase the pain caused by Billy Crosby on that catastrophic night. Now Billy Crosby is free, thanks to the efforts of his son, Collin, a lawyer who has spent most of his life trying to prove his father's innocence. Despite their long history of carefully avoiding each other in such an insular community, Jody and Collin find that they share an exclusive sense of loss. As Jody revisits old wounds, startling truths emerge about her family's tragic past. But even through struggle and hardship, she still dares to hope for a better future—and maybe even love. **BONUS:** This edition contains a *The Scent of Rain and Lightning* discussion guide.

The Rain Before It Falls HarperCollins To women the whole world over, perfume means glamour, and in the world of perfume, Jean-Claude Ellena is a superstar. In this one-of-a-kind book, the master himself takes you through the doors of his laboratory and explains the process of creating precious fragrances, revealing the key methods and recipes involved in this mysterious alchemy. Perfume is a cutthroat, secretive multibillion-dollar

industry, and Ellena provides an insider's tour, guiding us from initial inspiration through the mixing of essences and synthetic elements, to the deluxe packaging and marketing in elegant boutiques worldwide, and even the increasingly complicated safety standards that are set in motion for each bottle of perfume that is manufactured. He explains how the sense of smell works, using a palette of fragrant materials, and how he personally chooses and composes a perfume. He also reveals his unique way of creating a fragrance by playing with our olfactory memories in order to make the perfume seductive and desired by men and women the world over. Perfume illuminates the world of scent and manufactured desire by a perfumer who has had clients the likes of Cartier, Van Cleef & Arpels, Bulgari, and Hermés. **Coming to My Senses** Kensington Publishing Corp.

Sparks flew when serendipity struck, and Brick Starling first met Aurora Bradley. The magnetism between the two was obvious to everyone around them. In *The Ocean in a Thunderstorm*, Aurora told her version of the events. Every story has two sides. Now

true love story or an almost love story...

Nicholas Coughlan is twelve years old when his father, an Irish civil servant, announces that God has commanded him to become a painter. He abandons the family and a wife who is driven to despair. Years later, Nicholas's own civil-service career is disrupted by tragic news: his father has burned down the house, with all his paintings and himself in it. Isabel Gore is the daughter of a poet. She's a passionate girl, but her brother is the real prodigy, a musician. And yet this family, too, is struck by tragedy: a seizure leaves the boy mute and unable to play. Years later, Isabel will continue to somehow blame herself, casting off her own chances for happiness. And then, the day after Isabel's wedding to man she doesn't love, Nicholas arrives on her western isle, seeking his father's last surviving painting. Suddenly the winds of fortune begin to shift, sweeping both these souls up with them. Nicholas and Isabel, it seems, were always meant to meet. But it will take a series of chance events--and perhaps, a

proper miracle--to convince both to follow their hearts to where they're meant to be. The Scent of Rain and Lightning St.

"The Rain God is a lost masterpiece that helped launch a legion of writers. Its return, in times like these, is a plot twist that perhaps only Arturo Islas himself could have conjured. May it win many new readers." — Luis Alberto Urrea, bestselling author of *The House of Broken Angels* and *The Hummingbird's Daughter* "Rivers, rivulets, fountains and waters flow, but never return to their joyful beginnings; anxiously they hasten on to the vast realms of the Rain God." A beloved Southwestern classic—as beautiful, subtle and profound as the desert itself—Arturo Islas's *The Rain God* is a breathtaking masterwork of contemporary literature. Set in a fictional small town on the Texas-Mexico border, it tells the funny, sad and quietly outrageous saga of the children and grandchildren of Mama Chona the indomitable matriarch of the Angel clan who fled the bullets and blood of the 1911 revolution for a gringo land of promise. In bold creative strokes, Islas paints on unforgettable family portrait of souls

haunted by ghosts and madness--sinners torn by loves, lusts and dangerous desires. From gentle hearts plagued by violence and epic delusions to a child who can foretell the coming of rain in the sweet scent of angels, here is a rich and poignant tale of outcasts struggling to live and die with dignity . . . and to hold onto their past while embracing an unsteady future.

