Many have traveled this road before. Here's how you can, too.

#choosemust An inspirational gift book for every recent graduate, every artist, every seeker, and every career change.

Grej of the day is the popular Swedish method to transmit interesting knowledge in such a manner that students say Wow! You present them with a clue and the following day you tell them about the topic in a short micro lesson. Students go home with an exciting story to tell, instead of having learnt 'the usual' at school. Everyone can work with it, it fits into every lesson plan and it is fun! You can do it every day, or a few times per week. It is suitable for all ages and all types of schools. In this book, the Swedish teacher and inspirational speaker Micael Hermansson explains the success behind his method and

how to achieve maximum impact with it. He provides 15 lessons to get you started. You can get going at once. And once you understand how it works, it is easy to prepare your own micro lessons.

Wild Will Kingfisher Paint by Sticker Kids just gets stronger and stronger, with the last three titles—Unicorns & Magic, Halloween, and Christmas—on fire. With over 1.7 million copies in print, and with sales increasing every season, it is the phenomenal activity book series that marries the joy of paint by number and coloring with every kid's favorite thing—stickers. And now add dinosaurs—what could be better? Kids will have a blast “painting” an armored Ankylosaurus, and an agile Velociraptor, now known to have been covered in feathers. And don't forget about the

king of them all: a ferocious T-Rex, which could eat 500 pounds of meat in one bite! New to the series, on the back of each image is a paragraph of lively text packed with facts about the dinosaur pictured, how it lived, and how to pronounce its name. Designed especially for children and their smaller hands, the Paint by Sticker Kids series offers a quiet, completely absorbing, no-mess activity that—bonus!—encourages kids to practice number recognition without them even thinking they're doing math. The way it works is simple: Find the numbered sticker, peel it, and place it in the right space. Add the next, and the next—and see the images come to life in the “low-poly” style that uses geometric shapes. The card-stock pages are perforated, allowing the artwork to be easily removed so kids can hang them up as decorations or proudly display them on the fridge. In other words, hours and hours of artistic fun with none of the hassle or cleanup!
