PhAgricultural Economics, Third Edition, offers a broad view of the
food system, emphasizing the links between and among financial
institutions, the macro economy, world markets, government
programs, farms, agribusinesses, food marketing, and the
environment. The text lays out the basic theory of
microeconomics with numerous examples from the food and
agricultural industries, while its coverage of macroeconomics
emphasizes real world applications rather than pure
theory.Agricultural Economics (3rd Edition): 9780136071921
