Learn how to foster meaningful, lasting connections within your community, whether face-to-face or online, by creating a small-group culture through a proven five-step strategy. Now, more than ever, people need community. Though digital "connections" are skyrocketing in today's culture, deep relationships are in steep decline. People are eating out (and on the run) more—and going into an office less. As evidence of the stress on our social fabric, rates of loneliness and isolation, along with mental health issues, continue to climb. Our need for community is clear, and people are turning to churches to find a place to connect, belong, and grow. You know that a healthy small-group environment doesn't just happen. It requires a clear vision, a thoughtful plan, and an experienced guide. It takes intentional effort to make it a reality. This book lays out the plan you need, whether your group is meeting in person or digitally, to intentionally build meaningful, lasting connections and spiritual growth in your church community.

The construction of buildings is learnt through experience and the inheritance of a tradition in forming buildings over several thousand years. Successful construction learns from this experience which becomes embodied in principles of application. Though materials and techniques change, various elements have to perform the same function. 'Principles of Element Design' identifies all the relevant elements and then breaks these elements down into all their basic constituents, making it possible for students to fully understand the given theory and principles behind each part. As all building projects are subject to guidance through the Building Regulations and British Standards, this book gives an immediate reference back to relevant information to help practitioners and contractors identify key documents needed. Yvonne Dean B.A. (Hons) B.A (Open) RIBA, an architect, energy consultant and materials technologist. She also has 15 years experience as a lecturer, travels widely and is a guest lecturer at many universities. She pioneered an access course for Women into Architecture and Building, which has been used as a template by others, and has been instrumental in helping to change the teaching of technology for architects and designers. Peter Rich AA Dipl. (Hons) Architect, started his career with 14 years experience as a qualified architectural technician. He then joined the AA School of Architecture, working with Bill Allen and John Bickerdike after his graduation, later becoming a partner of Bickerdike Allen Rich and Partners. He also taught building construction at the Bartlett School of Architecture, University College London, and architectural design at the Polytechnic of North London. He now acts as a Consultant.

This collection of articles on varied facets of early modern Bengal showcases cutting edge work in the field and hopes to encourage new research. The essays explore the trading networks, religious traditions, artistic and literary patronage, and politico-cultural practices that emerged in roughly sixteenth-eighteenth centuries. Using a wide array of sources, the contributors to this volume, coming from diverse academic affiliations, and including many young researchers, have attempted to address various historiographical 'black holes' bringing in new material and interpretations. Early modern Bengal's history tends to get overshadowed by the later developments of the nineteenth century. What this assortment of articles highlights is that this period needs to be studied afresh, and in depth. The region underwent rapid transformations as it got politically integrated with Northern India and its empires and economically with extensive global economic networks. Combined with its unique geography, the trajectory of this region in all spheres manifest an almost constant interplay of local and extra-local forces – be it in literature, art, economic domain, political and religious cultures – and considerable enterprise and ingenuity. Thus, a variety of themes – including travel accounts, Portuguese and Arakanese presence, early Dutch, French, Ostend companies' forays into the region, artistic production in the Nizamat and later collections of art and missionaries, the English company state's intrusions in local economy in salt and raw silk production and indigenous reactions and rebellions, consumption practices related to religious activities, circulation and translation of texts, representation of women in vernacular writings, and organization of religious traditions – have been analysed in this volume, with a wide ranging introduction tying up the themes to the broader historiographical issues and contexts. The collection will be an invaluable reference tool for students and scholars of history, especially of early modern India. Please note: This title is co-published with Manohar Publishers, New Delhi. Taylor & Francis does not sell or distribute the Hardback in India, Pakistan, Nepal, Bhutan, Bangladesh and Sri Lanka.

Welcome to the Seventh Terrace of Dante's tower of Purgatory. Here, in darkness lit only by a wall of flame, we find souls enslaved by the sin of lust. Lust is a great and terrible thing, and this collection of dark tales follows a mere handful of the many paths leading to the wall of fire.

The Trace-Fossil Record of Major Evolutionary Events Parragon Publishing India

Crushed by successive crop failures and the burden of debt, Sudhakar Bhadra kills himself. The powerful district committee of Mityala routinely dismisses the suicide and refuses compensation to his widow. Gangiri, his brother, makes it his life's mission to

bring justice to the dead by influencing the committee to validate similar farmer suicides. Keyur Kashinath of the Democratic Party-first-time member of Parliament from Mityala, and son of Vaishnav Kashinath, the party's general secretary-is the heir to his father's power in Delhi politics. He faces his first crisis; every suicide in his constituency certified by the committee as debt-related is a blot on the party's image, and his competence. The brilliant farmer battles his inheritance of despair, the arrogant politician fights for the power he has received as legacy. Their two worlds collide in a conflict that pushes both to the limits of morality from where there is no turning back. At stake is the truth about 'inherited' democratic power. And at the end, there can only be one winner. Passionate and startlingly insightful, *Shoes of the Dead* is a chilling parable of modern-day India.
