Enter the “fascinating” and frightening  
world of modern forensic psychology as  
experienced by one of the most respected  
practitioners in the field today (Robert K.

Tanenbaum, New York Times–bestselling  
author). At the heart of countless crimes  
lie the mysteries of the human mind. In  
this eye-opening book, Dr. Cheryl Paradis  
draws back the curtain on the fascinating  
world of forensic psychology, and revisits  
the most notorious and puzzling cases she  
has handled in her multifaceted career.  
Her riveting, sometimes shocking stories  
reveal the crucial and often surprising role  
forensic psychology plays in the pursuit of  
justice—in which the accused may truly

believe their own bizarre lies, creating a  
world that pushes them into committing  
horrific, violent crimes. Join Dr. Paradis in a  
stark concrete cell with the indicted as she  
takes on the daunting task of mapping the  
suspect’s madness or exposing it as  
fakery. Take a front-row seat in a tense,  
packed courtroom, where her testimony  
can determine an individual’s fate—or if  
justice will be truly served. The criminal  
thought process has never been so  
intimately revealed—or so darkly

compelling—as in this “excellent and entertaining” journey into the darkest corners of the human mind (Booklist). *Every Street is Paved with Gold* Citadel Press

"This practical and helpful volume details how clinicians can work through various and common challenges inherent to psychotherapy, whether within the context of individual, marital, or group settings. Chapters draw upon wisdom gleaned from the author's 48 years as a practicing psychiatrist to address topics such as using countertransference for therapeutic purposes; resistance, especially when it needs to be the focus of the therapy; and a prioritization of exploration over explanation and favor working in the here-and-now. Along with theory and clinical observations, Dr. Gans offers a series of

"Clinical Pearls," pithy comments that highlight different interventions to a wide range of clinical challenges. These include patient hostility, the abrupt termination of therapy, treating a couple that's lost compassionate neutrality, and more. In addition to offering advice and strategies for therapists, the book also addresses foundational concerns like the matter of fees in private practice and the virtue of moral courage on the part of the therapist. Written with clarity, heart, and an abundance of clinical wisdom, *Challenging Moments in Psychotherapy* is essential reading for all clinicians, teachers, and supervisors of psychotherapy"--

This first book of its kind tells the behind-the-scenes story of the incredibly illegal Cannonball rally. This best seller is now available in paperback! In the early 1970s, Brock Yates, senior editor of *Car and Driver Magazine*, created the now infamous Cannonball Sea-to-Shining-Sea Memorial Trophy Dash; a flat out, no-

holds-barred race from New York City to Redondo Beach, California. Setting out to prove that well trained drivers could safely navigate the American highways at speeds in excess of the posted limits, Mr. Yates created a spectacle reminiscent of the glory days of the barnstorming pilots. Filled with fascinating unpublished stories, nostalgic and modern-day photographs, inside information and hilarious stories from this outrageous and incredibly immoral rally. Brock is one of the best-known, most respected automotive journalists in the world today.

Details the construction, operation, diagnosis, service, and repair of late-model automobiles and light trucks. "This pioneering study of United States direct investment in Japan will interest academic specialists, business managers, and government policymakers in America, Japan, and elsewhere. Drawing on rich historical materials from both sides of the Pacific, including corporate records and government documents never before made public, Mason examines the development of both Japanese policy towards foreign investment and the

strategic responses of American corporations. This history is related in part through original case studies of Coca-Cola, Dow Chemical, Ford, General Motors, International Business Machines, Motorola, Otis Elevator, Texas Instruments, Western Electric, and Victor Talking Machine. The book seeks to explain why a little foreign direct investment has entered modern Japan. In contrast to the widely held view that emphasizes an alleged lack of effort on the part of foreign corporations, this study finds that Japanese restrictions merit greater attention. Many analysts of the modern Japanese political economy identify the Japanese government as the key actor in initiating such restrictions. Mason finds that the influence of Japanese business has often proved more potent than these analysts suggest. This book offers fresh insights into both the operation of the modern Japanese political economy and of its relations with the world economy."
