The inspiring, unlikely, laugh-out-loud story of how one woman learned to lead—and how she ultimately succeeded, not despite her many mistakes, but because of them. This is the story of how Kristen Hadeed built Student Maid, a cleaning company where people are happy, loyal, productive, and empowered, even while they're mopping floors and scrubbing toilets. It's the story of how she went from being an almost

comically inept leader to a sought-after CEO who teaches others how to lead. Hadeed unintentionally launched Student Maid while attending college ten years ago. Since then, Student Maid has employed hundreds of students and is widely recognized for its industry-leading retention rate and its culture of trust and accountability. But Kristen and her company were no overnight sensation. In fact, they were almost nothing at all. Along the way, Kristen got it wrong almost as often as she got it right. Giving out hugs instead of feedback, fixing errors instead of enforcing accountability, and hosting parties instead of cultivating meaningful relationships were just a few of her many mistakes. But Kristen's willingness to admit and learn from those mistakes

helped her give her people the chance to learn from their own screwups too.

Permission to Screw Up dismisses the idea that leaders and organizations should try to be perfect. It encourages people of all ages to go for it and learn to lead by acting, rather than waiting or thinking. Through a brutally honest and often hilarious account of her own struggles, Kristen encourages us to embrace our failures and proves that we'll be better leaders when we do.

Simon and Schuster

From award-winning Wall Street Journal reporters, “a startling portrait of one of our greatest tech visionaries, Zappos CEO Tony Hsieh” (Robert Kolker, author of Hidden Valley Road), reporting on his short life, untimely death, and what that

means for our pursuit of happiness. Tony Hsieh—CEO of Zappos, Las Vegas developer, and beloved entrepreneur—was famous for spreading happiness. He lived and breathed this philosophy, instilling an ethos of joy at his company, outlining his vision for a better workplace in his New York Times bestseller *Delivering Happiness*. He promoted a workplace where bosses treated employees like family members, where stress was replaced by playfulness, and where hierarchies were replaced with equality and collaboration. His outlook shaped how we work today. Hsieh also aspired to build his own utopian cities, pouring millions of dollars into real estate and small businesses, first in downtown Las Vegas, Nevada—where Zappos is

headquartered—and then in Park City, Utah. He gave generously to his employees and close friends, including throwing notorious Zappos parties and organizing gatherings at his home, an Airstream trailer park. When Hsieh died suddenly in late 2022, the news shook the business and tech world. Wall Street Journal reporters Kirsten Grind and Katherine Sayre discovered Hsieh's obsession with happiness masked his darker struggles with addiction, mental health, and loneliness. In the last year of his life, he spiraled out of control, cycling out of rehab and into the waiting arms of friends who enabled his worst behavior, even as he bankrolled them from his billion-dollar fortune. Happy at Any Cost sheds light on one of our most creative, yet vulnerable, business leaders. It's

about our intense need to find “happiness” at all costs, our misguided worship of entrepreneurs, the stigmas still surrounding mental health, and how the trappings of fame can mask all types of deeper problems. In turn, it reveals how we conceptualize success—and define happiness—in our modern age.

"If there's one thing I know, it's crazy. A lot of people have called me crazy. Crazy Kristen! For a while there, it was practically my name. Women all over the world get called crazy every day. sometimes cringe-worthy dating history, *He's Making You Crazy* will hold your hand through deep self-reflection—while giving you that push to put on your detective's hat and hack your man's email account if you need to. From trapping your boyfriend in ridiculous lies to gathering all your crush's security question answers on the first date, Kristen shares her no-holds-barred, hysterically funny, and hard-earned advice on men, love, and modern dating. *He's Making You Crazy* will give you the motivation you need to get out of an unhealthy relationship (the one that's making you crazy!), the wisdom to step up and admit when you're the one in the wrong, and the courage to keep your heart open through it all.

A revised and updated edition of the landmark work the New York Times hailed as “a call to action for every developer, building owner, shareholder, chief executive, manager, teacher, worker and parent to start demanding healthy buildings with cleaner indoor air.” For too long we’ve designed buildings that haven’t focused on the people inside—their health, their ability to work effectively, and what that means for the bottom line. An authoritative introduction to a movement whose vital importance is now all too clear, *Healthy Buildings* breaks down the science and makes a compelling business case for creating healthier offices, schools, and homes. As the COVID-19 crisis brought into sharp focus, indoor spaces can

make you sick—or keep you healthy. Fortunately, we now have the know-how and technology to keep people safe indoors. But there is more to securing your office, school, or home than wiping down surfaces. Levels of carbon dioxide, particulates, humidity, pollution, and a toxic soup of volatile organic compounds from everyday products can influence our health in ways people aren't always aware of. This landmark book, revised and updated with the latest research since the COVID-19 pandemic, lays out a compelling case for more environmentally friendly and less toxic offices, schools, and homes. It features a concise explanation of disease transmission indoors, and provides tips for making buildings the first line of defense. Joe Allen and John Macomber

dispel the myth that we can't have both energy-efficient buildings and good indoor air quality. We can—and must—have both. At the center of the great convergence of green, smart, and safe buildings, healthy buildings are vital to the push for more sustainable urbanization that will shape our future.

After the first taste of her Christmas cookies I wanted to shove the whole thing in my face. The whole plate of cookies, that is. Not...you know. Christmas is bad enough without one of The Great Christmas Bake-Off contestants all wrapped up in a bow under my tree. Er...I meant...Christmas is horrible, right?! Holly Christmas is like the perfect sugar cookie--it slowly melts in your mouth, sweetening every taste bud, making you wish it could last forever. I love Christmas! I love the cheerful music, the fun sweaters, and

the holiday lights. Most of all I love Christmas Cookies! Grouchy billionaire Owen Frost is a begrudging bake-off judge, and I refuse to let him hate Christmas. The man is overworked, his employees are uninspired, and his life is seriously lacking in Yuletide cheer. I want to stuff his stocking with sugary goodness to put him in a very festive mood. But I'm not looking for holiday romance--just to spread a little Christmas cheer. After all, along with being the queen of baking, I am also the princess of bad decision making skills, complete with a failing business and a mound of student loan debt. And sleeping with Owen, with his washboard abs and big Christmas package would be my worst idea yet. But when he unwraps me like a perfectly decorated Christmas

present and says in that deep, sexy voice, "Can I have another taste of your Christmas cookies?" Well, let's just say Christmas is coming early this year! Tasting Her Christmas Cookies is a standalone holiday romantic comedy. If you love Christmas desserts, like to laugh out loud at holiday innuendoes, and want Santa to put a tall, good-looking guy under your tree, then pick up this full-length, steamy romance novel!