THE SCENT OF RAIN IN THE BALKANS

The Scent of Rain and Lightning Erica Bauermeister, the national bestselling author of *The School of Essential Ingredients*, presents a moving and evocative coming-of-age novel about childhood stories, families lost and found, and how a fragrance conjures memories capable of shaping the course of our lives. Emmeline lives an enchanted childhood on a remote island with her father, who teaches her about the natural world through her senses. What he won't explain are the mysterious scents stored in the drawers that line the walls of their cabin, or the origin of the machine that creates them. As Emmeline grows, however, so

too does her curiosity, until one day the unforeseen happens, and Emmeline is vaulted out into the real world—a place of love, betrayal, ambition, and revenge. To understand her past, Emmeline must unlock the clues to her identity, a quest that challenges the limits of her heart and imagination. Lyrical and immersive, *The Scent Keeper* explores the provocative beauty of scent, the way it can reveal hidden truths, lead us to the person we seek, and even help us find our way back home.

Signature scents and now-lost masterpieces; the visionaries who conceived them; the wild and wonderful campaigns that launched them; the women and men who wore them—every perfume has a tale to tell. Join Lizzie Ostrom on an olfactory adventure as she explores the trends and crazes that have shaped the way we've spritzed. One hundred perfumes and scents in all their fragrant glory reveal a fascinating social history of the past century. From the belle epoque through the swinging sixties, to

the naughty nineties and beyond, Ostrom brings intelligence and wit to this most ravishing of subjects. There was the patriotic impact of English Lavender during World War I and perfumes that captured the Egyptomania of the 1920s. Estee Lauder created "Youth Dew" and with it, distilled the essence of 1950's suburbia. Patchouli oil—the "anti-perfume" of the 1960s—was sure to keep money out of the hands of corporations and "the man." And who could forget the fervor created by the grunge androgyny of CK One? Scent is truly the passport to memory, making Perfume both a lush treat and an insightful examination of the twentieth century through the most mysterious of the five senses.

Smell is the most emotional and evocative of our senses: it can bring back memories faster and with more immediacy than a photograph - so why is it so little understood? Armed with a hungry

curiosity and a willingness to self-experiment, author Barney Shaw goes in search of the hidden meanings of smells. Using plain words to describe what he finds, he investigates the chemistry, psychology, history and future of this underappreciated sense. Journeying around boatyards, perfume shops and memories, Shaw opens your nose to the world, breaking down "chords" of smells into their component notes and through them revealing new ways of understanding the spaces through which we move. An investigation into the biology, psychology and history of smell, and a search for effective ways to put into words scents that we instantly relate to, but find strangely ineffable, THE SMELL OF FRESH RAIN includes a 200-entry thesaurus of succinct descriptions of common smells.

[The Scent Keeper](#) Thomas Nelson Inc "On the basis of a study of "east wind" in the Bible -- "whirlwind" in Job -- Janzen proposes that the prominence God gives to rain in Job 38, with its renewal of the parched earth and the ensuing vigor of all forms of life, signals God's response to Job's thirst, heals Job's bitterness, and restores him to a life at the end of which he dies contented. Janzen demonstrates how life-crippling bitterness is transcended and hope in life's worthwhileness is

restored in the face of grievous evil. The resolution of the Joban question lies not in a vindication of divine justice but, rather, in God's renewal of Job's appetite for life. Janzen underscores this interpretation with a candid epilogue on his own struggle with aggressive prostate cancer, which enabled him to connect personally with Job's story and to find a fresh and illuminating grace."--From publisher description. *The Virgin of Small Plains* Penguin The first young adult page-turner from New York Times bestselling author Gregg Hurwitz.
